RESCUE YOUR
BUSINESS CENTRAL
IMPLEMENTATION

■■ Microsoft

RESCUE BC

Our Assessment identifies and fixes the root cause of your issues, maximizing your Business Central, if you are you experiencing challenges in:

- **Financial Management:** Slow reconciliation, inaccurate reporting, inefficient budgeting and forecasting?
- **Purchasing:** Difficulty managing purchase orders, vendor relationships, or inventory control?
- **Sales & Order Management:** Inefficient quotation processes, delayed deliveries, or lack of customer insights?
- **Warehouse & Inventory Management:** Stockouts, inaccurate inventory levels, or inefficient warehouse workflows?
- **Production Planning & Control:** Production delays, material shortages, or difficulty managing work orders?
- **Service Management:** Ineffective service scheduling, dispatching, or difficulty tracking project costs?
- Uncertainties about optimal licensing utilization for any of these Business Central areas?

Our Business Central Assessment:
Performs a comprehensive health check across all your Business Central modules, including:

Basic Pack:

- Financials
- Purchases
- Sales
- Analyzes workflows, identifies bottlenecks, and assesses data accuracy within each module.
- Evaluates user adoption, training gaps, and licensing usage specific to each Business Central function.

Advanced Pack

- Warehouse
- Production
- Services
- Projects
- Audits customizations and integrations for potential conflicts within specific areas.
- Provides a clear roadmap for optimal system rescue, process improvement, and licensing optimization.
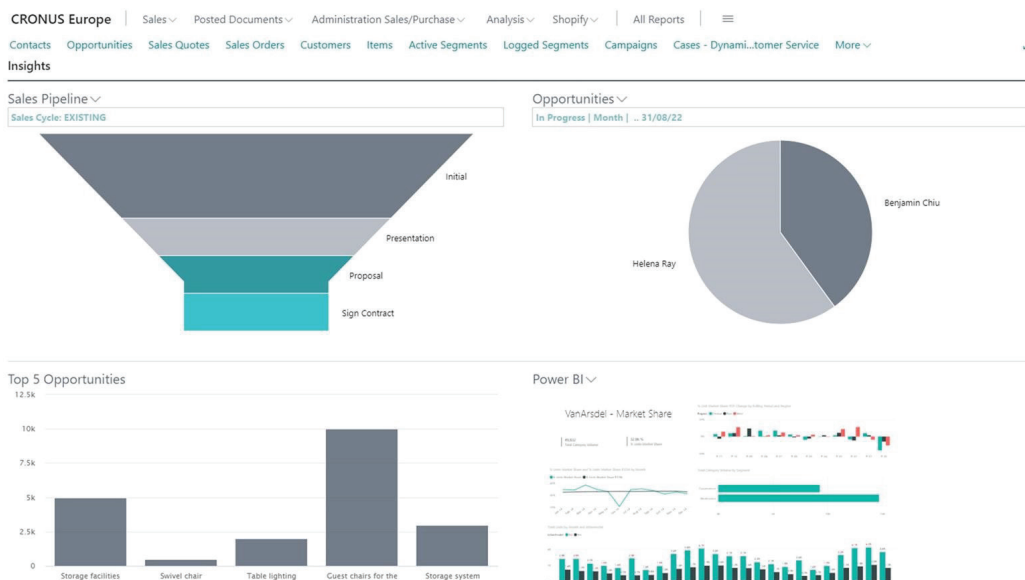

Our Business Central Assessment:
Benefits:

Basic Pack:

- Improved performance and reduced frustration across all Business Central areas.
- Enhanced data accuracy, reporting, and financial control.
- Streamlined workflows, increased efficiency, and improved customer satisfaction.
- Cost reduction through optimized licensing utilization for specific Business Central functionalities.

Advanced Pack

- Optimized inventory management, reduced stockouts, and cost savings
- Improved production planning, reduced delays, and better resource allocation.
- Effective service management, streamlined scheduling, and accurate project costing.
- Peace of mind with optimized system, efficient workflows, and a cost-effective licensing plan.
