

Arvato Flex Cloud

WE MEET YOUR EXPECTATIONS FOR YOUR CLOUD INFRASTRUCTURE - WITH OUR PLATFORM FOUNDATION AND LANDING ZONES APPROACH BY ARVATO SYSTEMS

We accelerate your Azure Cloud Journey with our Enterprise scale cloud architecture, you still retain control of all core services in your environment, but at the same time benefit from the flexibility, security and compliance of the Microsoft Azure Cloud.

Traditional Approach vs. Platform Foundation and Landing Zones

Most organizations sacrifice speed for control when it comes to running the cloud environment. Operational and development processes are reviewed by developers before they can be implemented, which costs time. With Platform Foundation and Landing Zones, built-in controls and policies are used instead of workflows to speed up operations and development.

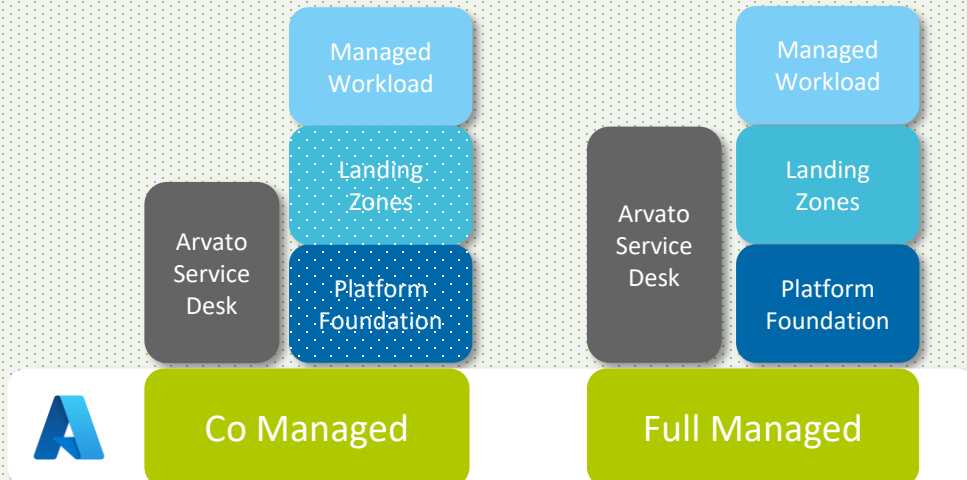

Arvato Systems is the No. 1 partner for your individual Cloud Strategy and Infrastructure!

PLATFORM FOUNDATION OPERATING MODEL

Workload-Implementation (IaaS) by Arvato Systems, changes or upgrades provided by customer directly in the infrastructure Code

Platform Foundation and Landing Zone is provisioned and operated by Arvato Systems.

WHY PLATFORM FOUNDATION AND LANDING ZONES?

Accelerate your Cloud Journey

- Individually customizable to your specific requirements and products
- Use Azure as trusted extension of your On-Premise Datacenter, or take advantage of the whole Cloud experience in Azure
- Cloud Foundation Growth is aligned with the speed of your Cloud Journey
- Get started to use Azure with beginner skills
- Providing a Cloud Platform in almost no time

Secured & Compliant Foundation

- Full orchestration and support services to keep your new public cloud data center compliant, secure and running.
- Secure governance framework applied through role-based access to Azure and subscription management.
- Secure baseline environment with complete visibility into threat and security landscape
- Aligned to Azure Architecture blueprints, MS Virtual Data Centre guidance and further Cloud Security standards

Easy to Manage & Develop

- Arvato Systems Cloud Foundation can easily be connected to the customer network to enable migration.
- Co-and Self-Management of Azure Landing Zones and Workloads on a Secure Basis!
- Designed to scale as services are built or moved to Azure.
- Allowing Innovation without compromising security and governance.

POSSIBLE PLATFORM FOUNDATION CONFIGURATION WITH MULTIPLE LANDINGZONES

Enterprise Scale Cloud Architecture

Landing Zone 1
(Self-Managed)

Landing Zone 2
(Self-Managed)

Landing Zone 3
(Co-Managed)

Landing Zone 4
(Full-Managed)

Platform Foundation

Identity and Access
Management

Management &
Monitoring

Network & Connectivity

Security & Governance

ARVATO SYSTEMS DELIVERS PLATFORM FOUNDATION CONFIGURATION DESIGNED TO MEET YOUR NEEDS

Landing Zones

- Flexible monthly fee based on consumption
- Consistent calculation of consumption across all landing zones (Co- and Full-Managed)
- Pay as you go per Landing Zone
- lower percentage of fees proportional to higher consumption

FIXED MONTHLY FEE BASED ON CONFIGURATION LEVELS

Standard

Start in Cloud with WebApps, Company
location connection

Business
