Arvato OneEAI Platform

Fast, effective and cross-system for your business process! We optimize and digitize your value chain with Azure AI.

There are many support processes that are time-consuming and therefore cost-intensive for companies. OneEAI and Azure AI automate and unify these processes.

System Integration as a Service

Present challenges - high IT support overhead for monitoring and supervising across multiple tools, as well as the range of requests across system boundaries - now present an opportunity to enable enterprise-wide data and business process integration.

Arvato Systems is your No. 1 partner for Enterprise App Integration & API Management

| Reduce your IT costs for your legacy EAI platform.	Trust in the scalability and flexibility of Azure as well as SAP Cloud Integration	Special Features
• Save costs in the long term by replacing on-premises hosted EAI solution or in hybrid operation with OneEAI • Usage-based billing and reduced effort in API management reduces the TCO of an EAI platform. • AI based automation streamlines support processes	• System-wide business view of the process • Proactive & Reactive Monitoring • Support and ongoing development of the system globally • Reduction of multiple tools to one system • Saves time and capacity	• performant full text search • A global overview of all middleware landscapes • Customized reporting • Ticket handling is done via Robot (AI) • Simplified interface requirements • ISO certified 24/7 support in German and English

OneEAI streamlines the interfaces of a "classic" EAI system, saving time and resources.

Our Offer:
- Consulting for API management and messaging of your applications.
- SaaS automation & self-service for business departments and project teams
- Unified support processes through AI and Azure Cloud-based automation
