## Ascend Azure Assessment

Health check and full review of your current footprint to enrich your cloud strategy.

04/20/2023

A US-based Regional Healthcare Group with 110 locations and 5,000 employees.

# Regional Healthcare Group Needed Azure Assessment

<b>Primary challenges</b>	This organization needed a full ATG Azure Assessment which surveyed application estate, prioritized workloads, evaluated cloud suitability and provided a full roadmap for Azure Landing Zone and Migration.
	
<b>Ideal solution</b>	Ascend Technologies Group provided our Ascend Azure Assessment.
	
<b>Desired outcomes</b>	We provided a phased approach to Azure which began with Disaster Recovery workloads and will continue with Tier 1 and 2 workloads over a period of 12-18 months.
	

## Ascend Azure Assessment

Health check and full review of your current footprint to align to best practices and enrich your cloud strategy.

### **Full Review of Current Footprint**

A full review of your current footprint against your business goals and best practices.

### **Review of Cloud Infrastructure**

ATG reviews the health of your Azure cloud infrastructure and operational practices.

### **Detailed Recommendations**

Provide detailed recommendations, prioritized for your consideration, to enrich your cloud strategy.

# Ascend Technologies Group LLC, Ascend Azure Assessment, and Azure

Microsoft Azure is the ultimate cloud computing platform for enterprise-level organizations.

Conducting an assessment includes surveying application estate, prioritizing workloads, evaluating cloud suitability, and providing a full roadmap for Azure Landing Zone and Azure Migration.

## > Digital Transformation is Coming

Today's cloud-based systems are allowing companies to make a once-in-a-generation shift in how they interact internally and externally.

## > Advanced Security Capabilities

Azure's multi-layered security approach comprises:

- Proactive monitoring
- Data encryption
- Network segregation
- Compliance with industry standards

## > Highly Customizable Platform

-Platform architecture

-Security controls

-Service offerings

Streamline your cloud migration journey!

# Customer success: In-Depth Guidance & Getting a Company Baseline

This organization needed a baseline for their company and a plan of where they needed to go and how to get there.

ATG surveyed their application estate, prioritized workloads, evaluated cloud suitability and provided a full roadmap for Azure Landing Zone and Migration

## Enterprise Client

This Regional Healthcare Group with 110 locations and 5,000 employees needed a full Azure Assessment.

## Phased Approach

To ensure business continuity, we recommended a phased approach to Azure with DR workloads, and to continue Tier 1 & 2 workloads over 12-18 months.

## 35% Cost Reduction

"ATG's optimization effort yielded a 35% monthly cost reduction and more than \$500k in annual savings on Azure resources. We are very satisfied."
