

MODERN DESKTOP ASSESSMENT SERVICE

**EVALUATE YOUR IT READINESS
IMPROVE PRODUCTIVITY AND SECURITY
REDUCE COSTS**

EMBRACE NEW WAYS OF WORKING WITH A MODERN DESKTOP DEPLOYMENT

CHALLENGES

Investing in on-premises solutions ties companies to old-world economies of scale

For companies operating in global markets, features and capabilities must be agile to remain competitive and stand out.

- On-premise infrastructure and technology solutions don't scale easily
- New features and technology can't be implemented readily
- Upgrade pathways can be uncertain and costly, requiring domain expertise

SOLUTIONS

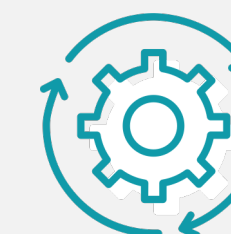

A complete modern desktop roadmap, ensuring solutions are built to purpose

Fast-track digital transformation by capturing technology and processes that benefit whole-business efficiency.

- Thoroughly assess digital transformation maturity and create your unique roadmap
- Identify systems that will become obsolete or provide diminishing returns
- Bespoke, integrated Microsoft cloud and endpoint solutions, managed end-to-end

OUTCOMES

Providing certainty and efficiency for your business operations and technology

Uplifting operations today while securing future success requires a comprehensive, forward-looking assessment of digital capability.

- Understand what your business needs to succeed today and grow tomorrow
- Optimise the present tech stack and future-proofing upgrade pathways
- Empower business operations with trusted technology and support

MIGRATE WITH CONFIDENCE TO MICROSOFT MODERN DESKTOP

THE ASI SOLUTIONS THREE-DAY ASSESSMENT WILL LET US ASSESS YOUR ENVIRONMENT AND GUIDE YOU ON HOW TO SEAMLESSLY INTEGRATE MICROSOFT MODERN DESKTOP INTO YOUR BUSINESS.
