Analytics Market

Enterprises keep investing in data analytics

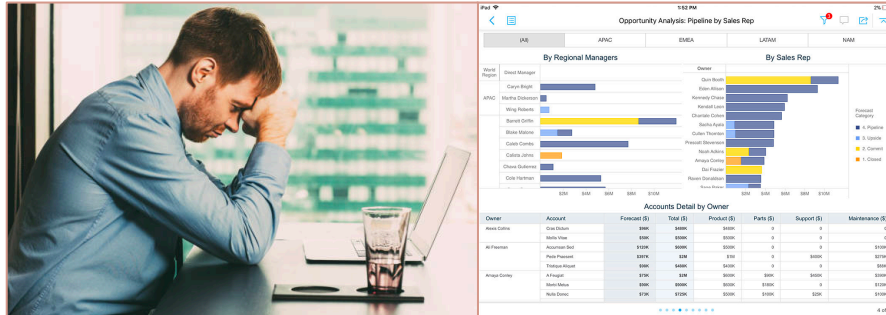

21% average YoY

Problem

But Only 6% of employees access data on a daily basis

Because Accessing data is complex

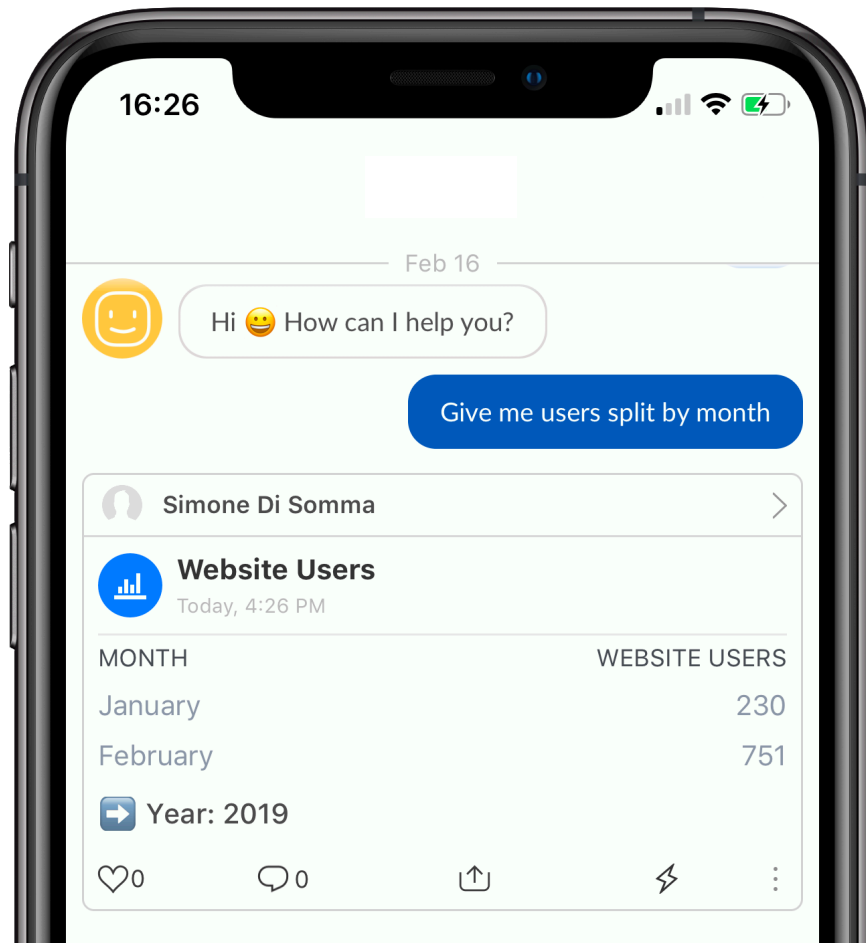

People ask someone else, or they simply give up

Solution

AskData is a unified
Natural Language Interface
to search for data.

USERS CAN ASK QUESTIONS AND GET ANSWERS RIGHT AWAY

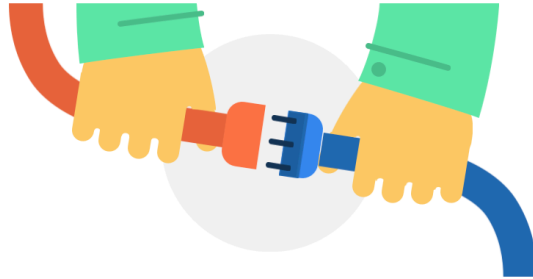

How it works

**You can simply connect your data
And start making data questions**

No manual training is required

Zero training setup

- 1. You connect your data**
- 2. AskData indexes data**
- 3. Users get instant Answers**

Designed for the future

**By 2022 Natural Language Queries will
account for 50% of all the requests***

100% of the Employees will need AskData

Problem obsessed since 2014

Simone Di Somma
CEO and Co-founder

Giuseppe Ancona
CTO and Co-founder

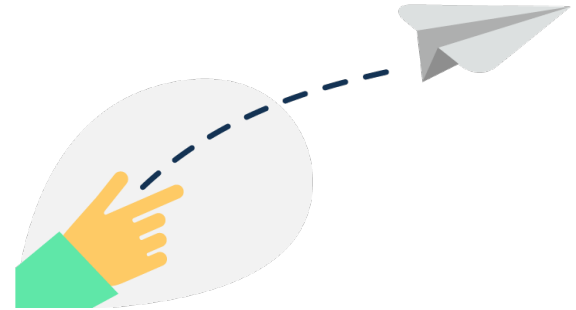

**Hands-on experience with +30 enterprises,
across 3 continents.**

Use of Proceeds

Use of proceeds:

1. Commercial organization development
2. Self-service platform scale-up
3. Content Marketing

Join the **data \human** revolution
