# Aspen Geolog™: The industry standard in advanced petrophysical innovation

ABOUT ASPENTECH

Aspen Technology, Inc. is a global software leader helping industries at the forefront of the world's dual challenge meet the increasing demand for resources from a rapidly growing population in a profitable and sustainable manner. AspenTech solutions address complex environments where it is critical to optimize the asset design, operation and maintenance lifecycle. Through our unique combination of deep domain expertise and innovation, customers in capital-intensive industries can run their assets safer, greener, longer and faster to improve their operational excellence. To learn more, visit AspenTech.com.

"Geolog is more stable and versatile than any petrophysical software I've ever used. Throughout my career, I've used it to improve efficiency and quality, reduce costs and increase output in formation evaluations."

Idang Danison, Senior Petrophysicist, Super-Major

What We Offer

The Aspen Geolog Formation Evaluation product suite provides petrophysical and geological analysis tools, well data management, superior graphics and robust data integration. Fully scalable and customizable, Geolog meets the needs of users from generalist geologists, to expert petrophysicists, to engineers working in field development. Geolog helps team members access well data in a shared repository to improve collaboration.

- An intuitive, interactive, Windows-style interface is easy to use and consistent across multiple platforms..

- A multi-well, multi-user, multi-zone wellbore data storage and interpretation ecosystem enhances collaboration and streamlines data management and sharing.

- Supports the Open Subsurface Data Universe initiative R3 read-write connectivity.

Why Microsoft Azure?

Be future-ready

Continuous innovation from Microsoft supports your development today, and your product visions for tomorrow. With 1,000+ new capabilities in the past year, you can build on the latest advancements in AI, blockchain, Kubernetes, containers, and databases to keep you ahead of the curve.

Our enterprise grade analytics solution outperforms the competition, costs less, and is fully compatible with your existing development, BI, and data-science tools.

Operate hybrid seamlessly

On-premises, in the cloud, and at the edge—we'll meet you where you are. Integrate and manage your environments with tools and services designed for hybrid cloud.

Enhance security, simplify access, and set smart policies across your different environments with a single-identity platform trusted by 90% of enterprises globally.

Build on your terms

You have choices. With a commitment to open source and support for all languages and frameworks, build and deploy how you want to. Take advantage of the full-featured, integrated development environments with built-in support Visual Studio and Visual Studio Code, the most popular IDEs trusted by 15M+ developers.

We embrace open source, drive innovation through collaboration, and contribute back to the community.

Trust your cloud

Get security from the ground up, backed by a team of experts, and proactive compliance trusted by enterprises, governments, and startups.

With a $1B+ investment in security R&D and 3,500 cybersecurity experts, security is foundational for Azure.

Microsoft Azure

Microsoft Azure is an ever-expanding set of cloud computing services to help your organization meet its business challenges. With Azure, your business or organization has the freedom to build, manage, and deploy applications on a massive, global network using your preferred tools and frameworks.
