# Aspen SKUA™: Better Field Development through True Collaboration and Geological Integrity

ABOUT ASPENTECH

Aspen Technology, Inc. is a global software leader helping industries at the forefront of the world's dual challenge meet the increasing demand for resources from a rapidly growing population in a profitable and sustainable manner. AspenTech solutions address complex environments where it is critical to optimize the asset design, operation and maintenance lifecycle. Through our unique combination of deep domain expertise and innovation, customers in capital-intensive industries can run their assets safer, greener, longer and faster to improve their operational excellence. See what customers are saying:

"SKUA-GOCAD is my main software used during a day at The Geysers. Without it, I would be like a carpenter without a hammer."

Craig Hartline, Calpine Corporation

WHAT WE OFFER

Aspen SKUA provides high-definition 3D modeling of the subsurface for sustainable Earth resource management. Its collaborative platform removes silos and enables geoscientists and engineers to integrate, visualize and analyze all subsurface data, extract insights, and build reliable fit-for-purpose 3D models at local and regional scales. Guided step-by-step workflows, integrated uncertainty modeling and rich scripting capabilities help users make timely, risk-informed decisions.

- Comprehensive uncertainty propagation from structure to simulation, repeatable workflows and evergreen models result in lower-risk management decisions.

- Handle the most adverse and complex geological settings to create accurate subsurface models for planning and forecasting.

- A rich development toolkit and scripting APIs for innovation, automation and prototyping.

Why Microsoft Azure?

Be future-ready

Continuous innovation from Microsoft supports your development today, and your product visions for tomorrow. With 1,000+ new capabilities in the past year, you can build on the latest advancements in AI, blockchain, Kubernetes, containers, and databases to keep you ahead of the curve.

Our enterprise grade analytics solution outperforms the competition, costs less, and is fully compatible with your existing development, BI, and data-science tools.

Operate hybrid seamlessly

On-premises, in the cloud, and at the edge—we'll meet you where you are. Integrate and manage your environments with tools and services designed for hybrid cloud.

Enhance security, simplify access, and set smart policies across your different environments with a single-identity platform trusted by 90% of enterprises globally.

Build on your terms

You have choices. With a commitment to open source and support for all languages and frameworks, build and deploy how you want to. Take advantage of the full-featured, integrated development environments with built-in support Visual Studio and Visual Studio Code, the most popular IDEs trusted by 15M+ developers.

We embrace open source, drive innovation through collaboration, and contribute back to the community.

Trust your cloud

Get security from the ground up, backed by a team of experts, and proactive compliance trusted by enterprises, governments, and startups.

With a $1B+ investment in security R&D and 3,500 cybersecurity experts, security is foundational for Azure.

Microsoft Azure

Microsoft Azure is an ever-expanding set of cloud computing services to help your organization meet its business challenges. With Azure, your business or organization has the freedom to build, manage, and deploy applications on a massive, global network using your preferred tools and frameworks.
