**One Framework.
Total Cloud Domination.**

INTRODUCING

Aspire Cloud Elevator

The Future of Cloud Modernization Starts Here

Modern by name, evolving by nature—true cloud modernization keeps you competitive. In a rapidly changing digital landscape, your cloud infrastructure should be as agile as your business needs. Move beyond the basics with **Aspire Cloud Elevator (ACE),** a cloud built to support growth, resilience, and innovation at every turn.

A Tailored Approach to Cloud Modernization: Aspire's ACE

Aspire's Cloud Elevator (ACE) is an advanced cloud modernization framework designed to help enterprises migrate or modernize complex and ever-evolving workloads to cloud keeping in mind today's needs for compute hungry AI solutions.

Serving as a customizable blueprint, it adapts to the unique needs and objectives of any organization, transforming technology infrastructure from on-premises or outdated cloud systems into a more advanced, resilient, and scalable cloud environment. From cloud migration to ongoing optimization and the adoption of modern cloud-native practices, Aspire's Cloud Elevator offers a strategic pathway to cloud application modernization.

ACE Framework

- Simple Lift and Shift
- Rehost with Minor Upgrades
- Cloud Ready
- Cloud Native Infra (Network, Security, Monitoring)
- Containerization

- Cloud Optimization
- Database as a service (DBaaS) Replatforming
- Opensource Migration
- Cloud Native Architecture
- End-to-end Serverless

The ACE Advantage You Need:

1 **Optimized Cloud Modernization Path:** ACE helps derive the optimal strategy for modernizing your application landscape, ensuring a tailored approach to meet your business needs.

2 **Increased Agility and Productivity:** By streamlining your cloud migration and optimizing resources, ACE enhances your operational agility and boosts productivity across your organization.

3 **Enhanced Security and Compliance:** ACE prioritizes the security of your infrastructure, ensuring robust threat prevention and adherence to compliance requirements across your cloud environment.

4 **Cost Efficiency:** With cloud resource optimization and effective management strategies, ACE helps reduce operational costs while improving performance and scalability.

ACE In Action

Aspire's Cloud Elevator (ACE) enabled a smooth migration and modernization of a global education leader's data centers and databases, transitioning from on-premises to a scalable cloud setup. Through ACE's "Trio Migration" approach, the project achieved:

50+
applications migrated and
100 TB
of data re-platformed

100,000
requests per second
supported

99.99%
server availability

31%
reduction in infrastructure
costs

Why Aspire?

90+
Certified Cloud architects

80+
DevSecops implementation

40+
Cloud modernization projects

100+
Saas applications

150+
Certified Cloud architects
