2-sessions workshop - 120 minutes/ day

Workshop price : 2000 USD

Challenges :

- ▶ **Time Management:**

Professionals often struggle to find time for creative and strategic tasks due to overwhelming workloads and administrative responsibilities.

- ▶ **Productivity and Efficiency:**

Completing tasks such as writing, editing, summarizing, and creating presentations can be time-consuming and may not be the most efficient use of an employee's time.

- ▶ **Quality and Consistency:**

Ensuring high-quality output with consistent formatting and style can be challenging, especially under tight deadlines.

- ▶ **Collaboration:**

Collaborating on documents and presentations can be cumbersome, with multiple versions and feedback loops leading to inefficiencies.

With Copilot, you can:

Elevate Your Writing: Automatically generate, edit, and summarize content in Word, ensuring your documents are clear, concise, and impactful.

Create Stunning Presentations: Convert your ideas and documents into engaging PowerPoint presentations complete with speaker notes and references, making it easier to convey your message.

Streamline Collaboration: Work efficiently with your team across all Microsoft 365 apps, reducing the hassle of version control and feedback loops.

Experience the power of AI to transform your workday. Embrace a Copilot that empowers you to focus on what truly matters—being innovative and creative.
