

ASEE 6Smart Steps – 50 Word Elevator Pitch

ASEE 6Smart Steps is a Microsoft 365 Adoption Practice developed on PROSCI methodology (The Global Leader in Change Management Solutions), that offers companies the possibility to enhance productivity and collaboration from improved business processes based on Microsoft 365 applications. Having as starting point the discovery of customer' needs, ASEE 6Smart Steps methodology enables companies to redesign its processes in a completely digital approach and build collaboration skills across the organization through custom workshops and trainings tailored for each business department. This integrated practice covers the entire collaboration process from internal departments to cross-organizational projects. Our practice drives consumption of Microsoft Teams, SharePoint Online and OneDrive for Business with proven results in maximum 3 months.
