

Asseco Threat Protection – Cloud Customer Case Study

Vertical: Retail

Win: February 2018

Superbet Holding is a group in the betting industry that holds over 1000 agencies in Romania.

They have recently deployed the Office 365 and Azure Advanced Threat Protection solutions, in order to gain visibility and to prevent all types of malware and malicious behavior.

Win Results

Superbet Holding is using Office 365 Threat Protection to prevent phishing attacks and block unsafe attachments and URLs that might reach their Office 365 users.

Azure Threat Protection was deployed in order to monitor the safety of their Active Directory identities.
