

Astute Agent™

Customer Engagement CRM

Power up your agents with the world's smartest CRM.

Resolve issues more quickly and effectively with CRM software that shortens training time, shows a unified customer view, and provides everything agents need to improve loyalty in a single, integrated interface.

Astute Knowledge™ Agent Assist

Astute Agent guides your agents through every interaction by providing context-driven recommended steps that anticipate the customer's next move with unrivaled accuracy.

Follow-up, simplified.

Closing the loop has never been simpler. Customer follow-up emails are automatically populated based on case information and desired resolution. All agents have to do is hit Send.

Smarter data entry means better interactions.

With features like name and address matching, dynamically changing fields, and intelligent type-down options, agents can focus on what really matters: high-quality interactions.
