

Copilot Deployment & Adoption Accelerator

Drive Adoption at Scale and Realise Measurable Outcomes

Microsoft 365 Copilot has the power to transform productivity, but many organisations struggle to move beyond initial rollout and achieve real business impact. The **Copilot Deployment & Adoption Accelerator** solves this challenge by providing a structured approach to scale adoption across your organisation.

Through tailored training, a champions program, and clear success metrics, we help you embed Copilot into everyday workflows, maximising ROI and accelerating time-to-value. This engagement ensures your investment delivers measurable outcomes, not just licenses.

This engagement will help you to:

Scale Adoption Quickly
Move from pilot to enterprise-wide rollout with proven frameworks and structured enablement.

Maximise Business Value
Focus on high-impact use cases that align with your priorities and deliver measurable ROI.

Build Confidence and Engagement
Empower early adopters and champions to drive change and foster a culture of AI innovation.

Trusted to deliver

As a trusted Microsoft partner, we combine strong credentials in cloud, data, and security with a proven approach to adoption. While AI is new for many, our experience guiding transformation journeys, access to Microsoft funding, and commitment to long-term success makes us the right partner to help you move forward with confidence.

How does it work?

Our engagement follows a proven framework, adapted to your unique needs:

1. Kick-off & Planning

We start with a session to define scope, success metrics, and adoption strategy.

2. Enablement & Training

Based on the agreed scope, we'll deliver tailored training plans, run immersion workshops, and activate champions.

3. Optimisation & Reporting

We'll monitor adoption, gather feedback, and provide a final report with recommendations.

What will I get?

- **Scenario Validation:** Confirm high-value Copilot use cases aligned to your business goals.
- **Enablement Strategy:** A practical plan for communication, training, and adoption activities.
- **Champions Programme:** Structured approach to onboard early adopters and champions.
- **Success Metrics & Reporting:** Define measurable outcomes and reporting methods.

This is a Microsoft-funded engagement, meaning your organisation may qualify for full funding. Contact us to confirm eligibility.
