# Atech

Microsoft 365 Security Assessment

THE FIRST STEP IN A SECURE FUTURE

Atech are a Specialist security provider recognised by Microsoft as a leading partner and boasting over 100 certified professionals within our organization. Gartner recently predicted that "by 2025, lack of talent or human failure will be responsible for over half of significant cyber incidents". By enabling our clients to identify their vulnerabilities, optimise their existing Microsoft security investments and utilise our managed services, we ensure organisations under our care are permanently protected and proactive against future threats.

What we'll assess during the initial discovery phase:

- Azure AD
- Exchange Online
- SharePoint Online & OneDrive for Business
- Microsoft Teams

Know your Secure Score
Sample output:

Identity: 30%

Data: 45%

Device: 38%

YOUR INDUSTRY AVERAGE: 66%

The Microsoft 365 Security Assessment is designed to help organisations reconfigure Microsoft 365 in a way that allows them to meet their obligations and leverage the features and capabilities that are included within the application. The assessment considers the National Cyber Security Centre (NCSC) 14 Cloud Security Principles as well as NCSC Office 365 Secure Configuration Alignment guidelines and CIS benchmark.

What to expect:

1. Discovery call
2. Access to your environment
3. Evaluation of output
4. Recommendations report

You will receive a comprehensive breakdown of your current Microsoft 365 Security Posture and recommendations on how to improve your Secure Score to protect you better now and for the future.

Understanding your security posture and planning for a secure future requires a great deal of time and resources, within your own organization. Atech have been supporting organisations for over 10 years and have developed an assessment which will deliver your current Microsoft 365 security posture, based on 'Secure Score', allowing our team of Microsoft certified experts to get you started on your journey to a futureproofed, secure future.
