

# PRIME® Provider-Payer Connect

***Streamline your  
medical provider  
data submission***

## **In the complex world of healthcare, efficiency is key.**

PRIME PPC is designed to revolutionize and automate how you manage and submit medical provider data to health plans. Our cutting-edge solution minimizes unnecessary data extracts and eliminates the need for multiple spreadsheets, and customized data transmission formats to payors allowing you to focus on what truly matters — delivering quality care.

## **Key benefits of PPC**

### **Simplify data management**

**Centralized platform:** Say goodbye to juggling multiple spreadsheets and paperwork & custom data transmissions. Our software consolidates all your data into a single, user-friendly platform.

**Automated data entry:** Reduce manual input and human error with our intelligent data capture technology.

**FHIR: Monitoring Services:** PRIME tracks such key changes as sanctions, specialty switches, and retirements.

### **Accelerate submission processes**

**Streamlined workflows:** Our system automates the submission process to *all* payors, reducing the time spent on data entry, custom formats, and approvals.

**Real-time submission and validation:** Ensure accuracy with built-in validation checks that identify errors before submission. Through the interoperable PRIME platform, health plans can be updated in real time, allowing members access to the latest information for their care decisions.

## Key benefits of PPC *(continued)*

### Enhance collaboration

- **Team access:** Facilitate seamless collaboration among your team members with real-time data access and shared workflows.
- **Integrated communication:** Communicate within the platform to address issues swiftly and keep everyone on the same page.

### Boost compliance

- **Regulatory adherence:** Stay compliant with the latest healthcare regulations and standards with automated updates and compliance checks.
- **Audit trails:** Maintain a comprehensive history of data changes and submissions for easy auditing and tracking.
