

Move from AI curiosity to business impact — in just one day.

Your board expects AI results. Your competitors are moving fast. But 73% of AI initiatives stall because organizations skip the critical alignment and feasibility work upfront. The **Agentic AI Workshop** eliminates the guesswork, empowering your team to confidently activate AI with speed and focus.

The outcomes that move you forward — **starting now**

- **Immediate strategic clarity** on your highest-ROI AI opportunities using our proven prioritization framework not just abstract ideas, but use cases scored on impact, effort, and feasibility, cutting 3-6 months off your pilot timeline.
- **Cross-functional alignment** among IT, business, and operational leaders through structured facilitation and shared goal-setting exercises, so you can move forward without the friction that kills 60% of AI projects.
- A **tailored readiness assessment** against Microsoft security and compliance standards, giving you a transparent view of your technical landscape and organizational maturity ensuring your investments are secure and achievable.
- A **practical, prioritized roadmap** with defined ownership, templated project plans, and milestone tracking to launch your first AI pilot within 90 days, so you're not left wondering what to do next.
- A **comprehensive executive summary and reference architecture**, equipping you to secure leadership buy-in and funding with a professional deliverable that demonstrates strategic thinking.

HOW IT WORKS

Our proven framework delivers results in one intensive day:

Pre-Workshop Assessment

Strategic intake assessment to baseline your AI maturity, Microsoft environment landscape, and organizational priorities.

Workshop Session(s)

Cross-functional alignment of business, IT, and data teams, guided use case ideation using our structured framework, value-based prioritization through our impact-effort-feasibility scoring model, and collaborative roadmap development with defined ownership, templated project plans, and milestone frameworks.

Actionable Deliverables

Executive summary, reference architecture, and next-step templates that secure leadership buy-in and funding.

TAKE THE FIRST STEP — CONFIDENTLY

Stop guessing and start executing. With the Agentic AI Workshop, you leave ready to lead.

Book your workshop today.
