## About our Instructor-led Training

Atmosera offers private developer training, virtual and public classes. Our instructors and content are the best of the best. We have trained thousands of developers worldwide and can provide your team with the same amazing service we have been known for, for over 20 years.

### Private Training

Atmosera can provide private virtual or onsite training for your team.

Atmosera will work directly with your team anywhere in the world to provide customized private developer training. Get a real classroom experience with hands-on instruction directly from the experts who wrote the software development books and built the platforms.

Private courses can be customized to fit your specific business goals and requirements. We are flexible to accommodate our client's specific needs for delivery formats.

### Microsoft Official Courses

Atmosera offers the best Microsoft Official Courses (MOC) that prepare you to earn your Microsoft Certification.

Our instructors are Microsoft MVPs in their respective fields and also Microsoft Certified Trainers (MCTs). After attending our courses, you will be able to use your new skills right away and earn your Microsoft certification.
