

Don't let AI or compliance teams be the first to uncover your data risks — take control now.

Your business is under increasing pressure to strengthen data security. As AI adoption accelerates and compliance demands tighten, unmanaged data access and legacy sharing practices can leave you vulnerable to leaks, violations, and insider threats. **Atmosera's Data Security & DLP Workshop** gives you immediate, actionable visibility into your sensitive data risk empowering you to act now with confidence.

The outcomes that move you forward — **starting now**

- **Clarity on your sensitive data footprint**, pinpointing exactly where critical and regulated data resides, how it moves, and who has access eliminating blind spots that put you at risk.
- **Targeted, prioritized actions to reduce risk**, providing a concrete action plan with quick wins and long-term strategies to close gaps and strengthen your security posture.
- **Alignment across security, IT, and compliance teams**, breaking down silos with a clear, executive-level summary that drives shared understanding and accelerates decision-making.
- **Stronger foundation for AI and compliance readiness**, preparing for AI initiatives like Copilot and upcoming audits by aligning your data controls with Microsoft security best practices.
- **Guided roadmap with ongoing support**, leaving you with a clear, phased improvement plan and options for continued guidance or implementation support.

HOW IT WORKS

Data Risk & Policy Assessment

A deep dive into your environment to map where sensitive data lives, how it moves, and who can access it, while evaluating your current data loss prevention and access controls against best practices to uncover gaps and hidden risks.

Risk Analyzer

Using Atmosera's proprietary Risk Analyzer technology and Microsoft security expertise, we analyze findings and summarize them into a clear, prioritized report that provides precise, business-aligned insights you can act on immediately.

Actionable Deliverables

Tailored recommendations for Microsoft Purview, Defender, and Entra configurations, an executive summary and stakeholder presentation, plus a phase roadmap to reduce risk and strengthen your data protection strategy.

TAKE THE FIRST STEP — PROTECT YOUR DATA WITH CONFIDENCE

Don't wait for a breach or failed audit to reveal your risks. Start today, reduce exposure, and build trust across your organization.

Book your workshop today.
