

Cut Sentinel noise, reduce costs, and turn it from a cost center into a true security asset — fast.

Is Microsoft Sentinel overwhelming your security team with noise, draining budgets with high ingestion costs, and still not delivering the insights you need? **Atmosera's Sentinel Optimization Kickstart** helps you cut through the clutter. We fine-tune your analytics rules, optimize log ingestion to reduce costs, and strengthen automation and response workflows empowering your security team to work smarter, focus on real threats, and improve your overall security posture without compromising visibility.

The outcomes that move you forward — **starting now**

- **Sharper signal, less noise**, enabling your analysts to focus on real threats and respond with confidence rather than drowning in alert fatigue.
- **Immediate cost reductions** through optimized log ingestion and retention strategies saving budget without sacrificing visibility.
- **A production-ready Sentinel environment**, fine-tuned for your unique needs and aligned with Microsoft security best practices.
- **A clear, prioritized optimization roadmap**, detailing exactly what to fix and how to evolve your SOC capabilities next.
- **90-day post-engagement support guidance**, so you maintain momentum and ensure improvements stick.

HOW IT WORKS

Readiness & Cost Assessment

A deep dive into your current Sentinel deployment, including log sources, analytics rules, incident workflows, and cost drivers to pinpoint noise and inefficiencies.

Optimization & Tuning

Hands-on adjustments to analytic rules, data connectors, and automation playbooks transforming your environment into a high-value, low-noise SOC foundation.

Action Plan & Roadmap

A detailed report with prioritized actions, cost-saving recommendations, and an executive-ready summary to guide your next optimization waves.

TAKE THE FIRST STEP — CONFIDENTLY

Stop struggling with noise and start maximizing your Sentinel investment. With Sentinel Optimization Kickstart, you get a rapid proof point to secure executive buy-in, strengthen your security posture, and cut costs without delay.

Book your kickstart today.
