

# Your GenAI at work

With Atos & Microsoft 365 Copilot

Atos

# Generative AI: a gamechanger for the digital workplace

Generative AI capabilities, such as Microsoft 365 Copilot, are revolutionizing the digital workplace and creating new opportunities for added value, growth and efficiency.

AI empowers employees to focus on more value-added tasks, leading to increased performance and job satisfaction.

Atos leverages AI to develop comprehensive solutions, offer personalized services, and develop best practices for human-AI collaboration to enhance business performance and employee experience.

**64%**

of people have struggled with finding time and energy to get their work done.

**70%**

of people would delegate as much as possible to AI to lessen their workloads.

**2x**

likelihood of a leader to say AI will provide value by boosting productivity vs. cutting headcount.

# Microsoft 365 Copilot Readiness with Atos

As an Early Adopter of Microsoft 365 Copilot, we're dedicated to helping you harness the power of AI to enhance your employee experiences and tackle your challenges head-on with the following services:

## **AI & M365 Copilot Advisory & Workshop**

Help you build AI transformation strategies.

Identify top personas and processes that would deliver value if reimaged with AI.

Recommend next steps to prepare your organization for Microsoft 365 Copilot, including migration approaches for non-cloud data.

## **Copilot Readiness & Deployment**

Assess your licensing, technical readiness and address gaps.

Assess Just enough access(JEA), oversharing, data protection & governance posture and address gaps. Showcase value of M365 Copilot and identify high-value scenarios.

## **Adoption & Change management**

Deliver end-user readiness to enable proficient use of Copilot.

Drive change management programs to transition processes and adapt behaviors.

## **Copilot extensibility**

Leverage Copilot plugins and connectors.

Connect data to Microsoft Graph and Dataverse.

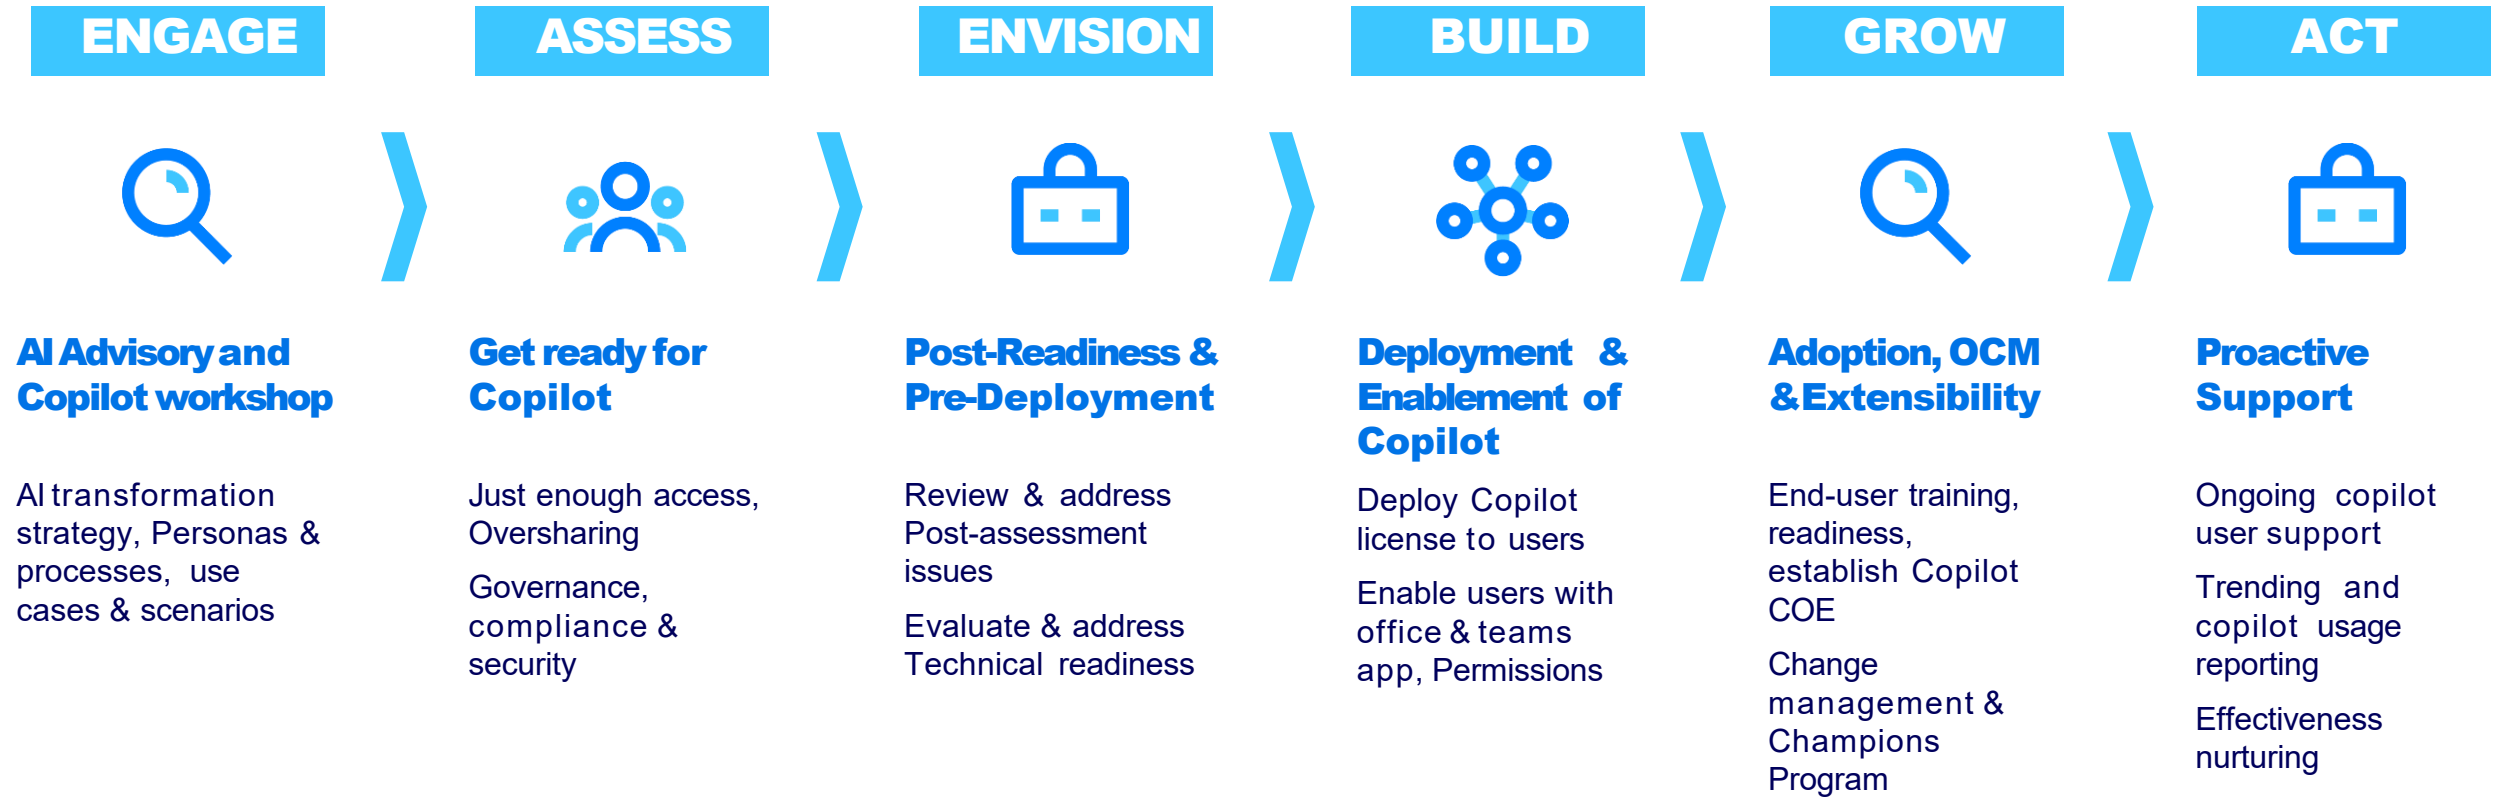

integration, customization, and configuration services.

## **Proactive Support**

User and Policy management.

Governance for ongoing dataset changes- content management.
