Delivering a winning Airport experience with AI-based video analytics

ABOUT ATOS' IPSOTEK VISUITE:

Ipsotek VISuite is Atos Computer Vision Platform's software stack. It extracts metadata streams allowing you to improve response times, drive operational efficiencies, and generate new revenue streams.

WHAT WE OFFER

Our key features

Reduce Delays

- Respond to passengers in need faster with customizable solutions for 'lost children', 'person with reduced mobility' and more.
Visualize passenger flow. See what effect changes like barriers and signage has on passenger movement.

Reduce Operating Costs

- Receive real-time updates and alerts on pain points i.e., areas which are prone to overcrowding
Spot patterns and trends in reports to inform staff response.

Open New Business Models

- Leverage CCTV footage to understand passenger flow in retail areas.
Deploy staff more efficiently to match usage statistics.

Improve Security Response Time

- Never miss an incident with automatic round-the-clock incident detection.
Liberate your control room security staff to deploy staff more effectively.

Flexible Rule Engine with 100+ Templates

Pre-Trained AIVA

Custom Reporting

Real Time Alerts

Post Event Search and Tracking

Detailed API & 3rd Party Integrations

Ipsotek integration in Azure

Why Microsoft Azure?

Be future-ready

Continuous innovation from Microsoft supports your development today, and your product visions for tomorrow. With 1,000+ new capabilities in the past year, you can build on the latest advancements in AI, blockchain, Kubernetes, containers, and databases to keep you ahead of the curve.

Our enterprise grade analytics solution outperforms the competition, costs less, and is fully compatible with your existing development, BI, and data-science tools.

Operate hybrid seamlessly

On-premises, in the cloud, and at the edge—we'll meet you where you are. Integrate and manage your environments with tools and services designed for hybrid cloud.

Enhance security, simplify access, and set smart policies across your different environments with a single-identity platform trusted by 90% of enterprises globally.

Build on your terms

You have choices. With a commitment to open source and support for all languages and frameworks, build and deploy how you want to. Take advantage of the full-featured, integrated development environments with built-in support Visual Studio and Visual Studio Code, the most popular IDEs trusted by 15M+ developers.

We embrace open source, drive innovation through collaboration, and contribute back to the community.

Trust your cloud

Get security from the ground up, backed by a team of experts, and proactive compliance trusted by enterprises, governments, and startups.

With a \$1B+ investment in security R&D and 3,500 cybersecurity experts, security is foundational for Azure.

Microsoft Azure is an ever-expanding set of cloud computing services to help your organization meet its business challenges. With Azure, your business or organization has the freedom to build, manage, and deploy applications on a massive, global network using your preferred tools and frameworks.
