

Windows 365 Jump-start : 3 Weeks POC + 2 Complimentary Devices

Windows 365 Jump-start engagement is designed to show you how Windows 365 keeps you productive. Engagement includes planning services, proof of concept, and 2 tablet devices that are yours to keep!

Windows 365 combines the power and security of the cloud with the versatility and simplicity of the PC. From vendors and contractors to software developers, Windows 365 enables a variety of new scenarios for the modern world. Securely stream your Windows experience, including your personalized apps, content, and settings, from the Microsoft cloud to any device with your Windows 365 Cloud PC.

With most organizations giving all their users a laptop to work from, a trend that accelerated in the past couple of years, the security risks associated with data theft and data leak have drastically increased. With Windows 365, users get the same Windows environment from anywhere in the world on almost any device.

What's included in the Windows 365 Jump-start engagement?

You will receive 2 tablets that are yours to keep at the end of the engagement.

Week 1:

Engagement Planning

A comprehensive overview of the Windows 365 solution

Pre-requisites completion: bandwidth, licensing, security, use cases and personas, applications to be deployed etc.

Week 2:

Baseline configuration

Deployment of pilot machines (up to 5)

Week 3:

Knowledge Transfer to Admins

Showcase capabilities to stakeholders
