

# Document & Drawing Management on Microsoft 365

For architects & engineers

## Fully cloud-based

Work on projects anywhere and manage all records in one single SharePoint-based platform

## AEC-focused workflows

Adopt AEC best practice with automatic issue registers, transmittals with full audit trails, and Revit integration

## Quality assured

Guarantee compliance with ISO 19650 or custom schemes enforced across all documents.

**Trusted by leading UK-based architectural and engineering practices to deliver over 10000 projects.**
