

# Modern Device Deployment

Microsoft 365 Modern Device Deployment and Management  
2 Days Workshop

Improve device deployment in your company!

Microsoft  
Partner

Gold Windows and Devices  
Gold Cloud Productivity  
Gold Data Platform  
Silver Datacenter  
Silver Data Analytics

## TRAINING OBJECTIVE

We will show you how to use Microsoft 365 cloud services to improve your device deployment and apps management in your business. We will present the possibilities of comfortable and effective remote device deployment using Windows AutoPilot and how to control devices settings using device configuration and compliance profiles.

---

## CHARACTERISTIC

The workshop is divided into theoretical and practical parts. We have prepared the material in such a way that, regardless of the level of advancement of your employees, the message is fully understandable and transparent to them.

You will learn, among others how to enable Microsoft Endpoint Manager in your Microsoft 365 tenant, design MDM architecture, implement Microsoft MDM solution and join/mange devices to/in your cloud console. Your administrators will find out how easy is to control devices with Microsoft Endpoint Manager and enable remote deployment with Windows AutoPilot.

---

## FOR WHOM

Technical staff (administrators, managers, helpdesk)

- Technical staff (IT administrators, IT specialists, IT managers)
  - Helpdesk staff
  - The workshop is intended for freely chosen employees of your company.
- 

## FORM AND DURATION

- Online meeting (remotely)
  - 2 days (approx. 8 hours in total)
- 

## WHAT YOU WILL GAIN

1. Knowledge how to:
    - identify your mobile device management requirements
    - design and implement Microsoft MDM/MAM solutions
    - integrate Microsoft Endpoint Manager with Azure Active Directory
    - plan applications and enforce App Protection Policies
    - deploy devices with Windows AutoPilot
    - control and enforce BitLocker encryption
    - plan Windows 10 Updates
  2. Advice on the purchase of Microsoft products
  3. Materials after the workshop
-
