

Win the future with AI-powered ESG intelligence

AUQUAN

Automated ESG research, monitoring, and reporting for more than 550,000 private and public companies.

Any Data • Any Entity • Any Insight

DO MORE | WORK SMARTER | OUTPERFORM

Cover more ground with your ESG research and work efficiently so you're always ahead of any issue — and delivering reports accurately, consistently, and ahead of time.

Access the most comprehensive private and public company coverage — **GUARANTEED**

If Auquan is missing a company that matters to you, we'll add it within one business day.

Continuously monitor for ESG risks and adverse media coverage so you're never caught unaware

Get all of the ESG updates you need delivered when you need them — without having to search.

Automate time-consuming manual data work, ignore the noise, and focus on what matters

Expand the scale and scope of your ESG effort — without scaling your ESG team and budget

SOLUTIONS + USE CASES

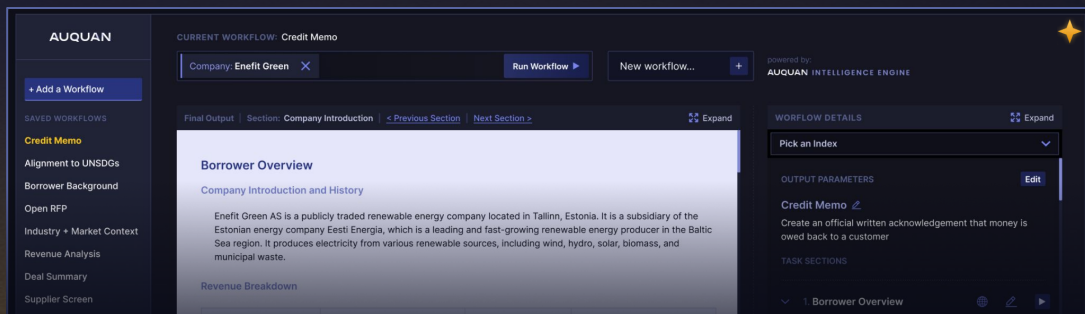

ASSET MANAGERS	BANKS	PRIVATE MARKETS	ASSET OWNERS	CORPORATES
Risk overlay	Due diligence	Due diligence	Portfolio screening	3rd party due diligence
Portfolio monitoring	Compliance (KYB/KYC/AML)	Portfolio monitoring	Compliance	Vendor risk management
Company engagement	Reputational risk monitoring	Company engagement	Company engagement	Supply chain monitoring

TRUSTED BY:

“Auquan’s ability to identify hidden information in local languages from noisy data that other tools often overlook has enhanced our in-house research and saved us a considerable amount of time we would otherwise spend managing all of this data.”

Kunjal Gala
Head of Global Emerging Markets,
Federated Hermes

The universe of ESG data and intelligence — at your fingertips the moment you need it.

Cover more ground with your ESG research and work efficiently so you're always two steps ahead — and prepared to report accurately

Get ESG superpowers.

Eliminate time-consuming manual research, data work, and report production tasks and get information on ESG issues delivered to you when you need it.

Apply frameworks such as SDGs, SASB, and UNGC to your analysis

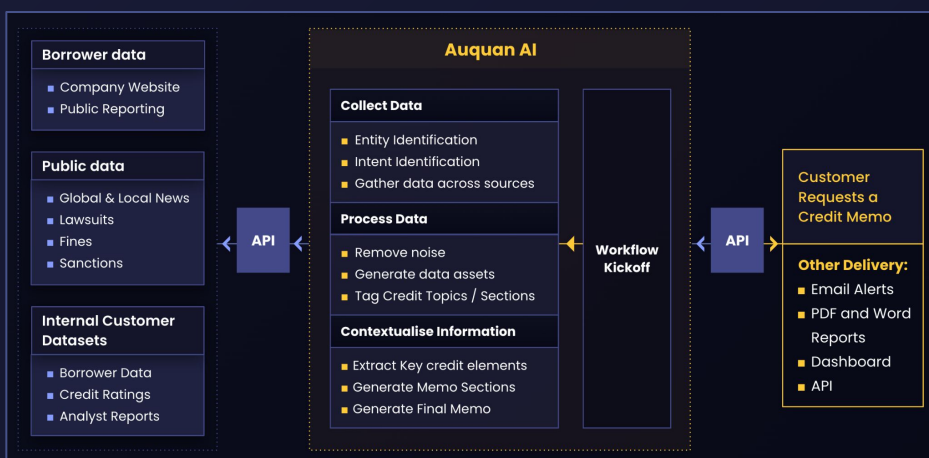

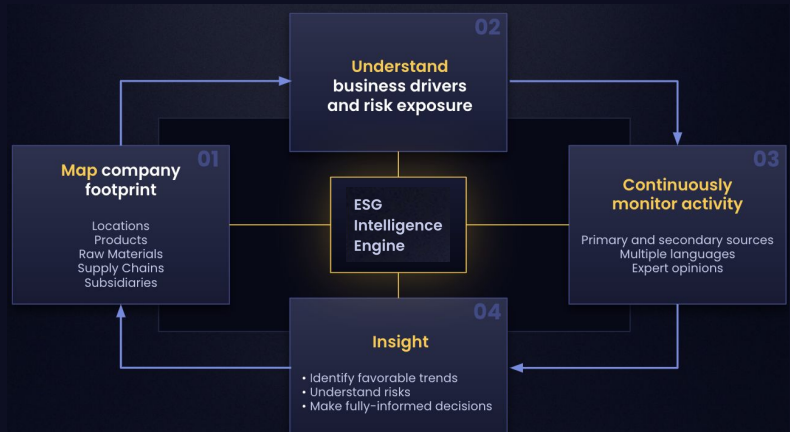

Quickly understand how ESG issues may impact companies

Deliver on your ESG requirements efficiently and accurately

ESG Intelligence Engine:

By the numbers

- 550K+ public + private companies covered
- 2M+ data sources
- 76+ languages (native language support for top 30 countries by GDP)
- Controversies and impact mapped to SFDR (PAI), SDGs, SASB, UNGC, and modern slavery acts (UK, Australia, German Supply Chain Act)

Auquan's Intelligence Engine Powered by RAG-based AI agents

Auquan's Intelligence Engine leverages AI agent architecture and RAG AI (retrieval augmented generation) to bridge the gap between static knowledge of large language models (LLMs) and the need for dynamic, context-aware analysis in financial services with a high degree of accuracy, timeliness, and trust.
