AZURE VIRTUAL DESKTOP

Preview

Azure Virtual Desktop Preview is a comprehensive desktop and app virtualization service running in the cloud. It's the only virtual desktop infrastructure (VDI) that delivers simplified management, multi-session Windows 10, optimizations for Office 365 ProPlus, and support for Remote Desktop Services (RDS) environments. Deploy and scale your Windows desktops and apps on Azure in minutes and get built-in security and compliance features.

AZURE VIRTUAL DESKTOP

Many customers are already eligible

Client

Customers are eligible to access Windows 10 single and multi session and Windows 7 with Azure Virtual Desktop (AVD) if they have one of the following licenses*:

- Microsoft 365 E3/E5
- Microsoft 365 A3/A5/Student Use Benefits
- Microsoft 365 F1
- Microsoft 365 Business
- Windows 10 Enterprise E3/E5
- Windows 10 Education A3/A5
- Windows 10 VDA per user

* Customers can access Azure Virtual Desktop from their non-Windows Pro endpoints if they have a
   Microsoft 365 E3/E5/F1, Microsoft 365 A3/A5 or Windows 10 VDA per user license.

or

Server

Customers are eligible to access Server workloads with Azure Virtual Desktop (AVD) if they have one of the following licenses:

- RDS CAL license with active Software Assurance (SA)

Customers pay for the virtual machines (VMs), storage, and networking consumed when the users are using the service.

Azure Virtual Desktop

For many, installation and maintenance of the infrastructure for delivering virtual desktops or apps often becomes an inefficient, expensive and time-consuming exercise with compatibility challenges in relation to applications such as Office 365 ProPlus on Microsoft Server operating systems.

Azure Virtual Desktop is a cloud-based managed service from Microsoft that offers Windows 10 desktops and remote apps. Microsoft manages and maintains the infrastructure layer, so you only have to think about your user data and programs.

The solution is the only scalable virtual desktop infrastructure (VDI) that enables true Windows 10 Enterprise multi-session, optimizations for Office 365 ProPlus and support for Remote Desktop Service (RDS) environments.

Multi-session means that there can be several users on the same session-host and thereby you can achieve great savings. The solution is therefore incredibly scalable and can be optimized in relation to the current use, and in that way, you only pay for what is actually used.

VISIT OUR WEBSITE | WWW

Deploy and scale in minutes
Quickly virtualize and deploy modern and legacy desktop applications to the cloud in minutes.

Migrate Windows Server remote desktops and apps to Azure
Migrate your Remote Desktop Services (RDS) environment with simplified management and deployment experience on Azure.

Enable optimizations for Office 365 ProPlus
Deliver the best Office 365 ProPlus experience, with multi-session virtual desktop scenarios to provide the most productive virtualized experience for your users.

Deliver the only multi-session Windows 10 virtual desktop experience
Provide your users with the only multi-session Windows 10 desktop virtualized in the cloud that's highly scalable, always up to date, and available on any device.
