HOW AUTOMIZE APPROACH MICROSOFT 365 COPILOT IMPLEMENTATIONS

WE FOCUS ON 80% INSIGHTS AND UNDERSTANDING OF YOUR BUSINESS AND END-USERS

Introduction: Okay, so we focus 80% on insights. Well.. what about the remaining 20%, you might say? Let us explain a bit more about why we think this way.

Automize's approach to Copilot for Microsoft 365 is all about getting to know your business and end-users inside out. We're experts at applying Copilot in a way that brings high value and efficiency. We put a strong emphasis on adoption within your organization, using training, communication, and change management to make sure Copilot keeps working effectively for you over the years.
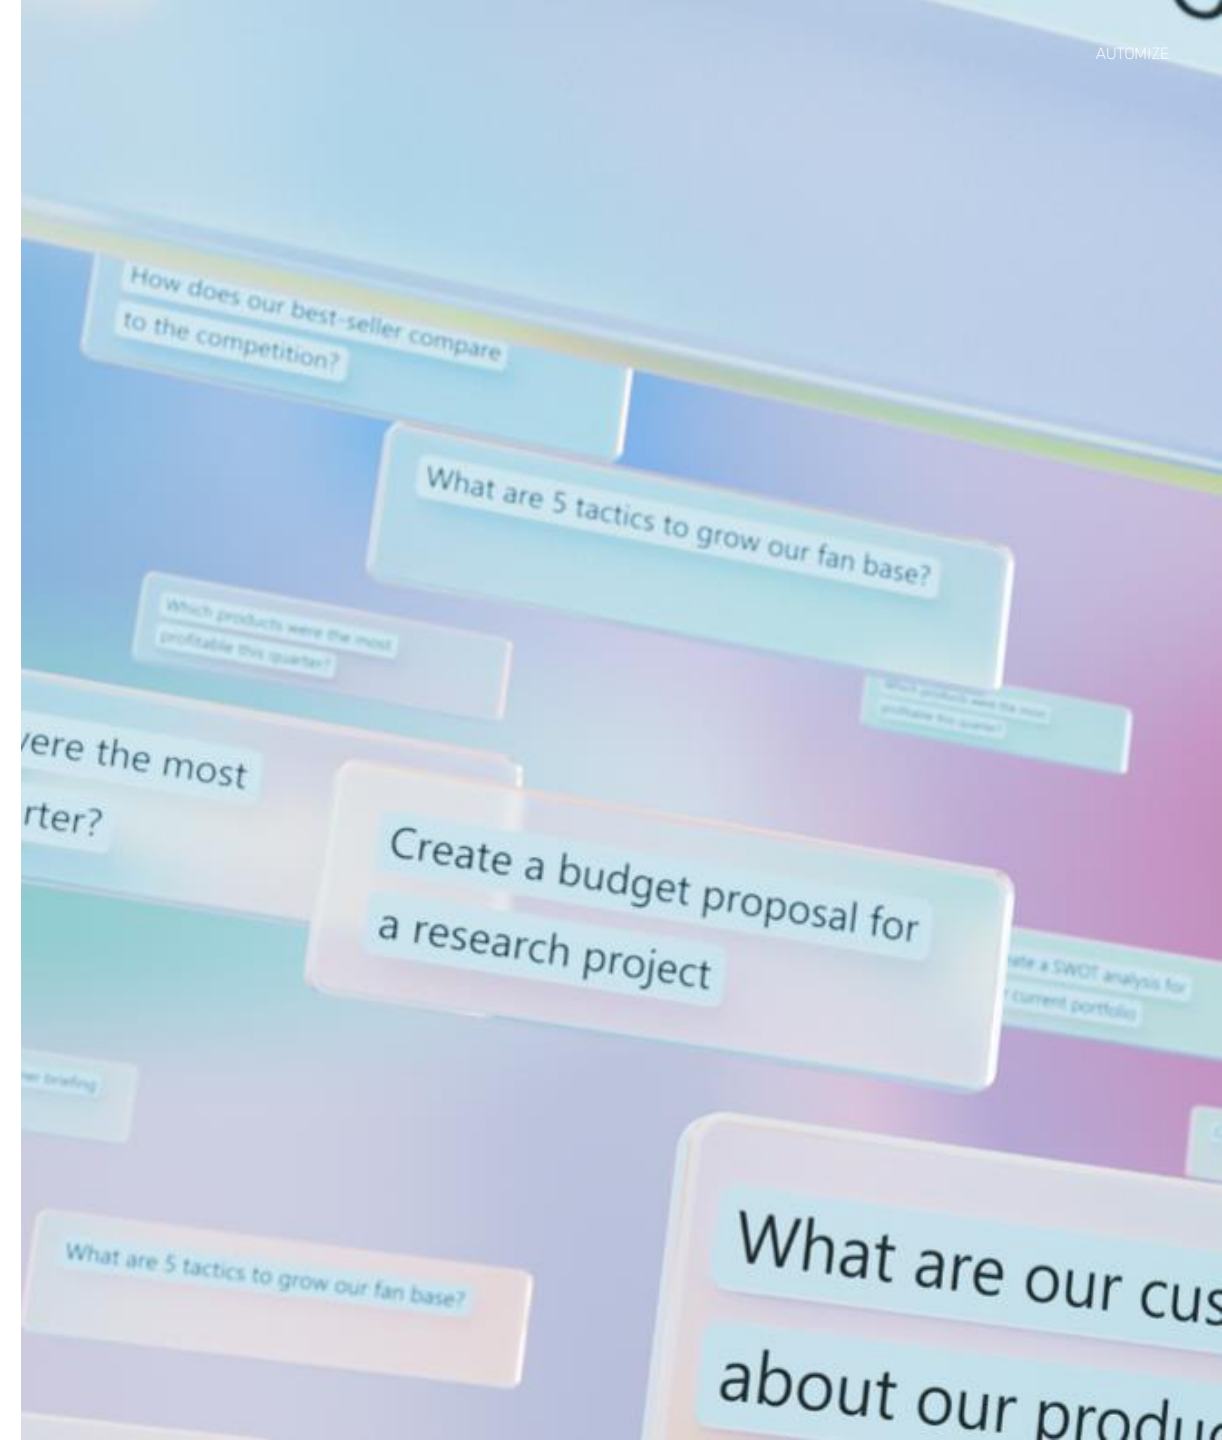

Now, for the remaining 20%: this is where we dive into the tech stuff. We help you manage the essentials like data governance and security. From assessment to implementation and onboarding, we're with you every step of the way, and we keep you updated with the latest Copilot news and tips.
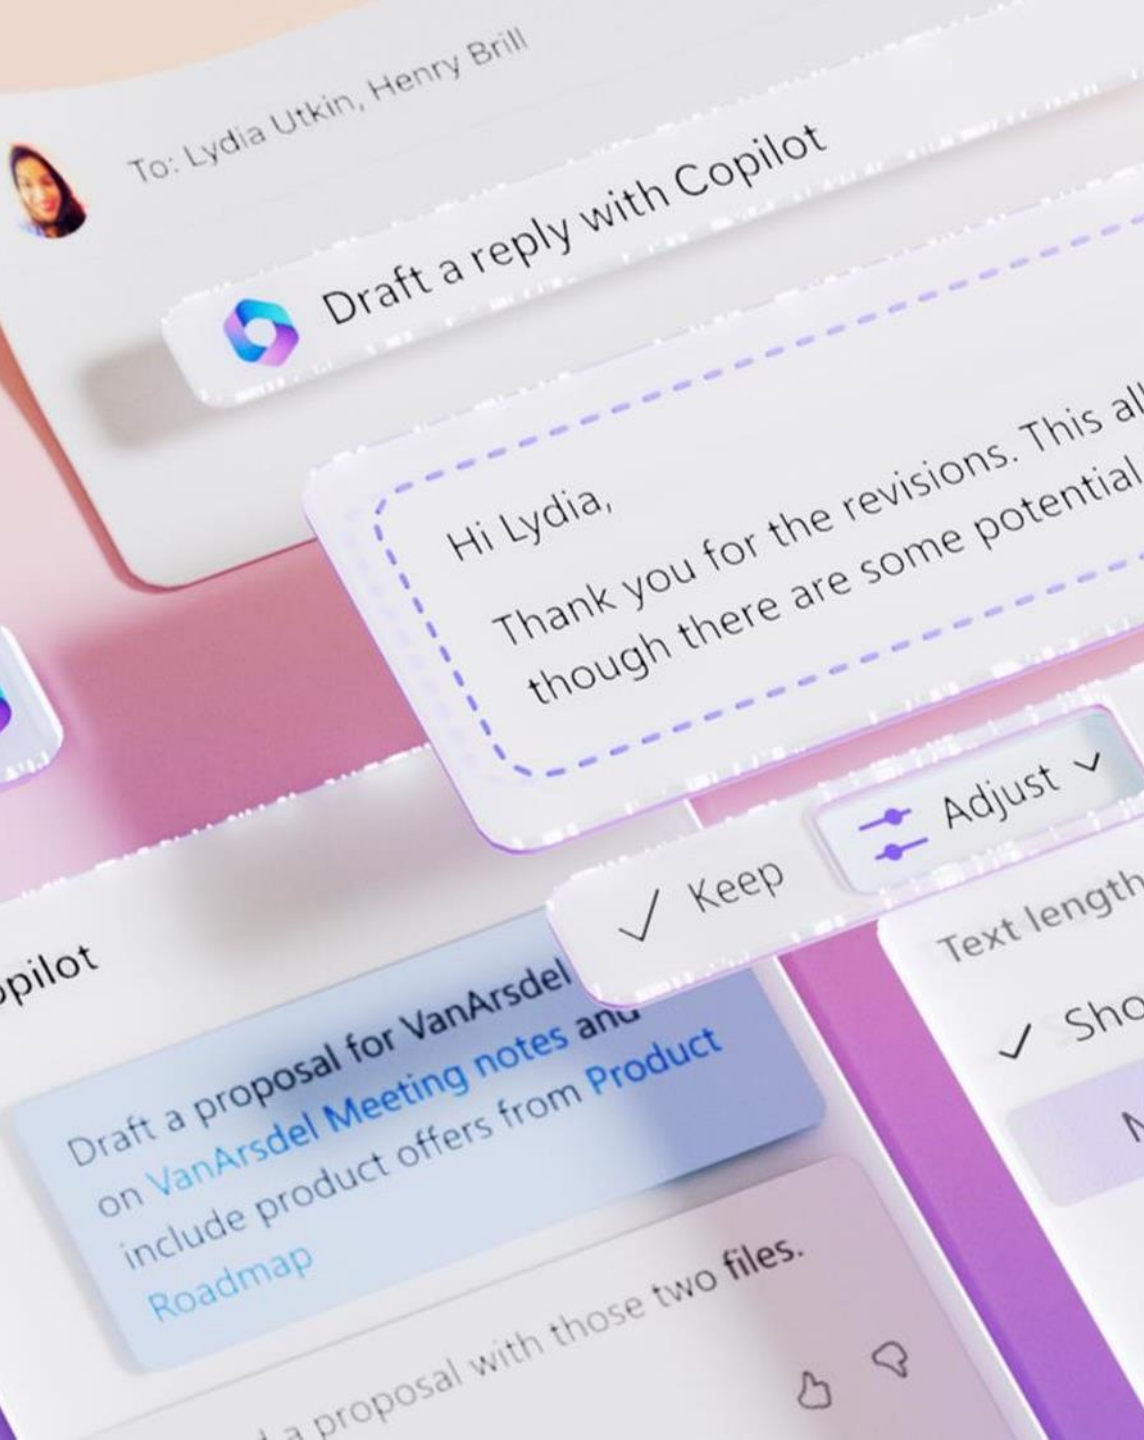

So, without any further ado, let's dive into it, shall we?

INSIGHTS: BUILDING A STRONG FOUNDATION
UNDERSTANDING AND PREPARING FOR COPILOT

Description: Automize dedicates 80% of our approach to deeply understanding your business and end-users. We establish a Microsoft 365 Copilot Community, assess your readiness, analyze your current applications, and identify high-value scenarios. This comprehensive insight allows us to define a robust business strategy and plan, ensuring a smooth transition to Microsoft 365 Copilot.

ADOPTION: EMBRACING COPILOT EFFECTIVELY

TRAINING AND CHANGE MANAGEMENT

Description: Successful adoption is key. We emphasize training, communication, and change management to ensure your organization embraces Copilot. Our programs include introductions to Copilot, guidance on effective prompting, and training on using Microsoft 365 applications. Awareness campaigns highlight Copilot's benefits, fostering a culture of continuous learning and adoption.

IMPROVEMENT: CONTINUOUS GROWTH AND OPTIMIZATION

FEEDBACK AND ONGOING SUPPORT

Description: Improvement is an ongoing process. We conduct user feedback surveys and regular evaluations to gauge the impact of Copilot and identify areas for optimization. Our advisory services, including webinars on the latest Copilot updates, ensure your organization stays informed and continuously improves its use of Microsoft 365 Copilot.

YOUR PATH TO HIGH-VALUE EFFICIENCY WITH MICROSOFT 365 COPILOT

KEY TAKEAWAYS FOR A SUCCESSFUL JOURNEY

Description: At Automize, our approach to Microsoft 365 Copilot revolves around deep insights and understanding of your unique business needs. By dedicating 80% of our efforts to gathering and analyzing these insights, we ensure that Copilot is tailored to deliver high value and efficiency for your organization. This foundation supports the creation of a robust business strategy and plan, ensuring your readiness for Copilot adoption.

Successful adoption hinges on thorough training and effective change management. Our comprehensive training programs and awareness campaigns equip your team with the skills and knowledge needed to utilize Copilot effectively, fostering a culture of continuous learning and improvement.

With Automize by your side, your journey to harnessing the full potential of Microsoft 365 Copilot is guided by expertise, strategic planning, and ongoing support, ensuring sustained value and efficiency for years to come.
