

Transform Your Digital Strategy

Engage your customers, empower your employees and optimize your operations with Cloud Technologies. But how can you ensure a smooth and successful digital transformation that enriches your business while enhancing security?

A Roadmap to Success

A digital business transformation requires you to revise technology strategies, change organizational structures and processes and develop innovative customer experiences. How can you achieve all this? With a strategic and comprehensive roadmap that guides you to success while helping you to leverage the benefits of Cloud technology.

Invest in a strategic roadmap that ensures the success of your digital business transformation and maximizes your ROI.

Your Digital Transformation Success Story

Avaleris helps to transform your business by working with you to develop a customized Digital Transformation Strategy and Roadmap. The Transformation Strategy and Roadmap enables you to achieve maximum value from your Cloud investment and ensures that your underlying hybrid identity and cybersecurity infrastructure are properly architected to secure your data and minimize the risk of security breaches.

Phase I: Review & Assess

Avaleris' experts hold facilitated workshops and interviews to reach a shared understanding of your:

- Business objectives, key initiatives and priorities
- Regulatory compliance requirements
- Current and planned IT infrastructure
- Security policies and priorities
- Information sensitivity and access requirements
- IT functional requirements
- Non-functional requirements

Phase II: Analyze

Avaleris synthesizes and analyzes the information gathered in Phase I and works closely with you to develop a high-level Digital Business Transformation Strategy and Roadmap.

The Strategy will:

- Provide an overview of the Business Requirements
- Summarize the next level of digital business transformation requirements, including use case scenarios, systems to be integrated and prerequisites
- Outline the proposed strategy and recommended technical solutions to achieve your business objectives
- Highlight the benefits of the proposed strategy
- Include final recommendations

The Digital Business Transformation Roadmap will:

- Outline prioritized initiatives for a short, medium and long-term deployment plan, based on an understanding of your business objectives and timelines
- Define the high-level project plan, timelines and estimated effort
- Include a high-level architectural diagram outlining the target end state
- Provide an overview of how Avaleris can help you achieve your goals

Phase III: Recommend

Avaleris finalizes the project recommendations to ensure a digital transformation that delivers maximum ROI.

Phase IV: Implement

Avaleris' experts work closely with you to implement the Strategy and Roadmap.

We deliver:

- A final **Digital Business Transformation Strategy and Roadmap**
- A **PowerPoint presentation** delivered to project stakeholders that summarizes the results of the Strategy and Roadmap

Why Avaleris?

Avaleris is a trusted advisor to hundreds of Microsoft's largest private and public sector clients. We go beyond solution deployments. Our team develops an in-depth understanding of your business objectives to ensure you reach your goals and gain the most value from your technology investments. Through strategic planning, well-executed deployments and a focus on user adoption, Avaleris delivers tailored solutions that deliver maximum ROI.

Avaleris clients benefit from our extensive deployment experience, deep technical knowledge of Microsoft products and commitment to ongoing client success.

Avaleris focuses exclusively on hybrid identity, enterprise mobility, and cloud security, enabling businesses to improve their agility and security while enabling employee productivity and collaboration.
