

Information Protection

Business Benefits

-  Understand which Security Directives you meet and which ones you do not.
-  Develop a holistic plan to address new requirements quickly and cost-effectively.
-  Learn how Microsoft 365 and Azure technologies can address each Security Directive.

In order to comply with recent Security Directives 5 & 6 issued by the Quebec Ministry of Education that pertain to Information Protection, educational institutions in Quebec require a holistic approach to protecting and backing up sensitive information.

Protect sensitive information

Avaleris has developed a Capability Maturity Model that will help you assess your Information Protection capabilities to ensure you identify and protect sensitive information, including e-mail and have a working and tested information backup services. The following Microsoft technologies can be deployed to help your organization achieve compliance.

- Microsoft O365 Data Loss Prevention
- Microsoft Information Protection
- Microsoft Endpoint Data Loss Prevention
- Microsoft Azure Backup and Recovery

Accelerate Compliance with an Information Protection Assessment

Every institution has unique requirements. Avaleris has developed an Assessment framework that will help you understand what is missing in order to achieve compliance with the Quebec Ministry of Education Security Directives. In addition, this assessment will demonstrate how the latest Microsoft technologies can improve your security infrastructure and quickly provide you with high-level recommendations based on your current and future requirements.

1. "Gap Analysis"

Allow us to perform a maturity assessment in each of the relevant security areas to determine your current state and identify required improvements.

2. "Technology Overview"

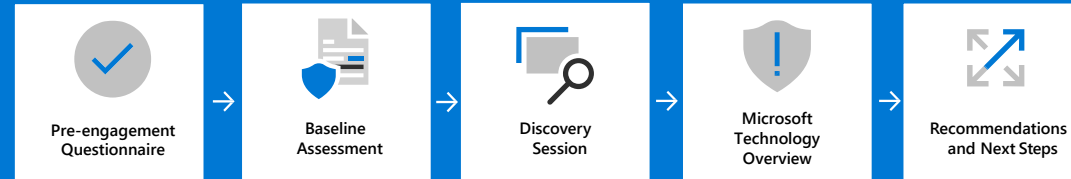

Allow us to provide you with an overview of how Microsoft 365 and Azure technologies can help you address the required areas to achieve compliance.

3. "Recommendations"

Receive a set of high-level recommendations and prioritized next steps to guide your deployment planning.
