

# Supply Chain Cloud

The Supply Chain Cloud transforms your business by connecting physical assets with digital intelligence.

Every **Stage**. Every **Product**. Every **Interaction**.

## Build trust with trading partners

Seamlessly and securely collaborate with suppliers, customers, carriers, and trading partners.

## Automate for efficiency

Create unique workflows for individual, or groups of, customers, suppliers, and carriers.

## Drive profitable fleet operations

Manage asset movement and freight handling across the supply chain including route optimization and final mile delivery.

## Generate accurate, timely invoices

Streamline third party billing, improve invoice-to-cash cycle, and ensure you're not leaving money on the table.

## Optimize fulfillment strategies

Create profitable and efficient fulfillment plans to meet the expectations you've set for your customers, distributors, and partners.

## Minimize freight cost

Ship intelligently and maximize customer service. Find the most effective shipping option and connect directly with the carrier.

## Order

Create profitable and efficient fulfillment plans

- Build time fenced validation, fulfillment, reservation, substitution, and sourcing strategies
- Allocate and promise available and future inventory to customers, channels, and sales reps

## Transport

Logistics execution of freight via private fleet

- Manage assets including trucks, drivers, and delivery equipment
- Manage all legs/modes of a trip, including pickup/delivery and line haul planning, in a single solution

## Deliver

Final mile delivery optimization

- Route optimization and geo-fencing
- Mobile app with configurable workflows for Android or IOS

## Bill

Activity based billing for accurate 3PL invoicing

- Manage simple or complex based billing requirements for multiple clients and contracts
- Capture activity-based billing opportunities including production and kitting

## Ship

Parcel & LTL - Pack, Rate, and Label

- Seamlessly connect with North American and European major parcel carriers including UPS, FedEx, USPS, & DHL
- Find the most effective shipping option based on your parameters

## Buy

Automate the procure-to-pay logistics cycle

- Manage and track PO changes, approvals, and updates via real-time vendor portal
- Data to track vendor performance

## Tender

Automated freight coverage for tendering loads

- Easily create and track direct, spot or ranked bid tenders
- Carrier created or uploaded freight invoices

## Route

Advanced routing guide logic

- Evaluate and select the best shipping method by leveraging rules, logic, and rating data
- Consolidate orders and estimate pallets for efficient shipping
