Transform documents and data into insights and action

Unleash the Power of Intelligent Search and Knowledge Mining with Generative AI

Revolutionize the way you interact with your data and documents with **Intelligent Search & Summarization**, powered by the formidable combination of Large Language Models (LLMs) and AI-powered Search.

Seamless Natural Language Interaction:

No more complex queries or jargon with “ChatGPT”-like Intelligent Search. With our solution, you can now easily communicate with your data and documents using natural language. Ask questions just like you would to a colleague – and receive relevant results almost instantly. The orchestrator will route your query and provide a response retrieving and citing the most relevant data source(s).

Unprecedented Capabilities:

LLMs advanced language understanding capabilities coupled with AI-powered search services like Azure Cognitive Search's robust indexing and vector retrieval system empower you with unprecedented capabilities. Discover insights, patterns, and trends in your data that were once buried in the depths.

Unlock Hidden Insights At Your Fingertips:

Break through the barriers of traditional search methods and unearth insights from massive volumes of data, pulling from structured and unstructured data and knowledge graphs to make data-driven decisions faster than ever before. We meet your users where they are, whether that's in a web app or widget that you can embed in existing flows, or through other avenues like PowerApps and Microsoft Teams.

Transform Your Business Landscape:

Whether you're in research, finance, healthcare, or any industry that thrives on data, our Intelligent Search Solution can transform the way you operate. Empower your team, or your customers to explore, analyze, and innovate, opening doors to new possibilities.

Built on Scalable Azure AI Foundation:

Harness the scalability and reliability of Microsoft and Microsoft Azure with our solution. The Intelligent Search Starter Solution delivers a scalable generative AI platform upon which the enterprise is ready to expand use cases, capabilities, and progress up the AI maturity curve. Enjoy the benefits of a cloud-based solution that adapts to your organization's growing needs.

Secure, Reliable, and Responsible:

Rest easy knowing that your data is secured by Microsoft Azure. Our solution leverages Azure PaaS and prioritizes data integrity, and confidentiality ensuring that your organization's sensitive information remains protected and is used in a responsible manner.

Offering: Intelligent Search & Summarization Starter Solution

With intelligent chat-based search, organizations can quickly retrieve relevant information and streamline data analysis, ultimately leading to better decision-making, increased productivity, and reduced costs. Our solution comes with a predefined scope and accelerates time to consume, understand, and act on information through a chat interface over your data.

Typical Benefits

- Increased efficiency
- Enhanced innovation
- Improved end user experience
- More informed decision making
- Cost savings

Scope

- For this predefined solution, we will support up to 500 PDF files; please consult us directly for other file or data types
- English-only

Our Experience

- We have deployed this solution to numerous clients across various industries, tailored to their domain – [ask us](#) to find out more!

Delivery Timeline

- 4 weeks, with W0 onboarding entry pre-requisites *
- Post delivery of this starter solution, we can work with you to scale to production

What You Walk Away With in 4 Weeks*

Azure AI Environment

Sandbox Resource Group

Intelligent Search Starter Solution

Azure AI Cognitive Vector Search
"ClientGPT" natural language web interface
Azure OpenAI GPT model access

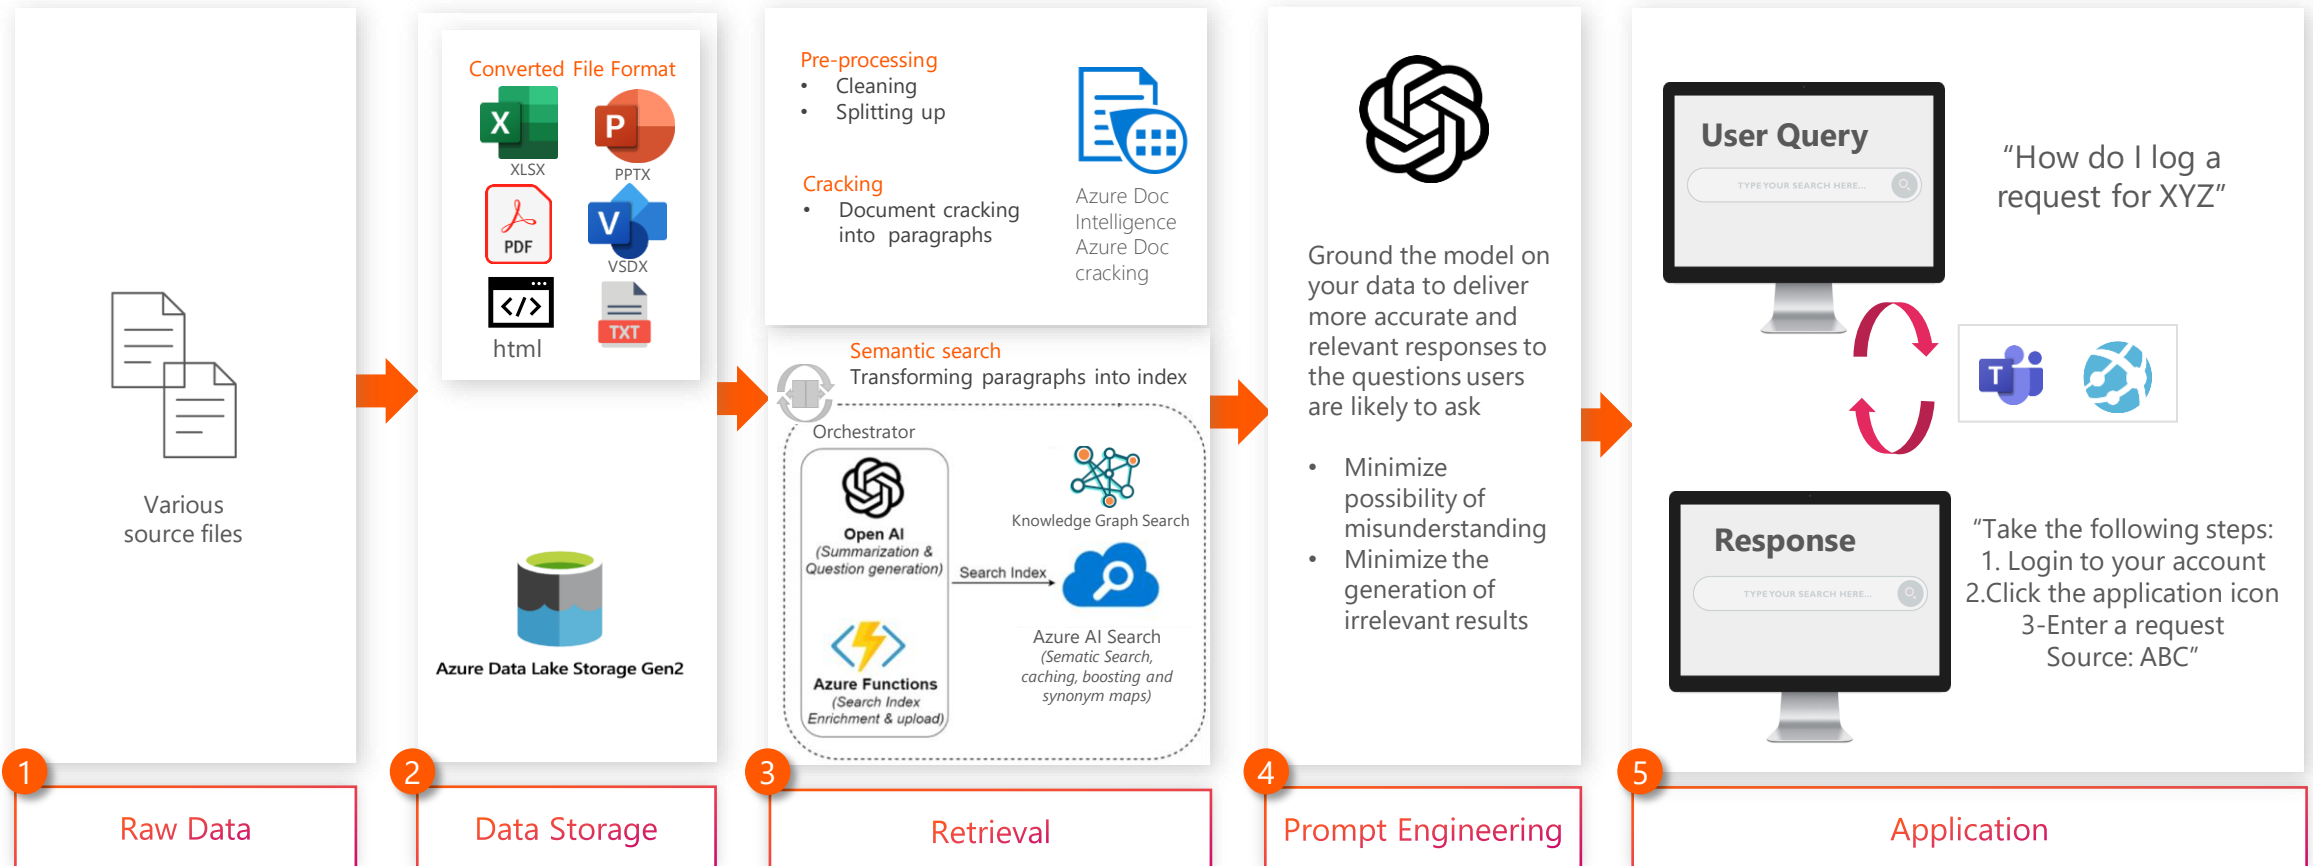

Design and Architecture Documentation

Word and PowerPoint
Azure Infrastructure, Service, and Solution diagrams and technical documentation

*Note: Any change in scope from the pre-defined scope will result in changes to delivery timeline

Intelligent Search & Summarization: How It Works

Avanade is the global market leader in building innovative Microsoft solutions

As a joint venture, formed in 2000 by Accenture and Microsoft, Avanade brings the best in Microsoft capabilities. With unique industry insights, unrivaled expertise and breadth of services, our 60,000 people **do what matters** for our clients and their customers every day.
