

## Modern Sec Ops

At Avanade, we're the experts at helping you modernize your security and defend against threats. Our services are designed to help you protect trust while providing value using our unique manage, defend and evolve approach.

## Upgrading to a Cloud-Native SIEM is the aspiration of many modern SecOps functions.

### Business Needs

Leading organizations are focusing on how they can build resilience at the core, particularly when it comes to cloud security, by looking at the challenges they need to solve most:

- The attack surface has increased
- Hybrid remote working is exposing organizations
- Microsoft security and platform capability has never been stronger

### Value Proposition

We provide end to end security operations center services, which utilize the latest Extended Detection and Response capabilities from Microsoft to detect, protect and respond to cyber-risks, helping to ensure the continuity of your business and avoid disruption.

- Microsoft Sentinel Migration and Soc Modernization helps accelerate and simplify customer migration and modernization projects to Microsoft Sentinel workload.
- This can include migrating from any competitors or on-prem solutions to Microsoft Sentinel; or adding new customers to Microsoft Sentinel.

## Business offering summary

What is it?	Action / Activity	Typical outcomes
Migrate to & manage Microsoft Sentinel	Migrate from existing on prem or 3 <sup>rd</sup> party solutions to Microsoft Sentinel.	Set and manage the right security configurations across the Microsoft platform to ensure the best protection for customers. Cost effective security monitoring at scale using Microsoft Sentinel.
