Activating Copilot...

Microsoft 365 Copilot Vision and Value Evaluation

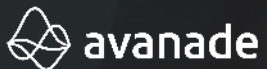

We're on the cusp of a major change in workplace practices and productivity

of business and IT executives around the world agree that **organizations need to shift to an AI-first operating model** to remain competitive.¹

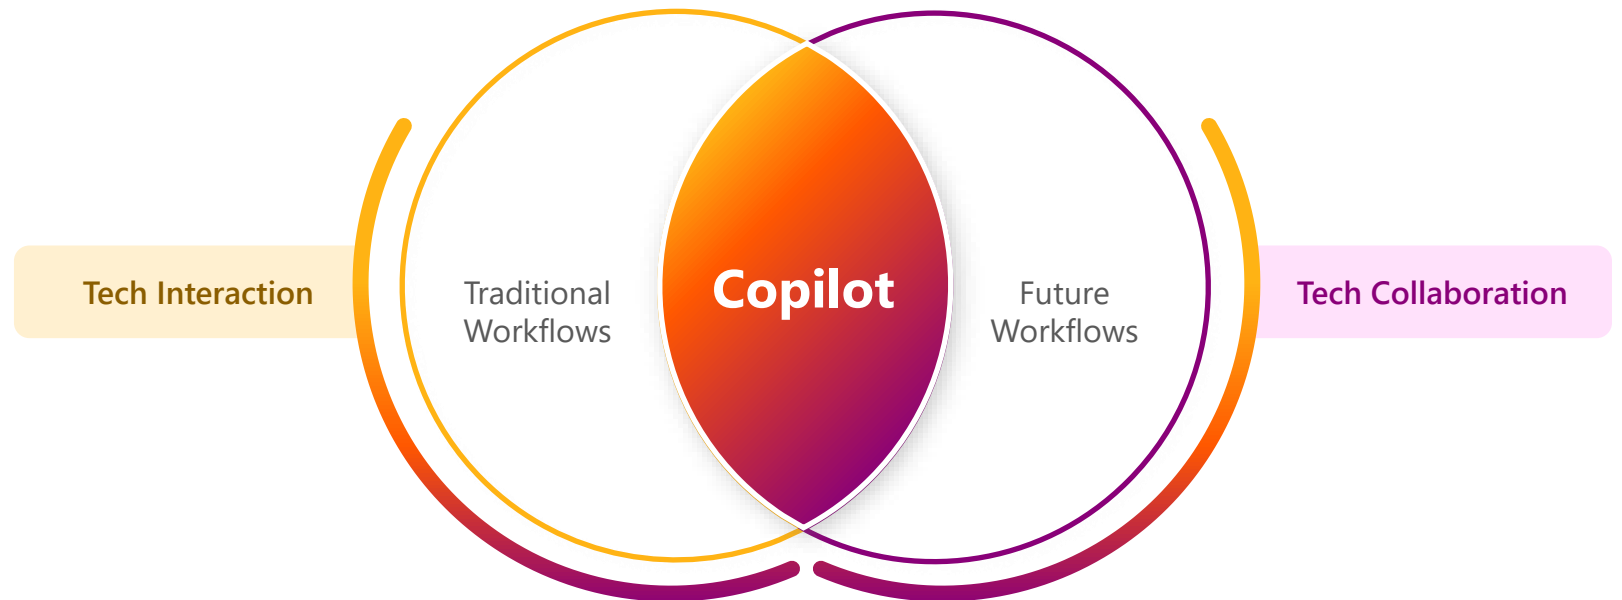

1. Source: Avanade (2023), "AI Readiness Report."

Microsoft 365 Copilot's full value is realized when people build their "Copilot muscle" and integrate it into their daily workflows.

Meet your new AI co-worker

With generative AI, we're not just using technology to get things done – we're collaborating with it. **Microsoft 365 Copilot** does more than assist. It augments and complements your abilities, **enabling you to be your best.**

The path to success

With Microsoft 365 Copilot, we put the power of generative AI in the hands of your people to transform the way they work and drive re-invention at scale. Here's how we do it:

Ready your people, processes, platforms

To ensure your workplace is Microsoft 365 Copilot-ready, we help you understand where you are on your Microsoft 365 and Power Platform maturity journey and what key next steps are needed to ensure successful integration.

Elevate the human experience

Our services extend beyond merely activating licenses; we make Microsoft 365 Copilot work harder for you. Reinvent work experiences by using Microsoft 365 Copilot to automate tasks and connect employees to valuable knowledge and AI-powered workflows, enabling them to perform at higher levels.

Continually unlock value and growth

Whether you want to add new features, improve user experiences or integrate with other platforms, we can help you scale and extend Microsoft 365 Copilot to significantly boost its potential, leading to faster, more impactful ROI.

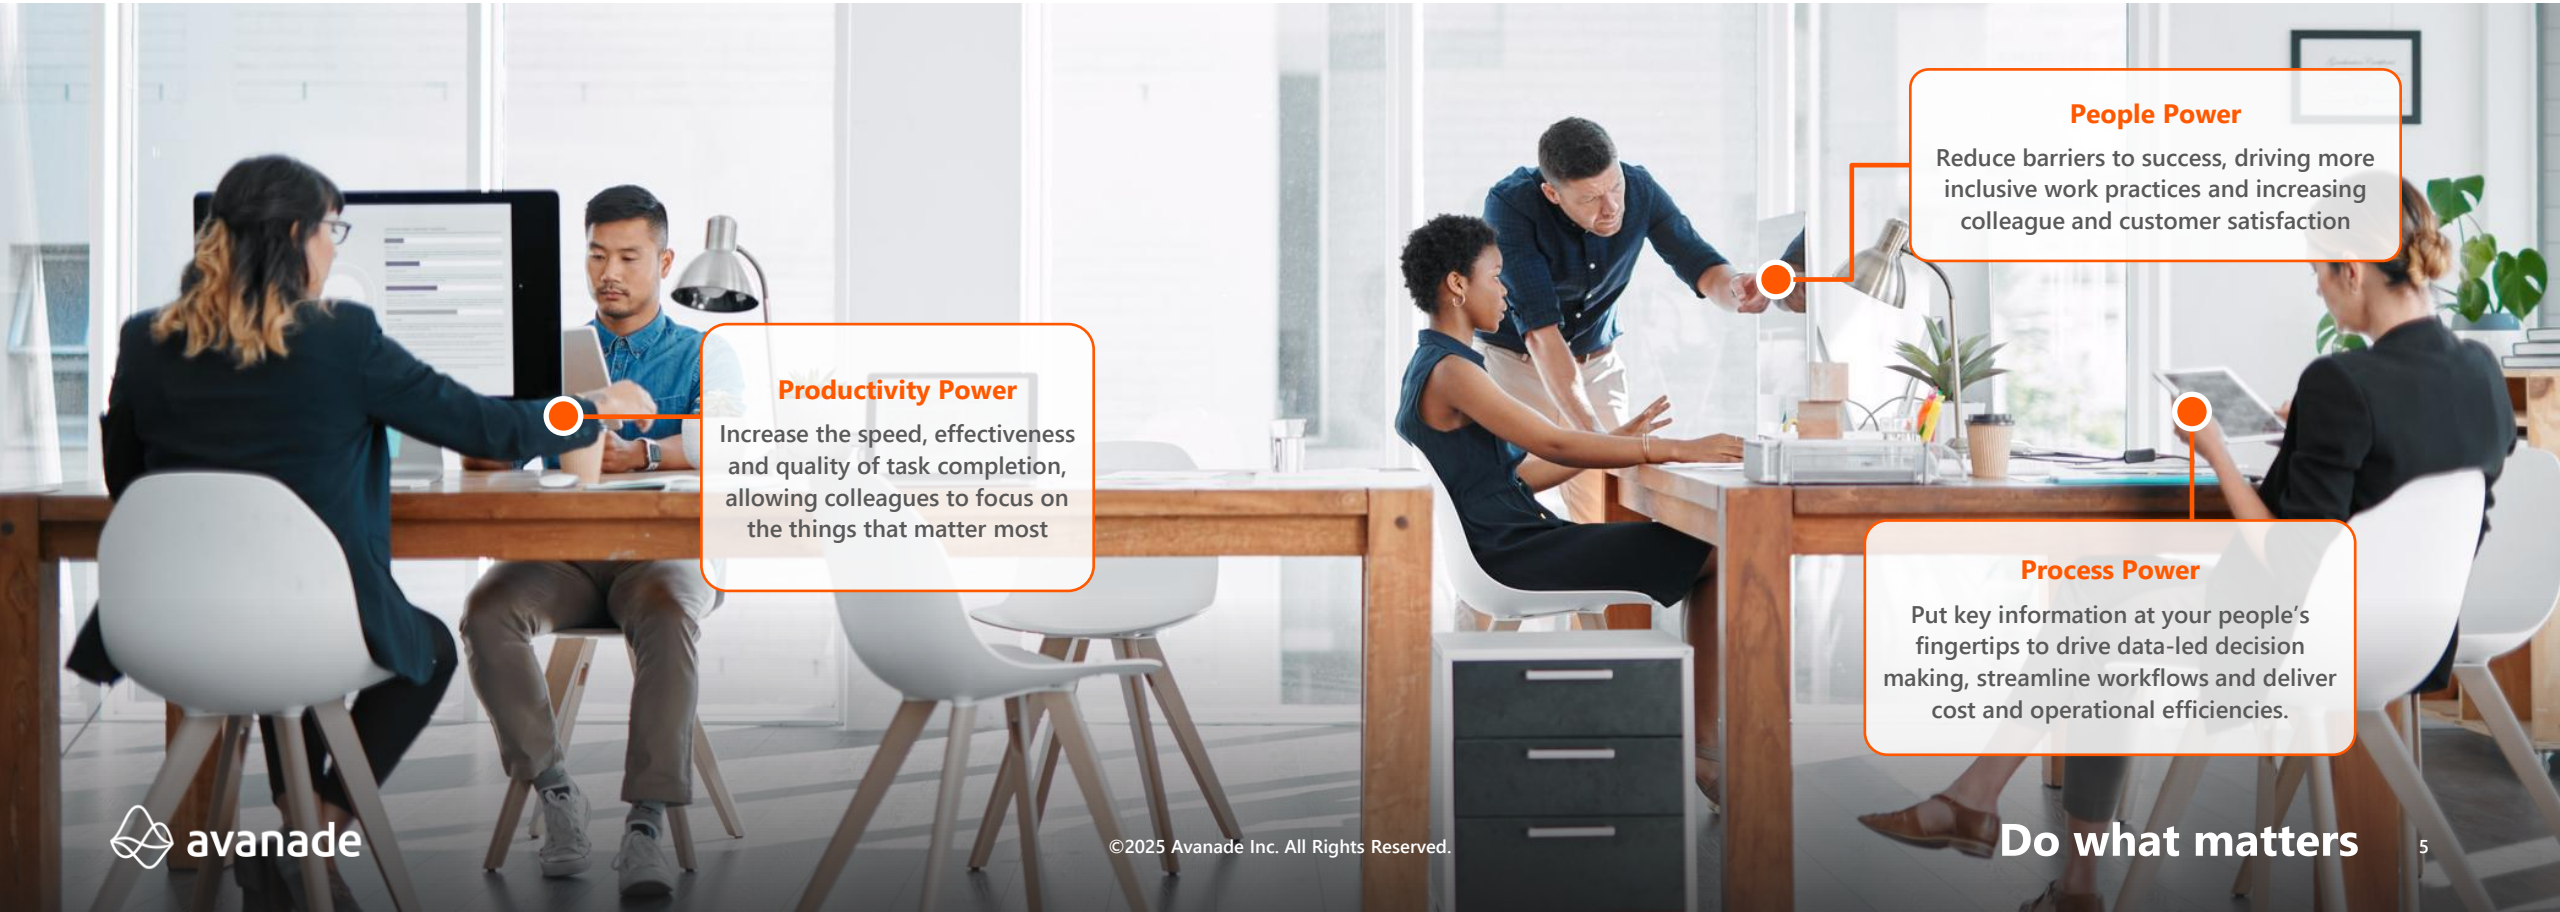

Here's how we've done it ourselves

76% of daily Microsoft 365 Copilot users increased productivity and efficiency²

40% increase in problem resolution²

84% of people felt a greater sense of accomplishment in their work²
