

Do what matters

Activating Copilot...

Microsoft M365 Copilot Transformation

Seize the opportunity to activate Copilot in a thoughtful, business and people-centric way to unlock the maximum potential for your organization.

End-to-end transformation is essential to truly prepare for the future of work.

End-to-end transformation

- **People readiness** – services designed to support the people side of change, by ensuring that users are engaged, informed, prepared and empowered to adopt Copilot and new ways of working
- **Business engagement** – customized services to help you discover the best use cases, personas, extensibility options and value propositions for Copilot
- **Platform readiness** – a set of services and capabilities that enable the successful adoption and integration of Copilot into the organization's workflows and systems, encompassing a generative AI center of excellence, information management, user support, extensibility, manage and evolve services, and more

Don't wait - seize the opportunity to transform your organization and unlock its full potential by activating Microsoft 365 Copilot the right way.

How Avanade can help

Avanade Productivity Studio

Ongoing innovation as a service to help you expand participants and get you Enterprise Ready for Roll-Out.

OR

Why Avanade

Our “Learning and Insights”

We are one of only 10 who’ve been on the Copilot journey with Microsoft since February

Microsoft Partnership

Microsoft has captured the narrative on Generative AI and our position as No1 partner and our early involvement supporting development of Copilot positions us as a strong player and early mover in this space. Microsoft are keen for us to engage with EAP clients.

Microsoft Specialization

We have deep subject matter experts who can provide the capacity and skills to enable clients to move fast to adopt copilot by addressing problems as they are encountered

Our position as a Workplace innovator

Avanade’s is an established market innovator for Future of Work where we support clients to realize the value of the Microsoft Workplace through Enhanced Employee Experiences and the Reinvention of Work for Business Value Outcomes.

This aligns with our Gartner Magic Quarter positioning.

We have a broader perspective and toolkit

With our Experience Studio innovation service our Advisory, Experience Design & Tech experts create the backlog and business case, guide development, introduction and adoption of new technology / solutions, and provide ongoing oversight and management of the solution, and insights on value realized. Copilot may only be part of the answer.

Let's get started

The journey begins with a learn and discuss conversation. Connect with us to schedule a two-hour session with our GenerativeAI specialists. Together, we can create a plan together to capture the value of Copilot and achieve productivity for your Workplace.
