Coach and monitor doctors on performing new procedures and using new equipment

Care Team Collaboration

Provide multidisciplinary reviews to more patients, improve regulatory reporting and deliver better outcomes

Teammate

Keep your employees safe, informed, engaged and productive

Discharge Planning

Improve Length of Stay metrics by proactively managing tasks necessary to discharge on time

Virtual Huddles

Identify, measure and solve issues to improve quality of care

Features and benefits

FEATURES

Integrated with Apple HealthKit connecting to health apps/devices

Optional integration with specialty medical devices based on provider preferences

Integration via HL7/FHIR to Epic and other Electronic Health Record systems

Configurable alerts based on patient's condition

Optional Cohort Browser, Machine Learning and Health Bot add-ons for discovery of leading readmission indicators, predictive analysis and diagnostic aids

Built on the secure, HIPAA-compliant Microsoft platform you've already licensed

Features and benefits

BENEFITS

Reduced readmission rates via early problem discovery

Improved patient outcomes via more timely treatment adjustment

Improved clinical decisions via availability to caregivers of real-time, comprehensive data

Increased revenue through recently expanded CPT codes for remote patient monitoring

Registration web app

The registration web app allows caregivers to:

- View patient profile and devices assigned to patient
- Link devices to patient
- Unassign devices from patient
- Validate insurance data

Device Type	Device ID	Assigned	Status	Service Date	
Smart Knee Brace	Smart Knee Brace - 24bjobtcf8i	Tonny Stark	Active	10-13-2021	View
Smart Vitals Patch	Smart Vitals Patch - 1qsi9p8t5I2		Active	10-13-2021	View

Patient Details [View profile](#)

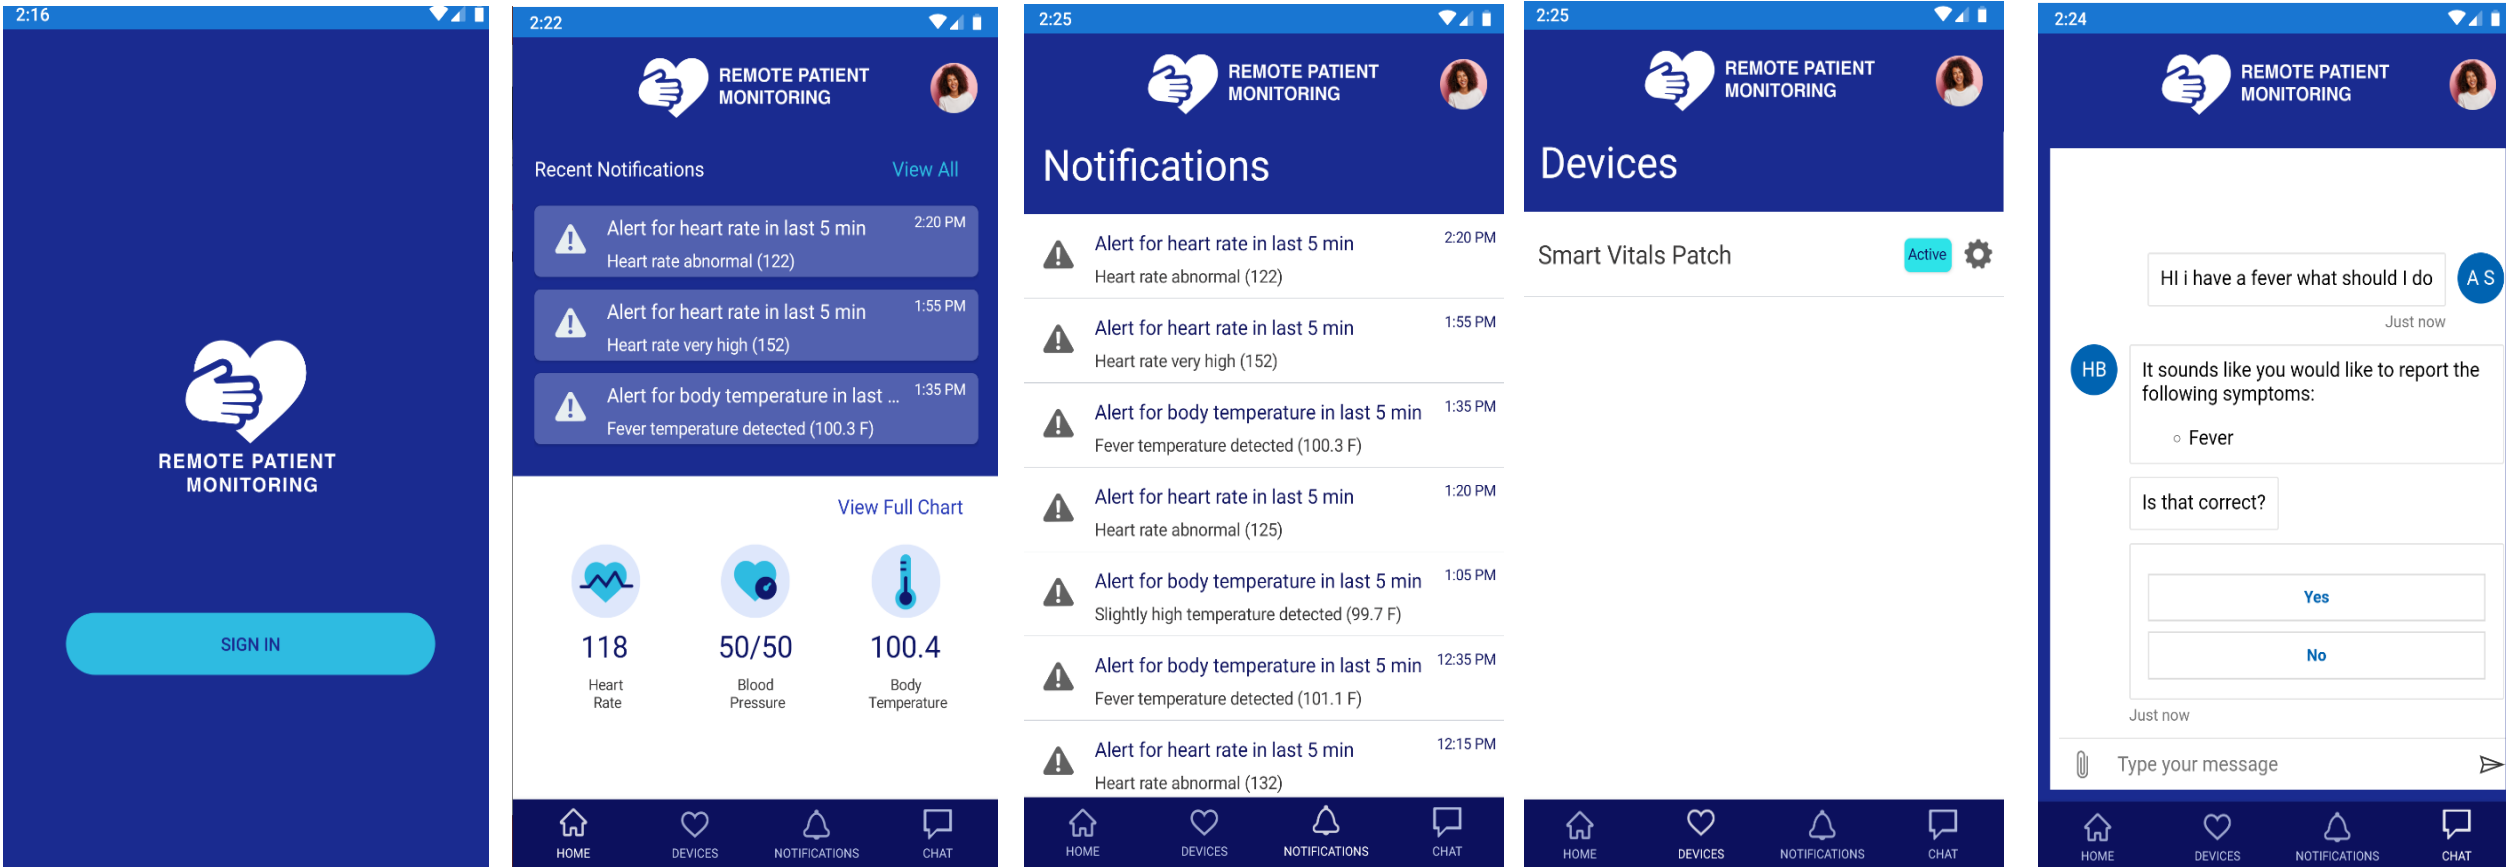

Patient Number	Date of Birth	Attending Physician	Appointment
720658626GP	10-09-1970	Gregory House	07-30-2020

Medications History Diagnosis **Registered Devices**

Device Type	Device ID	Status	Battery	
Smart Knee Brace	SKN0IDT022	Deactivated	90%	View
Smart Knee Brace	Smart Knee Brace - 24bjobtcf8i	Active	90%	View

Patient mobile app

Provide patients with easy and secure sign in, targeted alerts and triage and immediate assistance via an in-app health bot

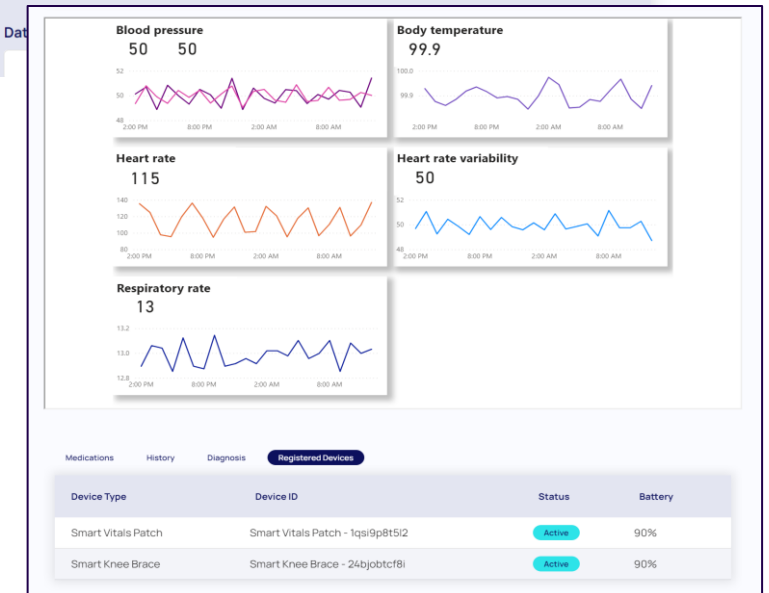

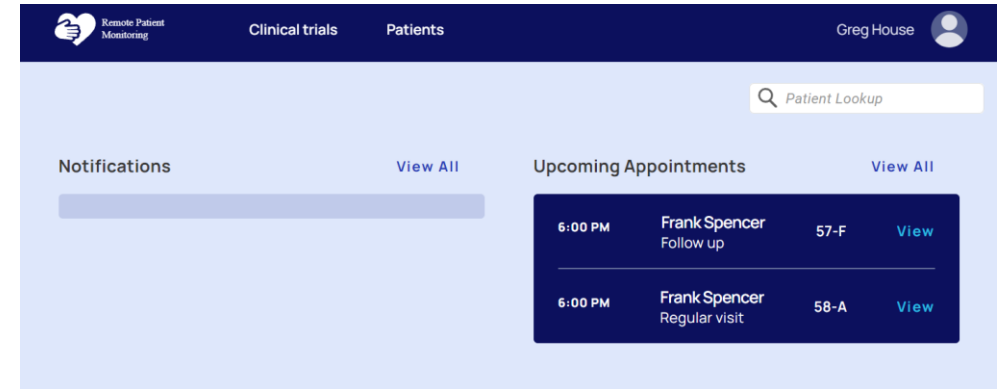

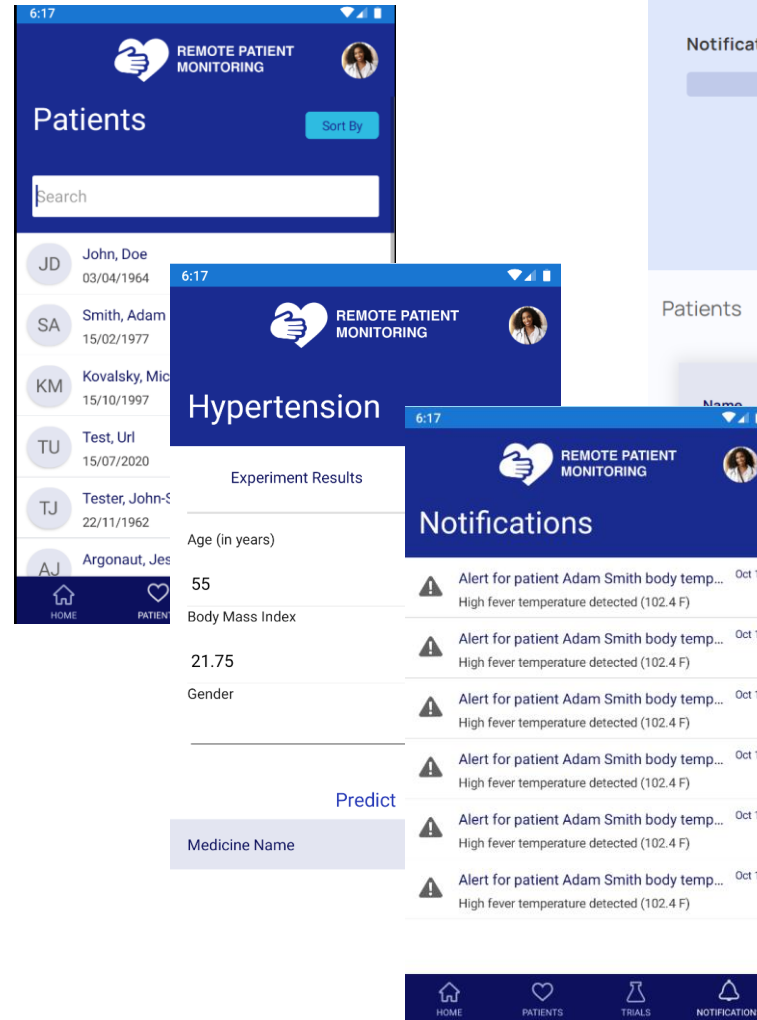

*Available for iOS and Android

Clinician web and mobile apps

Enable clinicians to easily:

- View patient profiles
- Review detailed patient vitals charts
- Examine patient medical history, diagnosis and medications
- Adjust patient prescription dosage
- View recent alerts and notifications
- Access patients list
- Search patients by name

Get started with a Discovery Workshop

Avanade's Discovery Workshop gives you the tools to uncover high-value opportunities.

Build the foundation

Our experts help you identify transformational ways to realize improved outcomes.

Identify high value quick wins

We uncover pain points and brainstorm practical solutions to drive meaningful improvements in the patient and caregiver experience.

Deliver value over time

Our scalable, agile approach uncovers value that directly translates to lower risk and operational costs, greater ROI and better performance – enabling you to keep pace with emerging needs.
