

Maximize HR efficiency across the employee lifecycle with our HR Agent

Overview

Optimize every stage of the employee journey with AVASOFT’s HR Agent, an AI-powered assistant built on Microsoft Copilot Studio. It automates key HR tasks across workforce operations, from coordinating interviews during onboarding to managing offboarding processes. This reduces manual effort and improves overall efficiency. With configurable workflows and seamless integration into your HR ecosystem, HR Agent delivers a streamlined and employee-focused HR experience.

Key Features

- ★ **End-to-End HR Workflow**
Manage employee transitions from drafting job descriptions onboarding to offboarding using structured workflows that maintain consistency and compliance at every stage.
- ★ **AI-Powered Resume Screening**
Analyze resumes uploaded against role requirements using AI to identify the most relevant candidates with contextual suggestions.
- ★ **Interview Coordination**
Coordinate interviews with timely notifications, candidate tracking, and centralized feedback for informed hiring decisions.
- ★ **Leave, Payroll & Self-Service Access**
Facilitate leave applications and approvals while allowing employees to securely access payroll and compensation details through a built-in ticketing system.
- ★ **Referrals and Talent Search**
Streamline employee referrals with trackable forms, enable skill-based search, and allow interns to access training schedules on demand.
- ★ **Engagement, Feedback & Event Support**
Automate feedback collection, schedule one-on-one meetings, and manage event planning, supporting a connected and engaged workplace.

Deliverables

-  **Fully Configured HR Assistant:** A ready-to-use chatbot, powered by Copilot Studio, is equipped to handle a broad range of HR functions securely and accurately.
-  **SaaS Platform Integration:** Built to connect with your current HR systems for real-time, contextual responses and process alignment.
-  **Custom Workflow Automation:** HR processes tailored to your organization’s structure are flexible and easy to maintain.
