

Simplify Azure Modernization with AVASOFT for Optimized Cloud Outcomes

Timeline

Week 1: Initial Consultation

Week 2: Strategic Planning Session

Week 3: Team Assembly and Onboarding

Week 4: Project Kickoff

Overview

Empower your cloud initiatives with AVASOFT, providing unparalleled access to a dedicated pod of top-tier cloud solutions architects and DevOps engineers, specialized in architecting, building, and modernizing Azure environments. Leveraging a unique agile service delivery model focused on continuous engagement and delivery, we accelerate your cloud advancements, ensuring faster, more reliable progress as a Microsoft Solution Partner.

Key Features

★ Dedicated Cloud Expertise Pod

Access a specialized team including CSAs, DOEs, and an EM, focused on driving specific Azure outcomes efficiently.

★ Agile Service Delivery Model

Benefit from continuous engagement and delivery, accelerating your cloud initiatives with agile management and coordination.

★ Flexible & Cost-Effective

A recurring service model that adapts to your needs, providing the right mix of consulting and engineering support for maximum value.

Deliverables

Strategic Roadmap Development: Collaborate with our Azure Modernization Pod to create a tailored strategic approach for your Azure modernization and engineering needs.

Implementation Support: Receive design and implementation assistance on modernization initiatives, including cloud-native architectures, CI/CD pipelines, microservices, high availability, and disaster recovery.

Infrastructure Analysis: Assess existing infrastructure for compatibility with Azure, identifying areas for optimization and modernization.

Cost Optimization Strategy: Develop a cost optimization strategy to maximize ROI and minimize expenses associated with Azure usage, leveraging Azure's cost management tools and best practices.

Next Steps

- ★ Initiate your journey by reaching out to discuss how AVASOFT Cloud Elevate can support your Azure cloud objectives.
- ★ Collaborate with your dedicated AVASOFT pod to define your cloud strategy and modernization roadmap.
