

Modern M365 based intranet

About Aveniq:

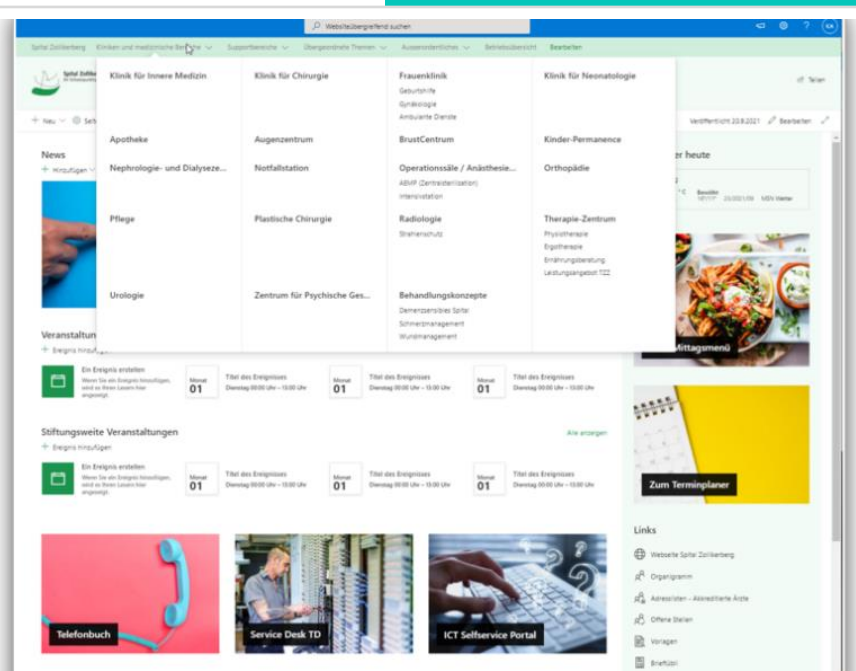

Aveniq is one of the largest Swiss IT service providers and combines the many years of experience and know-how of over 600 employees.

What we offer

Ninja365 Intranet is our ready-to-use implementation concept, with which you can quickly build a modern and appealing intranet based on SharePoint Online. Thanks to the out-of-the-box functionalities used, you no longer have to worry about future releases from Microsoft. Individual adaptations and extensions are possible at any time.

Use the features of M365 and benefit from our best-practice experience to create a "unique place to be" in your company in a short time and at low cost with us as your project accelerator.

The Ninja365 intranet can be implemented in a very short time, it is multilingual, responsive and modular extensible. The intranet can also be adapted to your corporate design.

What our customers are saying

"We have come a big step closer to our goal of further expanding the "Digital Workplace" and thus being able to offer our employees a user-friendly and modern interface. "

– Claudia Meier, Communication Specialist, KKL

Why Microsoft 365?

— Save your company money

Microsoft 365 is available as a simple monthly subscription. Avoid large up-front costs for new software while moving the cost of IT from capital to operating expense. And without on-premises servers to run email, websites, and document storage, you can reduce energy costs and save by no longer purchasing new server hardware.

— Scale your business quickly and flexibly

Microsoft 365 grows with you on the Microsoft Azure cloud. Adding a new user is as simple as buying an additional license, which allows access to business-critical technology on up to five PCs/Macs and five mobile devices. Microsoft 365 provides many plans to fit the right capability needs and price points for each user in your organization.

— Technical support

Your Microsoft 365 subscription comes with 24/7 support from a global network of experts, with one-hour response for critical, service-impacting events.

— Financially backed SLA

Get peace of mind knowing your services are available when you need them with a financially backed, 99.9% uptime service-level agreement.

— Simplified IT management

Reduce headaches by reducing your IT infrastructure. Content lives safely in globally distributed data centers with continuous backup and disaster recovery abilities.

Key use cases

Business-class email

Build anything from lightweight websites to multi-tier cloud services that scale up as your traffic grows.

Cloud storage

Rely on geo-redundant cloud storage for backup, archiving, and disaster recovery.

Meet online

Get actionable insights from your data by taking advantage of a fully compatible, enterprise-ready Hadoop service.

Collaborate, chat privately

Accelerate your mobile app development by using a backend hosted on Microsoft Azure.

Microsoft 365

Microsoft 365 is a cloud-based subscription service that brings together the best tools for the way people work today. By combining best-in-class apps like Excel and Outlook with powerful cloud services like OneDrive and Microsoft Teams, Microsoft 365 lets anyone create and share anywhere on any device.
