

# Enterprise Video Production and Broadcast Services

## Accelerate and Elevate Your Microsoft Teams Experience with AVI-SPL Professional Services

AVI-SPL empowers organizations to unlock the full potential of Microsoft Converged Communications through a comprehensive suite of professional services. Whether you're just getting started or looking to scale your collaboration capabilities, our expertise ensures a seamless, high-impact experience across your enterprise

### Broadcast Studio Design & Integration for Teams-Enabled Workspaces

We design and build state-of-the-art broadcast studios tailored for Microsoft Teams environments. From initial consultation to VR-based previsualization and final integration, our solutions align with your brand's communication goals—enabling high-quality, Teams-integrated video production for executive messaging, training, and hybrid collaboration.

### Virtual, Live, and Hybrid Event Production Powered by Teams

Our global production team delivers flawless Microsoft Teams-based events—from town halls and sales kickoffs to investor meetings and customer engagements. With broadcast-quality studios and mobile production capabilities, we help you elevate your Teams meetings into professionally produced experiences that drive engagement and impact.

### Content Creation to Enhance Teams Communications

Enhance your Teams meetings and events with compelling visual content. Our in-house creative team produces branded show opens, animations, lower thirds, and pre-recorded segments that integrate seamlessly into Teams broadcasts—boosting production value and audience retention.

### Onsite Managed Services for Microsoft Teams Ecosystems

For enterprise level clients with the need for daily AV and event support needs, AVI-SPL has a robust Onsite Managed Service practice. We provide full-time onsite AV service professionals for some of the world's leading brands. Our experts ensure your Teams environment runs smoothly every day—maximizing uptime, user adoption, and ROI.
