

Microsoft Teams Rooms Pilot

AVI-SPL's Teams Rooms Pilot supported by Microsoft

The program includes an end-to-end pilot for up to five Microsoft Teams Rooms.

This is a 45-day engagement designed to show customers how to successfully plan for, deploy, adopt, administer and manage Microsoft Teams Rooms via a small-scale pilot deployment.

Installation and deployment services from AVI-SPL will be partially subsidized by Microsoft (for qualifying customers). Customers may pilot up to five rooms ranging from Huddle to Medium sized rooms (certain restrictions apply). Hardware may be provided by the customer or purchased from AVI-SPL.

AVI-SPL will provide full project management of the pilot rooms, training on the MTR Pro Management Portal / Teams Admin Center, as well as end user training for the Microsoft Teams Rooms.

About AVI-SPL

AVI-SPL is a digital workplace solutions provider that transforms how people and technology connect to evaluate experiences, create new value, and enable organizations to thrive and grow.

As the leading provider of collaboration technology solutions, which include our award-winning managed services, our highly trained team works hand-in-hand with organizations worldwide – including more than 86% of Fortune 100 companies.

AVI-SPL has over 65 offices globally and will be enabling this Teams Rooms Pilot in the following regions - United States, United Kingdom, Canada, United Arab Emirates, Germany and Ireland.

Plan

- Define pilot scope
- Identify stakeholders
- Identify hybrid meeting use cases
- Identify pilot meeting rooms

Enable

- Assist with room system configuration
- Deploy pilot rooms
- Teams Rooms operate in customer's production environment

Grow

- A written report on pilot findings will be shared providing prescriptive guidance for a scaled rollout
