

# HYBRID MEETING ROOM SPECIALIST

## FLEXIBLE WORK IS HERE TO STAY- LET'S THRIVE IN IT!

Business never stops evolving and this time it has come in with a situation for companies to reconsider how and where their employees should work. As a development strategy- Hybrid workplace has taken place where location, access requirement, and remote collaboration demands are different and more dynamic than ever before.

With Microsoft Teams/ Teams Room we are bridging the gap between the people working remotely, at office or on the go that allows everyone to be seen heard and collaborate from anywhere.

---

Keeping in mind a solution centric approach, we can efficiently enhance your meeting room by delivering the best fit video conferencing devices. By this we are helping everyone feel closer and more engaged and collaborate fully.

### Assess

Gather information on current environment and meeting practices

### Showcase

Provide a proof of concept to the existing or new meeting rooms

### Execute

Build the strategy and roadmap for deployment and adoption

## Desired Results

- To fully utilize from the traditional working scenario to the Hybrid work model.
- With a proof of concept provides a immersive experience to understanding the current meeting to achieve the best result with Teams Room solutions.
- Direction on how to transform to modern meetings across your entire organization.
- Customized report with actionable recommendations to ensure your organization can meet seamlessly and share information securely in a hybrid meetings environment
