

THE IMMERSIVE HYBRID MEETING EXPERIENCE IS HERE

Overview

We at Avientek provides a one stop shop service for the fully integrated Microsoft Teams Room. Our team is fully equipped, and we have immense experience in the AV space which we want to make use of in this MTR motion with Microsoft. We have certified team to provide a solution design and diagrams. We work along with the customer preferred integrators or assist with the right ones to get the job completed. We would continue supporting as a consultant and provide user or technical training along with 24x7 online support.

Target Audience

Teams Rooms are targeted at organizations who want to extend the Microsoft Teams desktop experience to spaces where people meet, share and collaborate. Our Meeting Spaces have been designed to easily leverage your existing Teams and Microsoft 365 cloud services including Phone System, Audio Conferencing and Calling Plan capabilities.

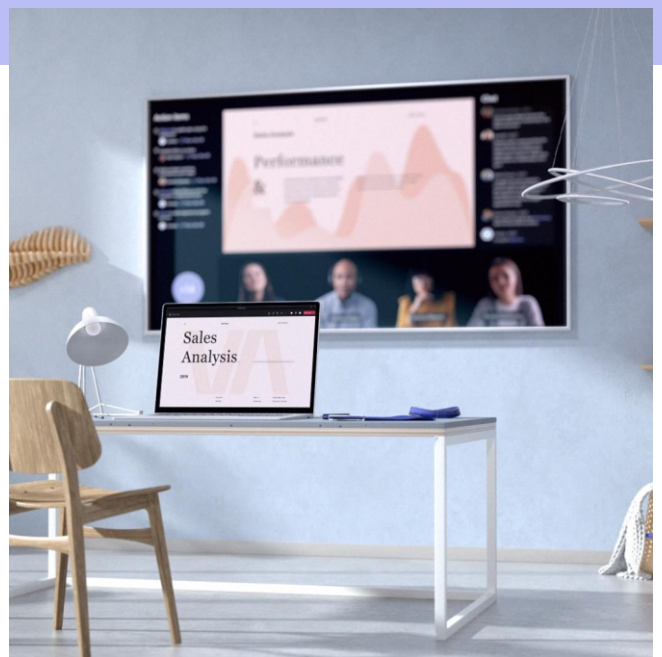

GUIDING YOU THROUGHOUT THE JOURNEY

- ✓ **ASSESS**- Gather information on current environment and meeting practices
- ✓ **SHOWCASE**- Provide a demo at the latest immersive studio and a proof of concept to the existing or new meeting rooms
- ✓ **EXECUTE**- Build the strategy and roadmap for deployment and adoption
- ✓ **DESIRED RESULTS**- An industry leading solutions that users embrace when combined with our proven adoption approach and to fully utilize from the traditional working scenario to the Hybrid work model.

WHY TEAMS MEETING ROOMS

Better Meeting Experiences

- Continuous integration and roll-out of latest app features
- Software and hardware work together to deliver high quality audio and video
- Continuity across Teams platform
- Intelligent and voice-based experiences
- Inclusive layouts that give everyone a presence in the meeting

Advanced Security

- Certified Microsoft hardware ensures security, quality and performance out of the box
- Credential Guard policies applied to protect against credential theft
- Secure Teams Rooms app with lockdown policies to limit sign-in vulnerabilities
- Automatic updates keep room systems in a default secure state
- Microsoft Defender for Endpoint threat protection and verified updates to limit vulnerabilities

Easily Managed

- Manage all your Teams settings in one location, including your Teams devices
- Granular controls give you remote device configuration access
- AI-driven operations automates updates, problem detection, and resolution at scale
- Best practices grounded in knowledge from thousands of endpoints and dedicated room experts

CERTIFIED DEVICES FROM LEADING HARDWARES
