

# **TTEC Digital Datacenter to Cloud Migration Assessment Offer**

Reduce operating costs and increase resilience by  
migrating datacenter workloads to Azure.

# TTEC Datacenter to Cloud Assessment

TTEC Digital's Datacenter to Cloud Migration Assessment helps organizations take a strategic, phased approach to moving their datacenter footprint to Azure. Our engagement includes:

- Discovery and inventory of datacenter infrastructure and applications
- Technical and business readiness assessment for cloud migration
- Phased migration roadmap with workload prioritization, migration methods, and timeline
- Governance, cost estimation, and best-practice alignment
- Presenting the final roadmap to technical and business stakeholders

The result is a clear, actionable plan that supports reliable, secure, cost-effective migration aligned to Microsoft's Cloud Adoption Framework and your business outcomes.

## Accelerate Business Outcomes

Phased roadmap with migration methods and timelines

Governance and cost visibility for each phase

Alignment to business goals and CAF best practices

## Pain Points

- ✓ Need clear insight into datacenter workload readiness for Azure
- ✓ Lack of structured migration plan or prioritization
- ✓ Uncertainty around governance, performance, or cost
- ✓ Desire for phased migration approach with minimal disruption

## Qualification

- ✓ How many servers and applications are in your datacenter?
- ✓ Are there dependencies that need careful orchestration for migration?
- ✓ Is your priority cost savings, agility, or compliance?
- ✓ Do you have performance or security requirements for cloud workloads

## Outcomes

- ✓ Readiness and Dependency Mapping
- ✓ Phased Migration Strategy and Roadmap
- ✓ Estimated Cost and Timeline per Phase

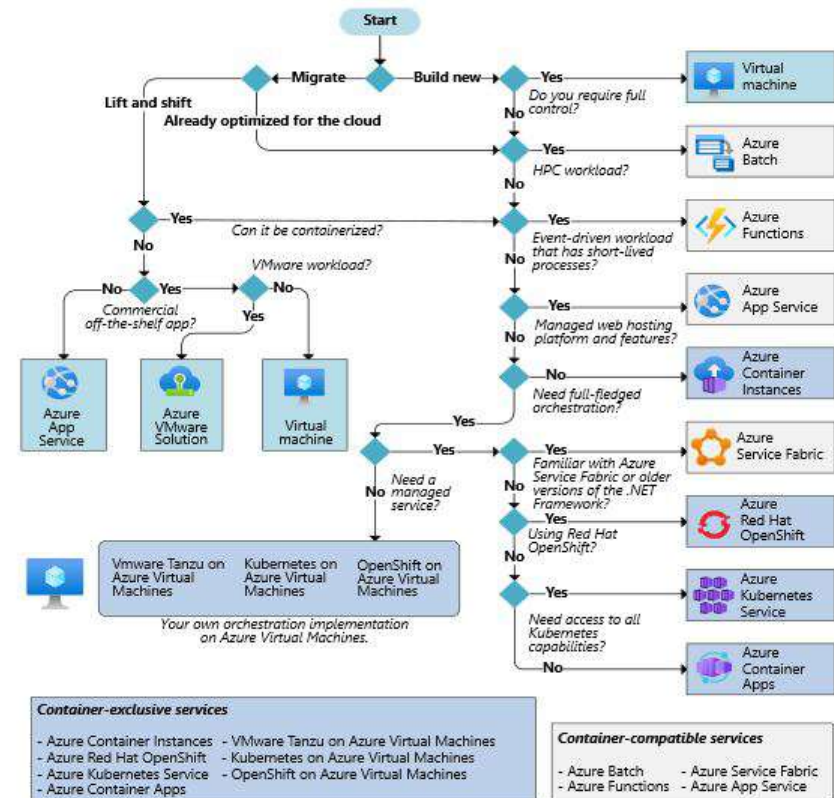

**Project Cost:**  
\$10K – Eligible for TTEC and Microsoft funding

**Project Timeline:**  
1 Week

- Datacenter Infrastructure and Application Inventory
- Readiness and Dependency Mapping
- Risk and Complexity Analysis
- Phased Migration Strategy and Roadmap
- Estimated Cost and Timeline per Phase
- Presentation to Technical and Business Stakeholders

# Datacenter to Cloud Migration: Discovery to Findings
