Envision what your future looks like

Our experts are here to help you solve key challenges such as:

- Activating digital selling

- Building a resilient supply chain

- Enabling always-on service

- Managing financial risk and reducing fraud

- Gain more control

Designing a better future.

The marked is rapidly transforming which is creating a need for more efficient responses, sustainable supply chains, responsible and compliant practices, and a growing skills gap in workers. This is pushing companies to create new business models and rethink the entire manufacturing value chain.

In this new reality, how do you envision the future state of your organization? Build your transformation strategy with Microsoft Catalyst, a proven and powerful approach to innovation.

Let's ideate together

As part of Catalyst, meet with our experts and run an envisioning workshop, where we can ideate together using design led thinking concepts and jointly define how to enable the digital transformation of your organization.

This one-day briefing starts with a review of your business objectives, followed by mutual discovery and visualization of solutions, ending with a clear, actionable picture of how we can help you reach your business goals.

How *Axdata* can help

Axdata has been supporting companies for more than 20 years, our team of experienced specialists is here to help

What is Microsoft Catalyst?

Build, plan, and execute business transformation strategies with a proven, innovative approach from Microsoft Catalyst—an envisioning and planning program that employs Microsoft Dynamics 365, the Microsoft Power Platform, and the Microsoft Cloud. Your business transformation starts with an I.D.E.A.

Start by finding the transformation strategy that's right for you. Define and prioritize your strategy using development activities, then foster ideation and drive decision making with an envisioning workshop.

Inspire

Since its inception over 20 years ago, Axdata has been a consulting company implementing an ERP system for companies in engineering and manufacturing, trade and distribution, utilities and professional services. Like the market, the company has also developed and today offers the entire Microsoft Dynamics product range and thus a complete business system to several markets.
