

Empower Your Workflow with CoPilot for Microsoft 365: Revolutionizing Productivity Through AI Assistance!

Copilot for Microsoft 365 is a revolutionary AI-powered assistant that helps you create, communicate, and collaborate more effectively.

It can generate high-quality content, summarize information, suggest actions, and enhance your skills across Microsoft 365 apps. Copilot for Microsoft 365 is grounded in your organization's data and context and follows responsible AI principles to ensure trust and privacy.

Microsoft Copilot for Microsoft 365 combines the power of large language models (LLMs) with your organization's data – all in the flow of work – to turn your words into one of the most powerful productivity tools on the planet.

It works alongside popular Microsoft 365 apps such as Word, Excel, PowerPoint, Outlook, Teams, and more

What are the benefits and outcomes of the Pilot?

- ❑ Discover how Copilot for Microsoft 365 works with Teams Premium, and other Microsoft 365 apps to provide a seamless and intelligent experience.
- ❑ Identify and prioritize your use case scenarios and personas that can benefit from Copilot for Microsoft 365.
- ❑ Explore opportunities for value-added scenarios, enabled by Copilot for Microsoft 365 with Copilot Studio, Copilot for Service and Copilot for Sales.
- ❑ Develop an actionable roadmap and next steps to pilot and deploy Copilot for Microsoft 365 in your organization.
- ❑ Get access to resources, best practices, and community support to help you succeed with Copilot for Microsoft 365.

PILOT HIGHLIGHTS

Unleash your creativity, unlock your productivity, and uplevel your skills with natural language and AI capabilities

Explore real case scenarios for opportunities to add value enabled by Copilot

Roadmap Definition with an actionable roadmap and next steps to pilot and deploy Copilot for Microsoft 365 in your organization.

Why you should attend

While advances in generative AI are transforming how we work, they are also reshaping how we protect our crucial data. Harnessing the generative AI capabilities of Microsoft Copilot.

By attending, you can:

ORGANIZATIONAL READINESS

Identify teams and individuals who will benefit the most from Co-pilot.

IDENTIFY USE CASES

Define specific, per department, use cases where Copilot can add value.

Use Copilot to speed up coding tasks by suggesting code snippets.

TRAINING

Create a Champions Program to drive awareness, adoption and increase knowledge of a group of key users to guide, teach, and train their peers.

Provide access to learning resources, tutorials, and documentation.

MONITOR AND EVALUATE

Regularly assess the impact of Copilot on productivity and code quality.

Gather feedback from users to identify areas for improvement or additional training.

What to expect

This workshop presents a thorough strategy for integrating Co-pilot into an organization's workflow, with a particular emphasis on identifying specific use cases across departments. Additionally, it involves creating a detailed plan that includes training and familiarization through a Champions Program, along with facilitating access to learning resources.

CUSTOMIZED WORKSHOP BASED ON YOUR ORGANIZATION'S NEEDS

Half Day Sessions

Identify teams and individuals who will benefit the most from Co-pilot.

Ensure that the necessary infrastructure and software are in place to support Co-pilot.

Define specific, per department, use cases where Copilot can add value (For this plan we consider 4 use cases in total).

Customer value conversation

Monitor and Evaluate
Regularly assess the impact of Copilot on productivity and code quality.

Gather feedback from users to identify areas for improvement or additional training.

Key results, recommendations and next steps

Who should attend

The workshop is intended for decision-makers such as:

- Chief Information Security Officer (CISO)
- Chief Information Officer (CIO)
- Chief Security Officer (CSO)
- Application Business Owners
- Solution Architect
- Network Engineer
- IT System Administrator
- IT Security
- IT Operations

Why Axians?

When it comes to Microsoft Copilot adoption, you need an experienced partner.

Axians is the linking pin of our connected planet. We aim higher than technical excellence, to make tomorrow's world more livable and fairer. We are part of a Group that is infused with strong human values and social ethics, a culture of qualitative relationships and close attention to stakeholders and end-users.
