GLASIAOUS

1. What’s GLASIAOUS

Copyright (C) 2020 Business Engineering Corporation.

Professionals × IT

Glocal & optimized for international business.

Copyright (C) 2020 Business Engineering Corporation.

GLASIAOUS

2. At Your Office

Copyright (C) 2020 Business Engineering Corporation.

Book-keeping costs you

time and human resource that should be spent for services with higher additional value.

I have no back-office experience…

No one is qualified for accounting here…

Why am I so busy just reporting?

Manual translation & reclassification of A/C items takes too much time and effort…

Different time zone and language…

Always training newcomers for different system…

Multiple system use makes our operation complicated…

Cannot telework due to system access restriction…

How come it takes so long…

Why do they need this remittance now?

They fail to answer our question…

For Cross-border Accounting Service

Our app cuts off your manual work.

Cloud-based App

- Accessible anytime & anywhere
  - Over physical distance
  - No concern for time difference
- No installation required
  - No worries for changing PC
  - Always the latest

Multi-language
Multi-currency

- Language-switch without re-login
  - See what you need in your language
  - Automatic translation available
- Automatic calculation of foreign exchange gains & losses
  - Use as many currencies as you need.

for Glocal Use

- Selected in 25+ countries & regions, by 850+ companies
- Covers multiple accounting standard
  - Global and local

Beyond BPO

Nurture trustful relationship with your client.

Accountants help us better!

Less worried about securing accounting staff

I have more time to do my job!

Manual work replaced by a click!

Accessible anytime we and they need.

Our operation standardized and simple!

No more double book-keeping!

We do **our work in our language,** and they **gain what they need in their language!**

Each transaction visible!

Watching the balance of cash on hand

Accessible anytime we need!

Impacts of COVID-19 on Cross-border Business

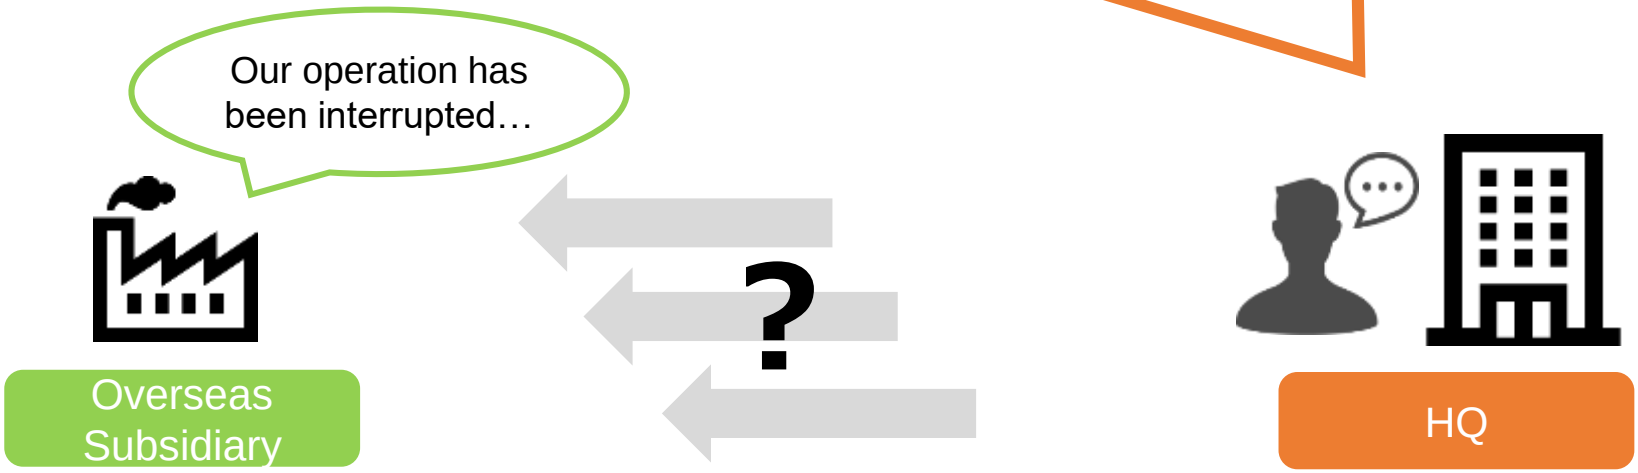
Cannot expat the staff from HQ or visit the overseas subsidiaries…

Their reporting has been delayed…How can we estimate their sales or close the fiscal month?

Need to telework, but cannot afford any large investment

Cannot tell how they are doing from HQ…

No one knows when it ends…



Copyright (C) 2020 Business Engineering Corporation.

Keys Elements

①Speedy Collection & Analysis

- Cloud use to overcome physical distance
- Speeding up collection and analysis for timely decision-making

②Remote Control

- Management of overseas subsidiaries without sending HQ staff
- Internal control from HQ

③Flexible System

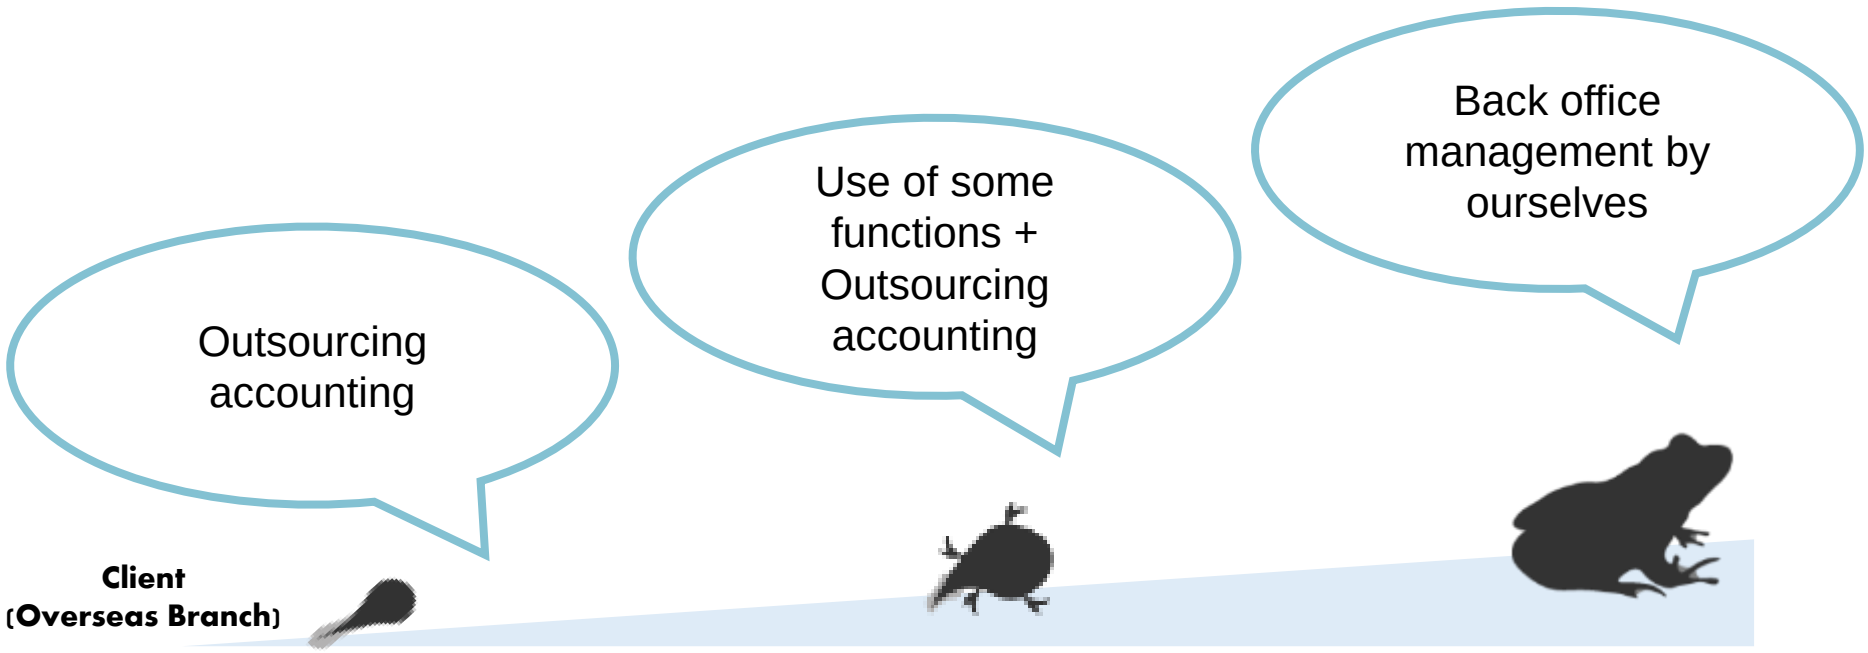
- Subscription of SaaS instead of system integration
- Operation system responding to changing circumstances
- Always updated on the local situation

Copyright (C) 2020 Business Engineering Corporation.

Our Approach

Starting as book-keeper, be indispensable consultant for your client.

Plan 1	Plan 2	Plan 3
BPO (Business Process Outsourcing)	**Co-sourcing**	**Glocal ERP Use**



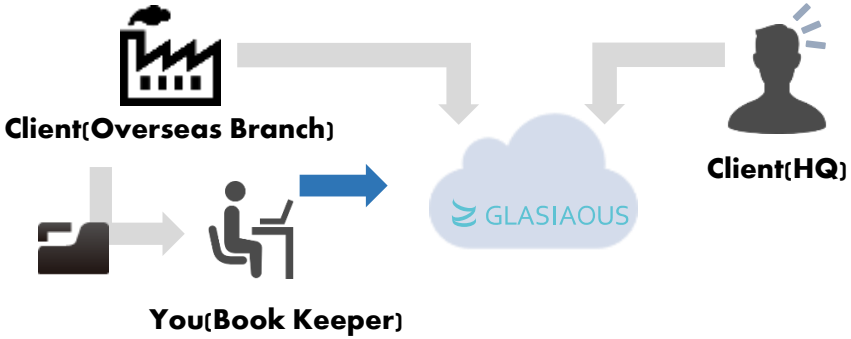
Copyright (C) 2020 Business Engineering Corporation.

Flexibility Matters.

Plan 1

BPO

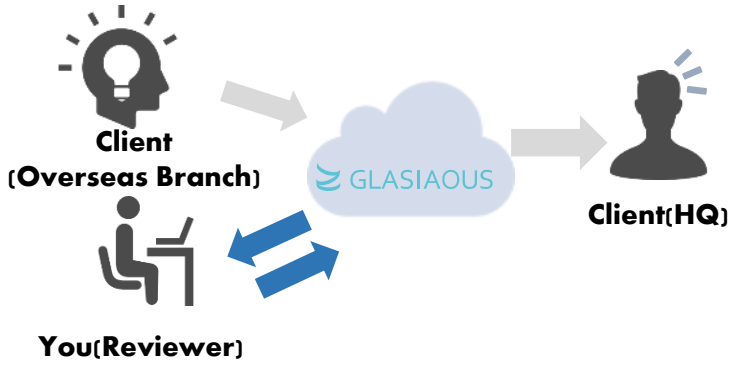
- Service delivered by the global alliance
- No double book-keeping due to language or currency



Plan 2

Co-sourcing

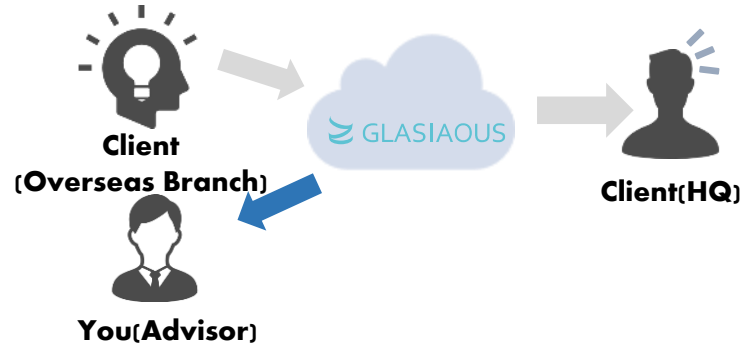
- Having the client use it as their ERP creates AR/AP and accounting journals automatically, which reduces your burden.
- Supports step-by-step insourcing



Plan 3

Glocal ERP Use

- Your consultation + IT service contributes to the client's global governance.

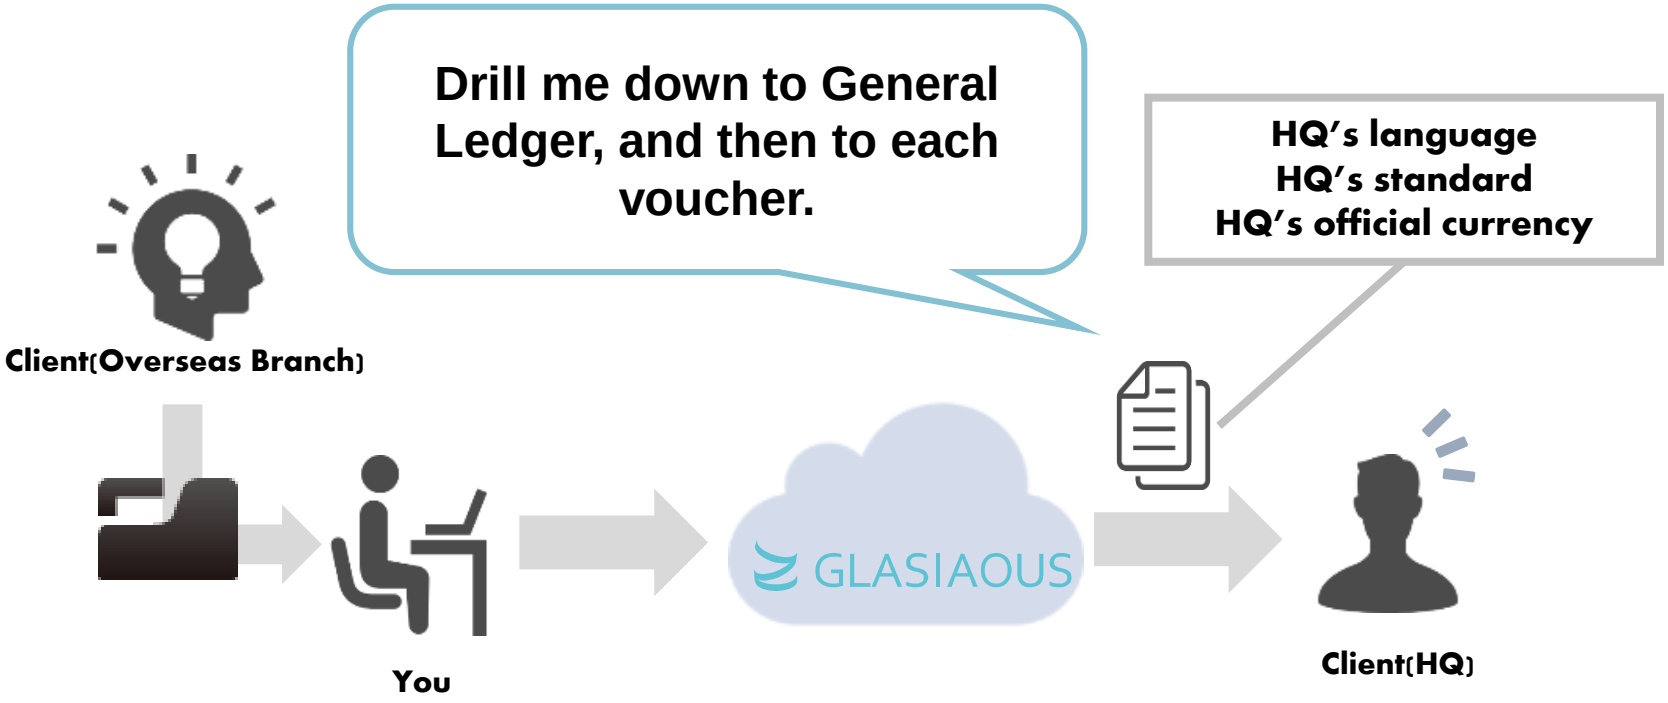


Copyright (C) 2020 Business Engineering Corporation.

GLASIAOUS BPO

Plan 1

- Sharing the platform with your clients, communicate across countries.
- GLASIAOUS Consortium cooperates with you.

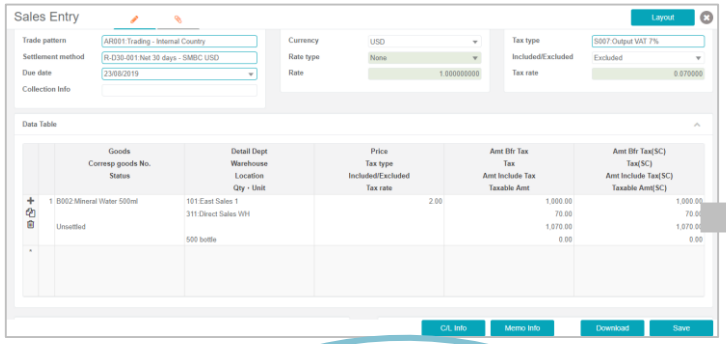


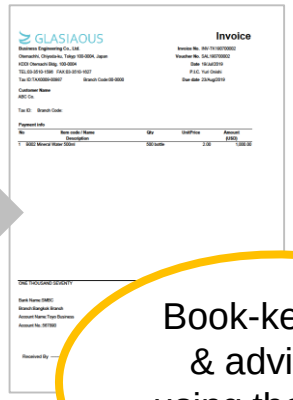
Copyright (C) 2020 Business Engineering Corporation.

Co-sourcing

Plan 2

■ You client creates and issues invoice by themselves.
⇒AR/AP vouchers and journal vouchers are automatically created, which reduces your burden.





Issuing invoices by ourselves.

Book-keeping & advisory using the auto-created journals

The sales data keeps updated and is always accessible.

Client(Overseas Branch)

You(Reviewer)

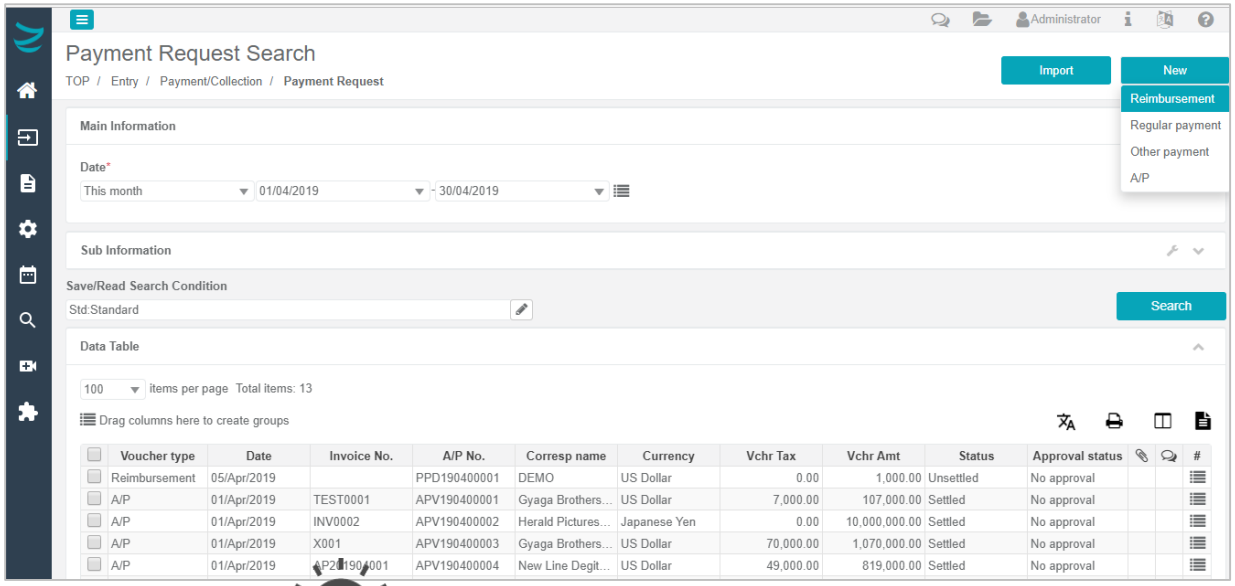
Client(HQ)

Copyright (C) 2020 Business Engineering Corporation.

Co-sourcing + Payment Agent

Plan 2

- Lists all the clients' payment schedule.
- Your client(Overseas Branch) creates advance payment vouchers on GLASIAOUS
  ⇒You check it and make payment
- Making the journals for regular payment (e.g. house rent) in bulk
- Your client(Overseas Branch) may use this function to claim expenses.

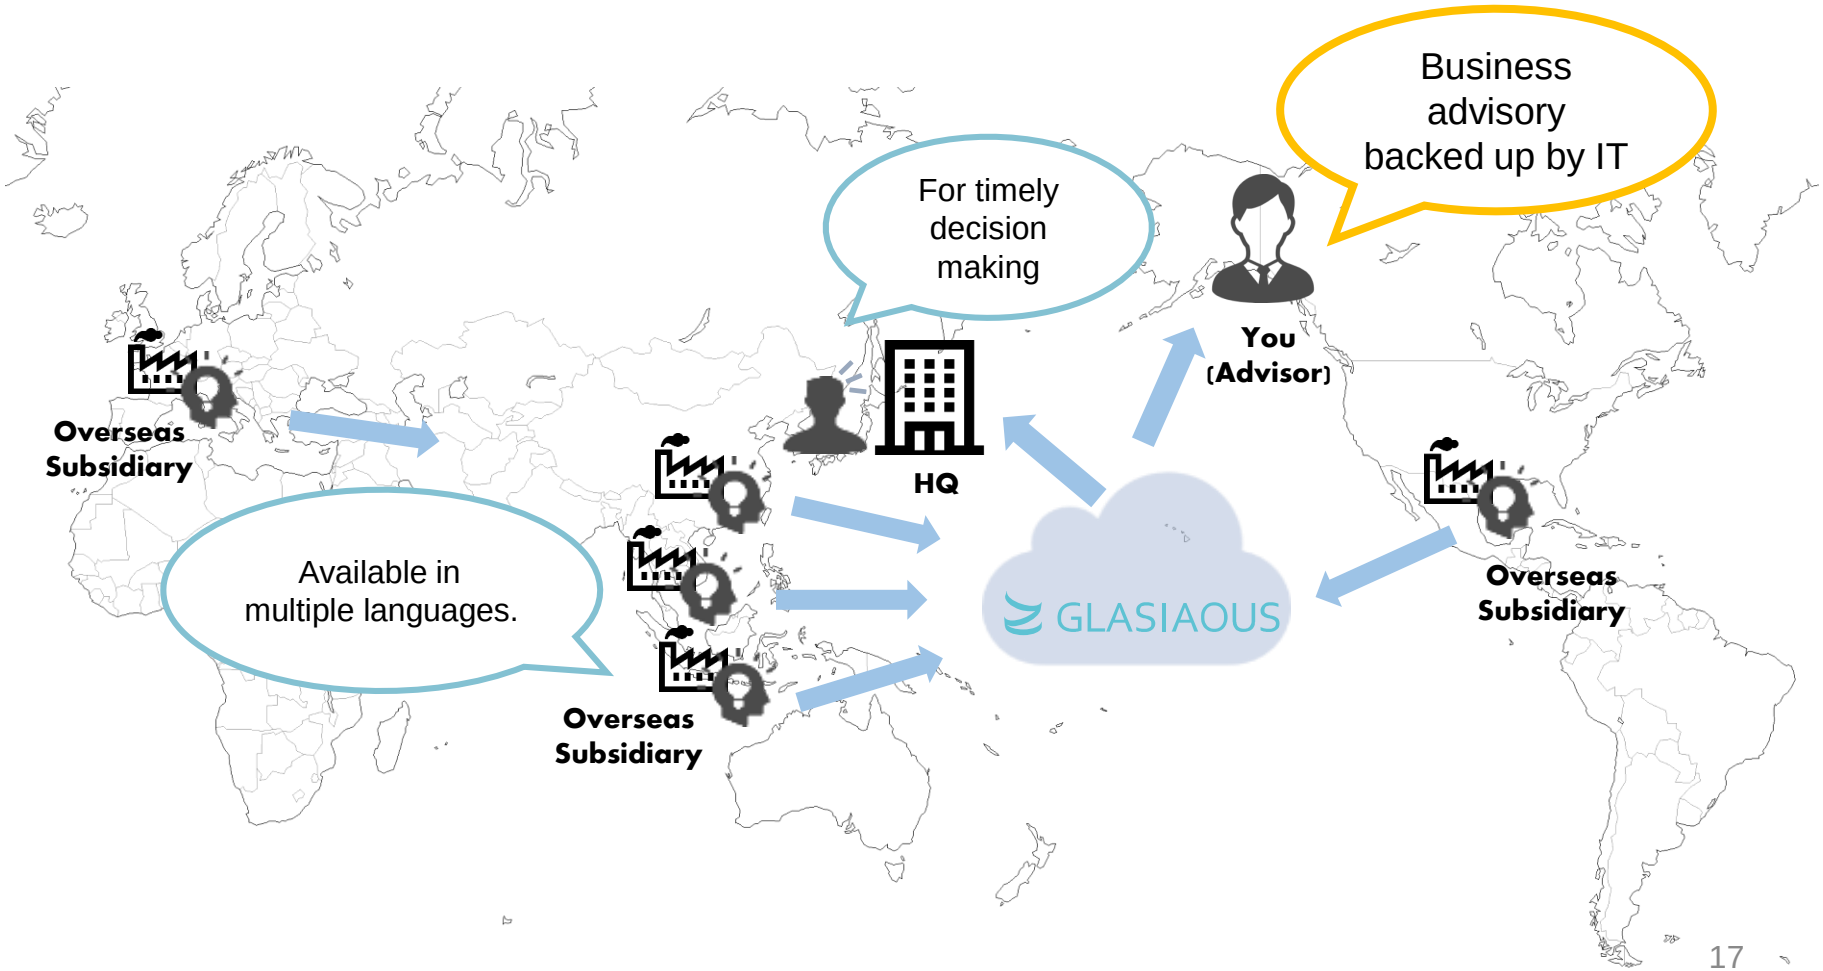


Copyright (C) 2020 Business Engineering Corporation.

Glocal ERP Use

Plan 3

- Selected in 25+ countries by 850+ companies.
- Extensibility as cloud ERP (including inventory control, sales & purchase).
- Your consulting service & IT service come together to your clients.



Cross-border Business of the New Era

Available anywhere

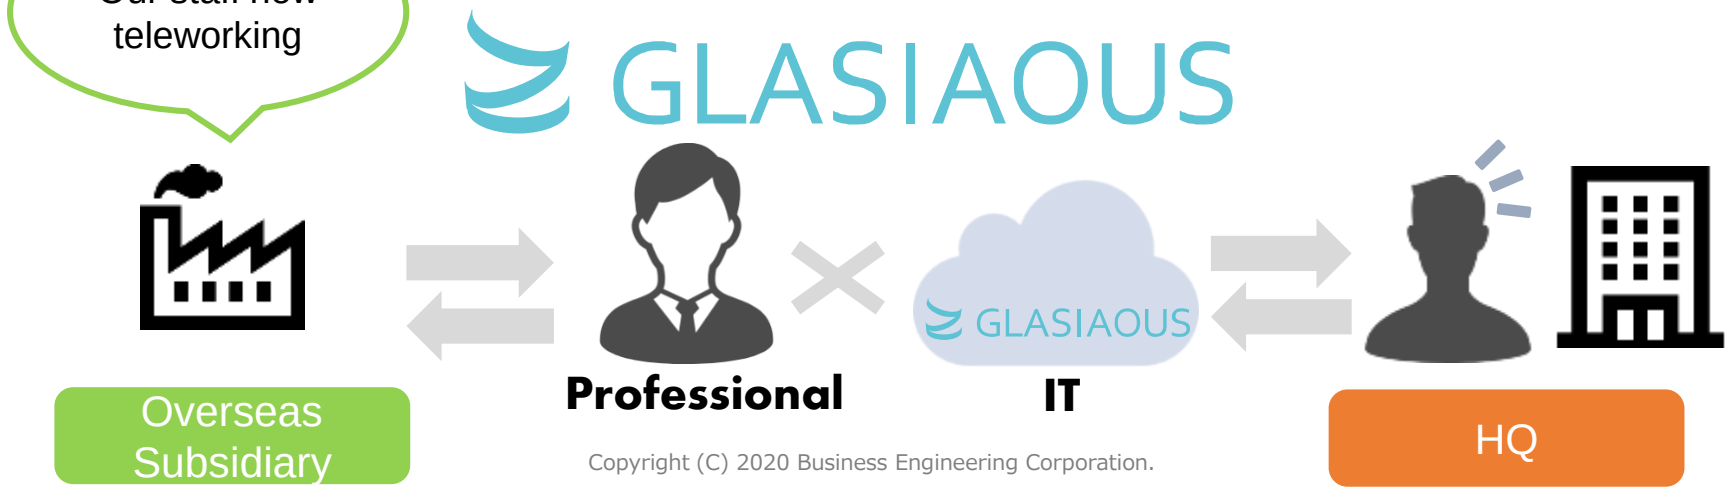
Smart analysis and comparison on cloud

Teleworking at minimized costs

Works anywhere as the accounting system / ERP

Flexible enough to respond to changing circumstances

Our staff now teleworking

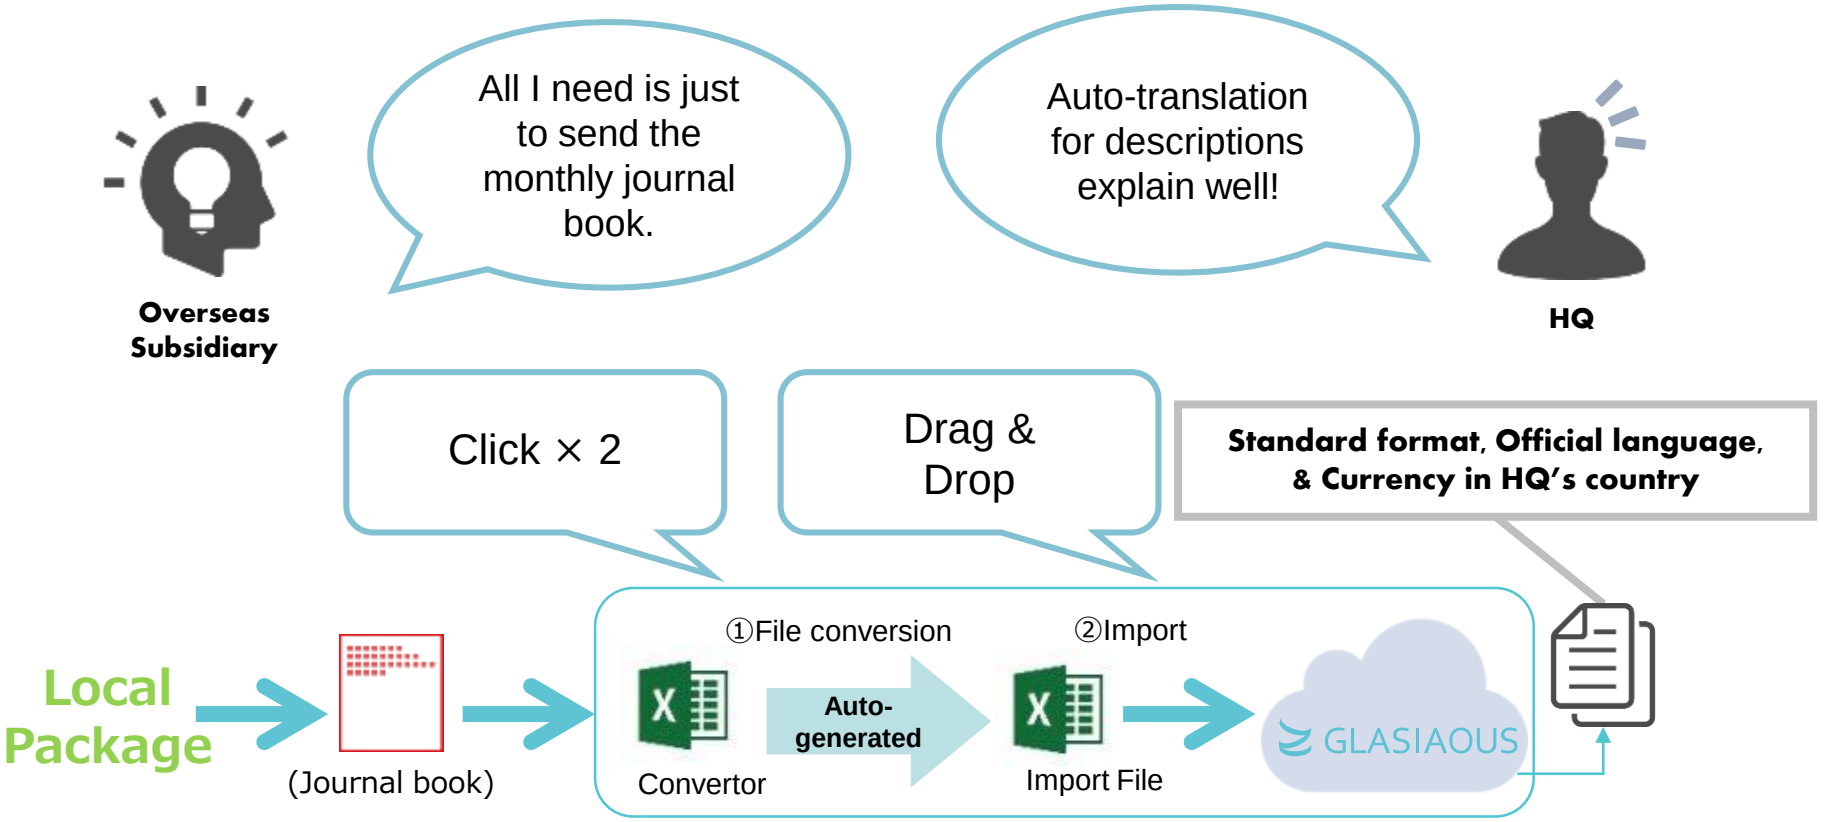


Copyright (C) 2020 Business Engineering Corporation.

(cf) Minimal Start

Journal Import (Monitoring)

- In case your client cannot replace their current system
- Just 2 steps to import journals.



Copyright (C) 2020 Business Engineering Corporation.

(cf) Packages Compatible with Monitoring

Supports local packages in addition to SAP, Oracle etc.

4. For Better Global Governance

Copyright (C) 2020 Business Engineering Corporation.

Committed to Global Governance

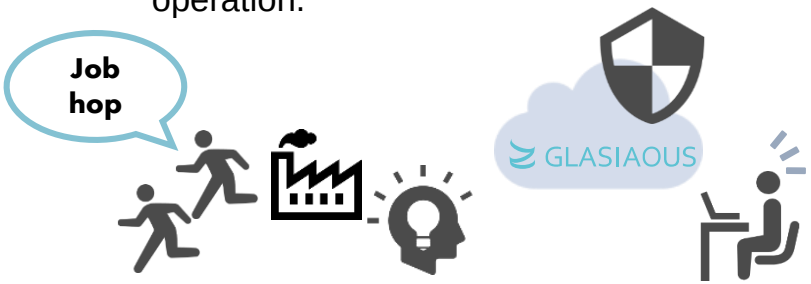
Internal Control

- BPO
- Access controlled user by user
- Approval process

	Manager	Staff
Enter data	×	○
Approve	○	×
Issue invoice	○	×

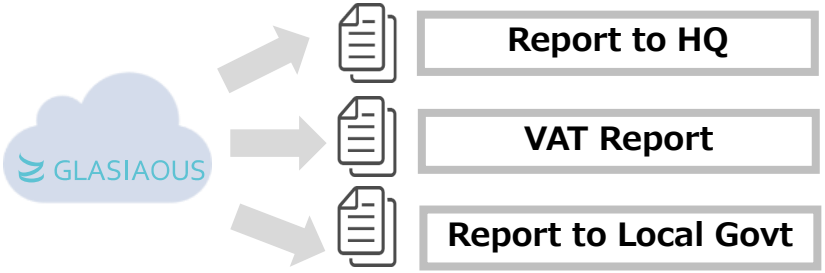
BCP

- Flexibility as a cloud app
- Prevents personalization of business operation.



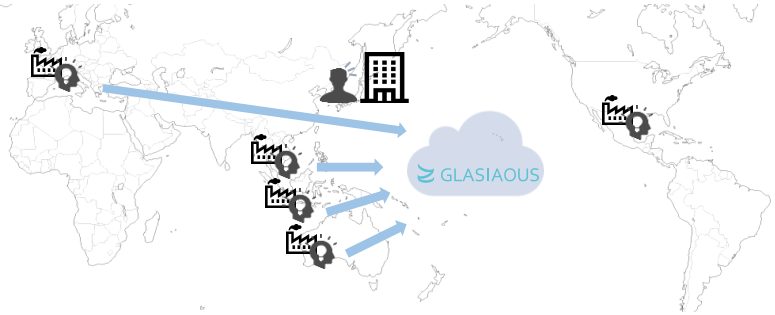
Localized

- Consulting services by experts in local business
- Multiple accounting standards available.
- Covers local tax rules.



Decision-making

- Unified platform for global management.
- Your overseas subsidiaries always visible.



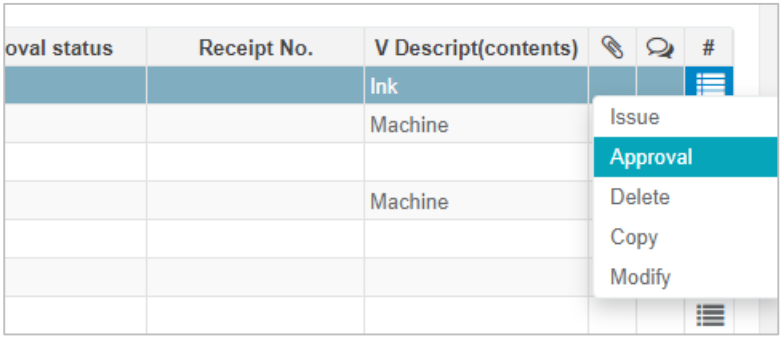
Copyright (C) 2020 Business Engineering Corporation.

Internal control

Strengthens internal control at overseas subsidiaries through role separation by BPO / Co-sourcing.

Preventive control

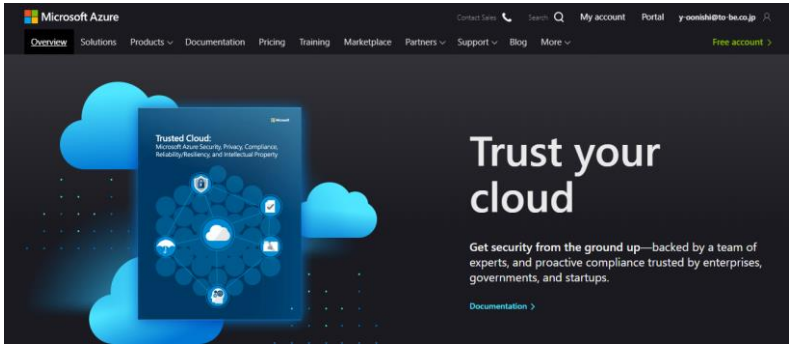
- Role & access controlled user by user
- Approval on the system locks the data from being manipulated.



Physical control

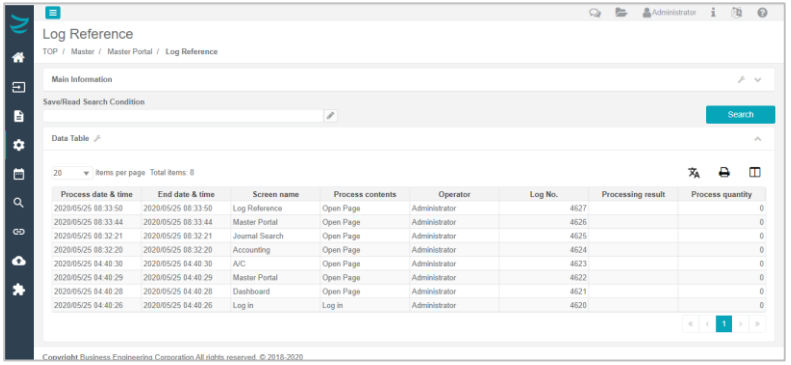
- Provided on Microsoft Azure

https://azure.microsoft.com/en-us/overview/trusted-cloud/



Detective control

- Log info available anytime on the screen.



Copyright (C) 2020 Business Engineering Corporation.

BCP

Business continuity backed up by cloud app.

Flexible operation

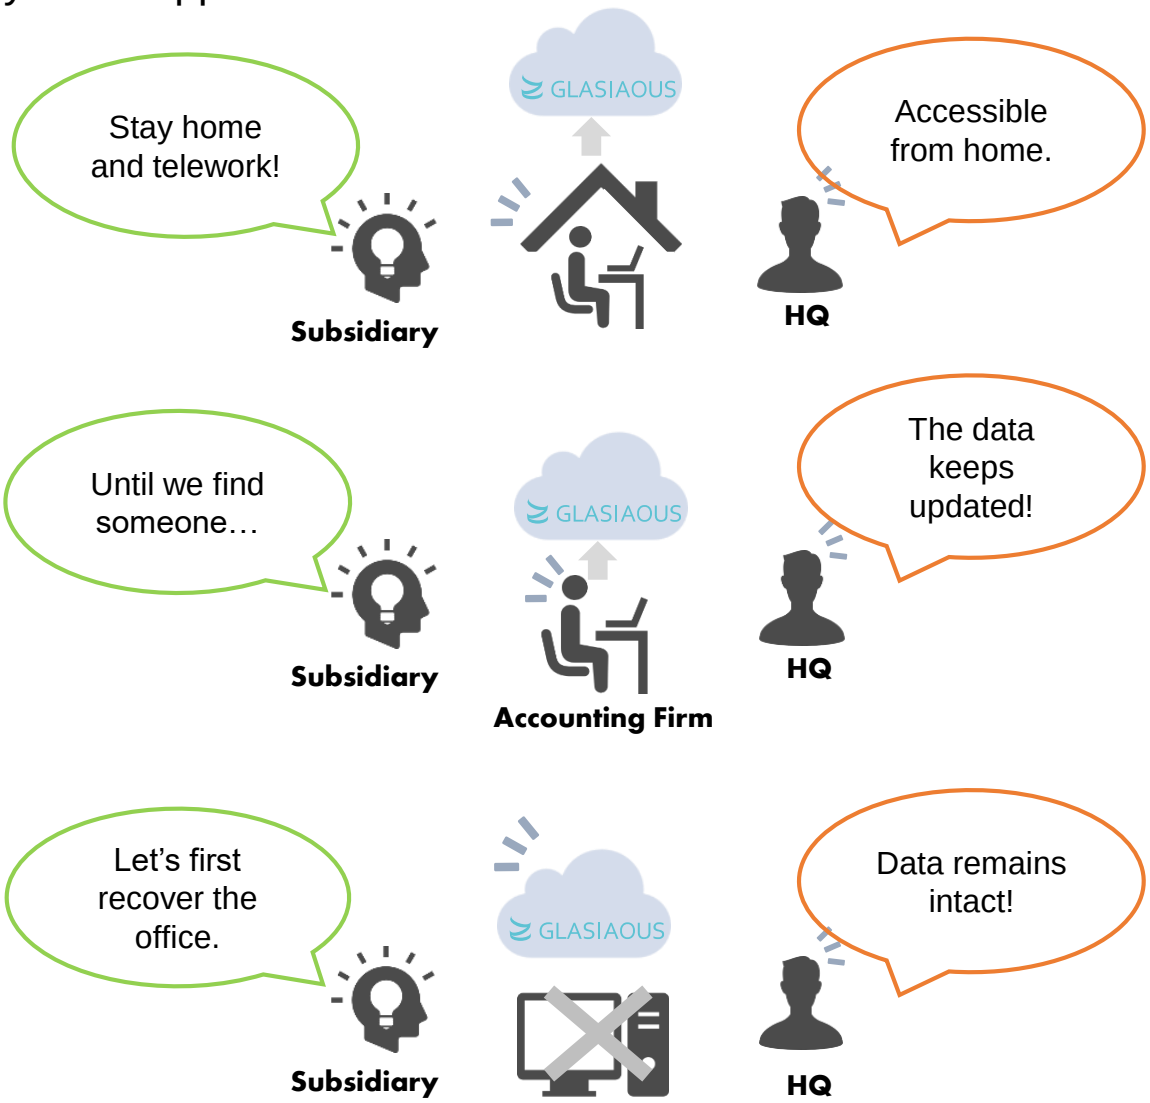
Keep running your business through teleworking

Prevents personalization

Temporary BPO helps the client having difficulty in recruiting accounting staff.

Counters disasters

Data stored safe even when PC is soaked or stolen.



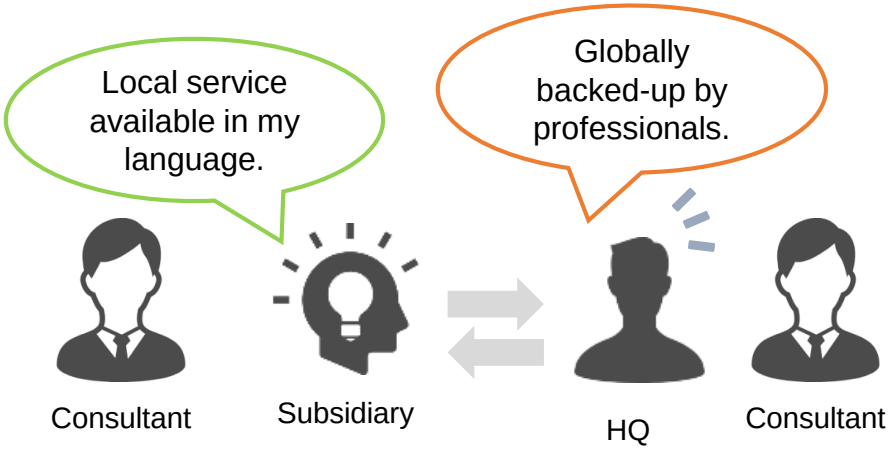
Copyright (C) 2020 Business Engineering Corporation.

Localized

Beyond difference in rules.

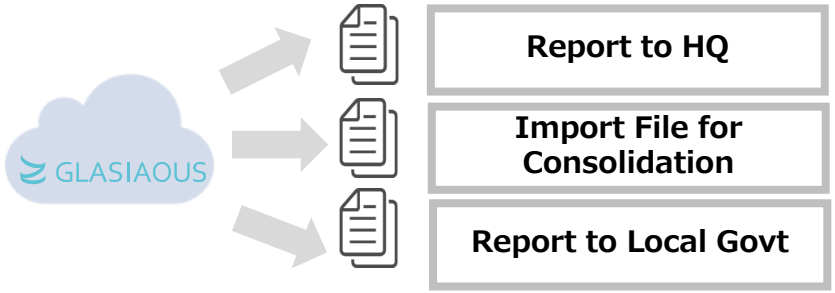
Consulting

- Global network of GLASIAOUS Consortium
- Makes opportunity to provide higher value-added services including audit, advisory etc.



Multiple standards

- Register report layout as many as you need.
- Just one click switches from one accounting standard to another.



Localized

- Option menus specializing in specific countries & regions. (*Refer to 6. Featured Functions)
- Developed & improved according to the feedback from professionals around the world.

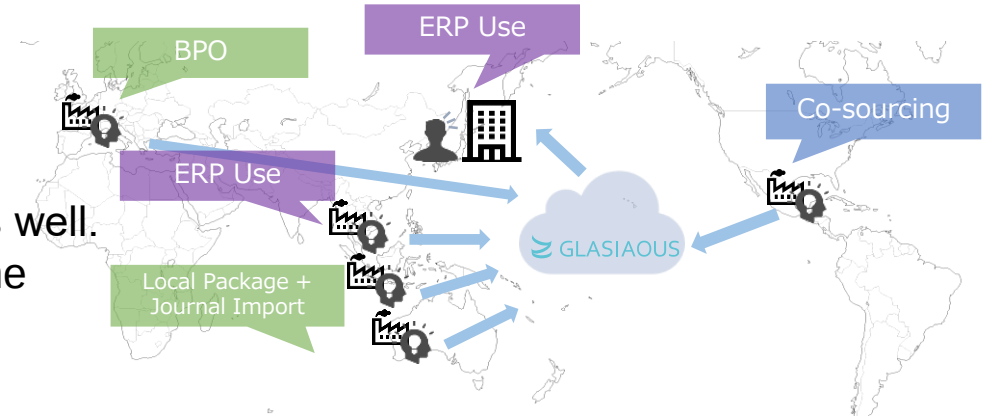
Copyright (C) 2020 Business Engineering Corporation.

Decision-making

Analysis and overview available at the same time.

Unified platform

- Global business visible at HQ
- Works as HQ's accounting system as well.
- FS of multiple subsidiaries in the same format on the single screen.



Analysis

- Various analytic reports available. (Refer to 6.Featured Functions)
- Improves data usabiliyu
- Downloadable in Excel、PDF. (*CSV available from Ver11.1.0)

Cashflow

- Moves in cash and deposits visible
- Alerts before the account runs short of.

Global Innovation Consulting Inc.

Unifying the accounting system in four countries leads to better management, speedy consolidation, and facilitates quicker executive decisions and smarter strategies.

Why GLASIAOUS

- **Cloud-based solution for global adoption**
- **End-to-end outsourced bookkeeping services**

https://www.glasiaous.com/en/cases/detail/263/

【Before】

- **A disparate set of accounting systems installed in different offices around the world made it difficult to gain complete visibility into the company's global business health.**
- **Recruiting qualified financial personnel proved to be a challenge in Myanmar office.**
- **Cloud accounting desired by clients.**

【After】

- **Quicker, smarter and more accurate global business decisions.**
- **Enhanced workflow and a more flexible workforce staff.**
- **System trial run available before official service delivery.**

Copyright (C) 2020 Business Engineering Corporation.

GLASIAOUS helps HTA solve accounting and tax issues for international corporations in Thailand.

Why GLASIAOUS

- **Multi-language functionality**
- **Multi-currency capability**
- **Compatible with multiple accounting standards**
- **Cloud-based solutions for multi-location businesses**

https://www.glasiaous.com/en/cases/detail/264/

【Before】

- **For client companies: Comprehension issues with local accounting items and financial statements in Thai / Constant personnel changes interfere with the continuity of accounting data upkeep.**
- **For own accounting functions: Too much time and efforts wasted in generating and sending financial data to clients.**

【After】

- **For client companies: Access to financial data at HTA Thailand from the headquarters made available anytime, in preferred format and language.**
- **For own accounting functions: Improved customer satisfaction with simplified process / hassle-free service delivery enabled by cloud**

Copyright (C) 2020 Business Engineering Corporation.

JC Tax & JC Accounting

Nagamine & Mishima
Accounting practice since 1989

10-minute report compilation on GLASIAOUS wins praises from international clients based in Japan – “Smartest solution to reduce overtime at the beginning of each month”.

Why GLASIAOUS

- Multi-language functionality
- Multi-currency capability
- Compatible with multiple accounting standards
- Cloud solutions for multi-location businesses
- Responsive and flexible help desk

https://www.glasiaous.com/en/cases/detail/262/

【Before】

- Having a large number of disparate sets of accounting systems (10 at its peak) to learn stressed out employees, and was a hindrance to manpower allocation flexibility.
- Report translation (Japanese-English) was a time-consuming process and translating a monthly report could take up to two hours per
- Foreign accounting systems did not comply with the requirements of Japanese tax rules.

【After】

- Service delivery requires only half the number of systems and leads to operational efficiency.
- Client report generation and translation now takes only 10 minutes each.
- A tedious five-man job can now be done by just three with little overtime involved.

Copyright (C) 2020 Business Engineering Corporation.

BDO Tax Co., Ltd.

Contributes to better governance of the client through global accounting outsourcing service.

Why GLASIAOUS

- **Multi-language, multi-currency, and multi-standard.**
- **More than worthy of affordable monthly subscription fee.**
- **ERP functions in multilanguage available on cloud app**
- **No expensive initial investment**

*Web site coming soon…

【Before】

- **Invisible accounting of oversea offices**
- **ERP packages too much & too expensive**
- **Draining manual work to cover differences in language and accounting standard**

【After】

- **Realtime visualization of overseas branches through standardization of accounting operation**
- **Minimized IT investment by using SaaS**
- **Over difference in language, currency and standard**

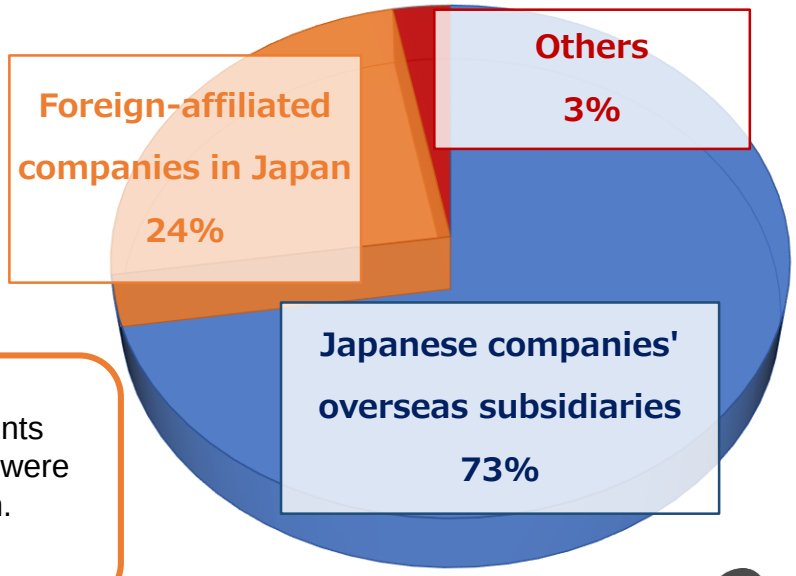
Voice of Customers

- Available on Web site. https://www.glasiaous.com/en/cases/

Unified accounting systems of all the group companies by adopting GLASIAOUS, which realized accurate financial data available in a short time and flexible manpower allocation backed up at HQ.(HQ in Japan w/ 3 overseas subsidiaries・Consulting/Staffing)

We realized insourcing of accounting without any system migration (Thailand・Manufacturing)



BPO helps us – Having expanded recently, we do not have our own accounting staff but need someone to make reports to HQ. (Myanmar・Retail)

Cloud frees us from server maintenance. Our requirements such as project code control were all met without customization. (German company in Japan・Wholesale)

Support in local language and localized functions available. That's why our staff not fluent in English can do their job on GLASIAOUS. (Vietnam・Manufacturing)
