

Backbase

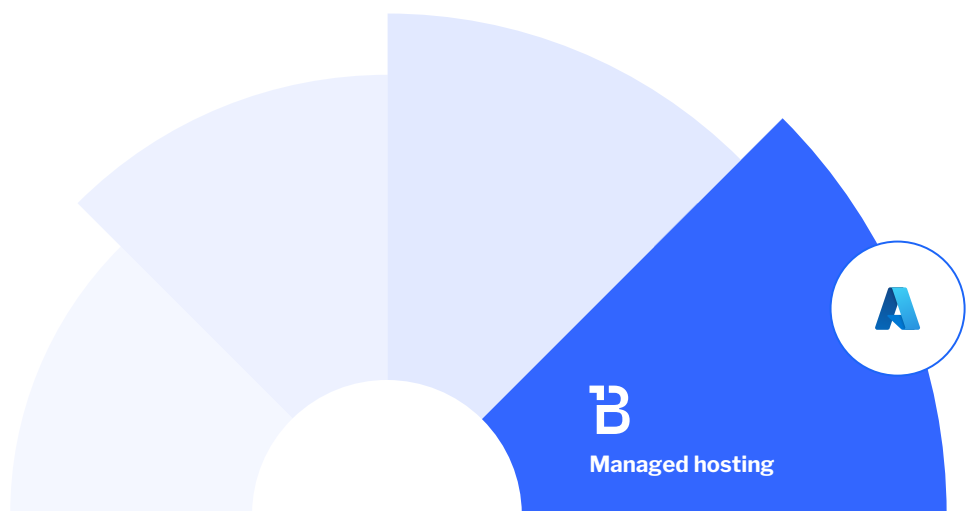

**7 ways managed hosting
drives banks forward**
Discover the hassle-free
path to innovation

Backbase managed hosting is a secure, scalable cloud solution for financial institutions of all sizes. With 24/7 monitoring, backups, and zero infrastructure hassle, **it empowers your teams to drive innovation and delight your customers.** Discover how managed hosting can transform your operations.

What is managed hosting?

Backbase managed hosting is a cloud hosted solution tailored for financial institutions, built on Microsoft Azure. We simplify infrastructure management, taking care of security, scalability, and resilience, so you can focus on orchestrating customer journeys.

Why Backbase?

Our managed hosting is purpose-built for the Engagement Banking Platform, seamlessly integrating with your systems for top performance. Backed by Microsoft Azure, it delivers secure, compliant, and always-up-to-date solutions. Plus, with transparent pricing, you get predictable costs and no surprises — freeing up your resources to invest in innovation.

up to 42%
cost savings

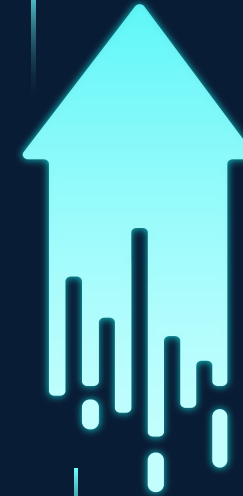

99.9%+

Key benefits

With Backbase managed hosting, your bank gains more than just a hosting solution — you get a foundation designed to drive efficiency, innovation, and resilience. Discover how managed hosting supports your goals and sets you up for long-term success.

1

Cost savings

Cut infrastructure expenses by up to 42% and reduce operational costs, allowing resources to be reinvested in growth and innovation.

2

Fast time-to-market

Get fully operational in one week, enabling rapid feature rollouts and faster response to market demands.

3

High reliability

Enjoy 99.9%+ uptime with multi-zone resilience, keeping services uninterrupted and customer trust intact.

4

Top-tier security

SOC 2 compliance, regular updates, and proactive monitoring protect data and ensure regulatory alignment.

5

Scalability on demand

Effortlessly adapt to traffic increases, ensuring stability without compromising performance.

6

Freedom to innovate

Free your teams to innovate by removing the infrastructure management burden.

7

Support & partnership

Our digital banking expertise and Microsoft Azure's secure infrastructure offer seamless, priority support and reliability.

Customers who made the switch

With over 40 banks on Backbase managed hosting, **we deliver proven expertise at scale**, offering collective insights and efficiencies no single in-house team can match.
