

Find Out if Your BizTalk Application is Suitable for Cloud-Migration and Azure Integration Services

Ballard Chalmers' BizTalk migration assessment to Azure Integration Services for custom applications.

We are one of the UK's leading custom software development and integration companies, specialising in Microsoft Azure with a heritage of expertise in BizTalk. We have worked with countless clients and their BizTalk systems, getting them cloud-ready and modernising them with Azure Integration Services.

WHAT WE OFFER

Ballard Chalmers will assess your custom Bizalk application's potential for cloud migration and advise on the relative benefits of modernising with Azure Integration Services.

We will advise on what will be required to make the application cloud-ready and provide an estimated time and cost budget to modernise to Azure Integration Services, with documentation.

With years of experience working with custom BizTalk applications and a thorough understanding of Microsoft Azure, we are well placed to help you fully leverage all of Azure Integration Services benefits.

WHAT OUR CUSTOMERS ARE SAYING

"Ballard Chalmers worked with RHS to design and deliver the RHS Integration platform that underpins our first application using Microsoft Azure. The Digital Membership App has been a great success for the RHS, eliminating paper forms and moving to a native digital solution.

– Development Manager, Royal Horticultural Society

Microsoft Azure

Microsoft Azure is an ever-expanding set of cloud computing services to help your organization meet its business challenges. With Azure, your business or organization has the freedom to build, manage, and deploy applications on a massive, global network using your preferred tools and frameworks.

WHY AZURE

BE FUTURE-READY

Continuous innovation from Microsoft supports your development today, and your product visions for tomorrow. With 1000+ new capabilities in the past year, you can build on the latest advancements in AI, blockchain, Kubernetes, containers, and databases to keep you ahead of the curve. Our enterprise grade analytics solution outperforms the competition, costs less, and is fully compatible with your existing development, BI, and data science tools.

BUILD ON YOUR TERMS

You have choices. With a commitment to open source and support for all languages and frameworks, build and deploy how you want to. Take advantage of the full-featured, integrated development environments with built-in support Visual Studio and Visual Studio Code, the most popular IDEs trusted by 15M+ developers.

We embrace open source, drive innovation through collaboration, and contribute back to the community.

OPERATE HYBRID SEAMLESSLY

On-premises, in the cloud, and at the edge - we'll meet you where you are. Integrate and manage your environments with tools and services designed for hybrid cloud.

Enhance security, simplify access, and set smart policies across your different environments with a single identity platform trusted by 90% of enterprises globally.

TRUST YOUR CLOUD

Get security from the ground up, backed by a team of experts, and proactive compliance trusted by enterprises, governments, and startups.

With a \$1B+ investment in security R&D and 3,500 cyber security experts, security is foundational for Azure.
