

App Roadmap

A strategy roadmap to achieve business goals
by leveraging Power Platform

What is App Roadmap?

Barhead sets customers on the right path by assessing their holistic application requirements, including new application needs and migration of existing legacy applications to define a roadmap for the implementation of solutions on Power Platform.

Why Barhead’s App Roadmap?

Barhead's deep experience underpins implementation services that help customers rapidly define and scope business application requirements, high-level solution design and program planning centered around business priorities and execution capabilities.

Unique Value Proposition

- **Structured Approach**
Establish a blueprint that enables a structured approach to roll out Power Platform solutions.
- **Data Driven Decisions**
Consolidate data silos providing the ability to analyse data and make informed business decisions.
- **Cost Savings**
Save maintenance or infrastructure cost of legacy platforms.

Included Activities:

App Scoping

Scoping and assessment of new applications

App Assessment

Assessment of existing legacy applications

App Roadmap

Roadmap planning to get the process up and running

Typical Scenarios

- Modernising and digitising business applications and manual processes.
- Retire legacy platforms with an existing platform through new technology solutions.
- Business needs to organise data and implement data integrity across multiple applications.

Business Outcomes

- ✓ App Assessment Report – high-level Power Platform solution design.
- ✓ App Roadmap – recommend approach and phasing of the rollout.
- ✓ A high-level implementation plan and estimates to assist with business case development and recommend next steps.

Pricing

Pricing is available on request from the Barhead team. Fixed price and time and materials options are available.

Barhead is a specialised consulting firm focused on delivering business solutions leveraging the strategic value of Microsoft Business Applications through Dynamics 365 and Power Platform. We believe that it is a combination of people, technology, and business drivers that underpin the most successful implementations.

Barhead provides global support for customers, providing deep expertise around:

Power Platform tools – Power Apps, Power Automate, Power BI and Power Virtual Agents.

Business solutions for standalone apps, or apps that extend existing Microsoft solutions.

Pre-built solutions from Barhead's research and development team.

Deployment models, best practices and governance.
